

Wednesday, August 30, 2006 in the year of our Reigning King, JESUS, the CHRIST.

I, Michael Swenson, being of sound mind and sober constitution and with full understanding of the potential consequences of this action; having my entire being fixed on our REDEEMER, DELIVERER, SAVIOUR AND LOVER OF OUR SOULS, OUR **TRUE COMMANDER AND CHIEF, YAHOSHUAH (JESUS CHRIST) AND HIS DIVINE REWARD**, do hereby lay down my life, my will and my desires, to bring to your attention what I perceive to be one of the most serious matters ever in the history of this nation and of the whole of mankind. I have found out, through an attempt by medical practitioners to take my life, that a serious hereditary condition exists that makes people easily susceptible to murder by an improper blood transfusion. If the victim is blessed enough to survive the attempt, the slow agony of the deteriorating blood that results from the murder attempt is the equivalent of inhumane torture and eventually results in death. In attempting to get diagnosed and treated for this condition, I have discovered that the people of this nation and the world are not being told the truth about this serious genetic condition of the blood that makes those who have it more susceptible to every form of terminal illness.

Please take this matter most seriously as it just may save you or someone you love and care about from a fate worse than death.

Read all of the attached before passing judgment and I know that all who assist me in putting out the word will be BLESSED!!!!!!!!!!!!Amen.HALLELUJAH, AMEN!!!!!!!!!!!!!!!!!!!!!!!!!!!!(SHOUT IT)!!!!

My permission to print or broadcast the attached 28, twenty eight, page affidavit (and any public awareness additions made thereto by me) is given if and only if, the affidavit is published in its entirety without editing, annotating, additions, deletions, or changes of any kind. **THE ONLY CHANGE(S) OF ANY KIND ALLOWED IS THE OMISSION OF ANY OR ALL OF THE PARTIES NAMED, IF YOU CHOOSE TO DO SO. OTHERWISE, I ACCEPT FULL RESPONSIBILITY, LIABILITY, AND/OR CONSEQUENCES FOR OPENLY PROCLAIMING THE IDENTITIES TO THE BEST OF MY KNOWLEDGE OF THOSE WHO HAVE PERPETRATED, CONDONED AND PARTICIPATED IN THIS EVIL ON ME (AND SO WELL PRACTICED MUST HAVE BEEN ON OTHERS AS WELL).** Any disclaimers must appear either at the beginning or ending of the publication. Any opinion, whether for or against, must be under separate heading as a separate article. If any publishes, broadcasts or distributes the affidavit by any means without adhering to these requirements then they may indeed be liable for the results; but if my instructions are followed, not only will you be helping to save lives (I am firmly convinced number in the millions in the United States of America alone), but I will not hold any who do so liable; (nor may anyone prosecute or bring tort action in my behalf against you for so doing; if and only if done verbatim); if it results in my untimely demise by those who have been participating by planned conspiracy in the unbelievable atrocities perpetrated on innocent millions because of rampant greed and corruption.

Look well to yourselves in the days ahead.

May all those who know the Lord your GOD, JESUS the CHRIST, be strengthened, encouraged and understand now why you've been suffering in silence. As such, I want the heading of the Affidavit published or distributed by any means to read, **"Let the Suffering Silence Cease!!!!"**

Written with the gravest sincerity and in GOD'S HOLY LOVE for you all,

Michael Eugene Swenson, adopted, born Michael Doetsch; 522-92-4090

Affidavit of Current and Ongoing Events Within the United States of America

I, Michael E. Swenson, being of sound mind and sober constitution, do hereby record absolute truth regarding events I have witnessed to the best of my knowledge. May God grant me the ability to accurately convey what I have witnessed so that others may easily understand and so that the wicked practices I have experienced may cease. In Jesus' (Yahoshuah's) Omnipotent Name, Amen.

In May of 2004, I went into a hospital located in the state of Washington to have a septoplasty and tonsillectomy performed in order to correct my ability to breathe correctly. I had suffered a broken nose as a child and had a severely deviated septum preventing my CPAP machine for my diagnosed sleep apnea from working as designed. Prior to surgery, I had a prescreening performed by my surgeon, Dr. Michael Cruz, 217 W Cataldo Av. Spokane, WA 509-624-2326 (this surgeon was referred to me (and present the day of surgery) by Dr. Timothy Chestnut 801 W 5th Ste 504 509-625-1915), in order to make sure surgery was appropriate for my state of health. During the prescreening, my surgeon asked some poignant questions that I believed at the time was just polite small talk. He asked me what profession I was in and whether or not I was successful at it. I replied that I was in real estate and that I had made some fortunate investments. He further inquired as to what I estimated the value of them was worth and if I had a will or not yet. The questions were interjected in such a manor as to seem like polite conversation rather than the serious prying into the state of my affairs that it was. So I estimated somewhere between 2-3 million in holdings and that I had been too busy to get a will in place and that until recently my wife and I had had no assets to protect. He said something about a will might be a good idea to get in place as you never know what might happen during surgery however minor it may seem. The questions continued about a transfusion if one were necessary. All this questioning made me inquire as to just how "routine" this kind of surgery was. He assured me that it was minor but that sometimes occasions might arise that would require a transfusion. I didn't want any blood products, period; but after his prodding, "Even if you were dying from blood loss?" I conceded that if and only if I had lost so much blood I was in imminent danger of dying, then a transfusion would be permissible. I also insisted that it had to be an exact match only and no O- blood. At the time I could not remember why I was so apprehensive about receiving a blood transfusion and why I was insisting it had to be an exact match only, I just knew I had to.

I also had to go to the hospital, Deaconess Medical Center 800 W 5th Av Spokane, WA 509-458-7100, involved to have my blood prescreened and to sign a blood transfusion permission form. I wrote on the form itself that I was to only be given a transfusion in the event of an emergency only (that I had lost so much blood I was in danger of dying from blood loss) and that it had to be "EXACT MATCH ONLY!; O+ ONLY!" I asked for a copy of that form at the time and the nurse was obviously not pleased I had written

on the form. She went behind a wall where I could hear whispered conversation and she soon came back and said that their copier was being serviced and that the nearest one was some three floors away but that she would still get me a copy if I wanted it. I regret that I didn't insist on it at the time but the way she said it in such an exasperated voice, I just politely asked to make sure it was put in my medical record. Again, I did not remember at the time why I was so apprehensive about a blood transfusion, I only knew I had to insist on an "EXACT MATCH ONLY" and that I really didn't want one at all.

The day of surgery came and as a minister of the Gospel of Jesus Christ, I prayed fervently, not feeling at all comfortable inside about it. Nevertheless, I knew I had to get it done in order to breathe through my nose properly. Prior to going under the anesthesiologist (this field of medical practice is probably most corrupt concerning Wilson's because they have to be present during virtually all surgical procedures), Dr. Frank Joy (please verify all attending physicians and assistants in the medical record and daily employment records from Deaconess) 1415 N Houk Rd Ste A, Spokane, WA 509-924-1990 asked me the same questions my surgeon had asked about my profession, the status of my estate and whether or not I had gotten my will in place yet. Again, I foolishly thought this was all just professional small talk and so answered as I had to my surgeon and that my wife and I had simply been too busy to get our wills in place yet. He reassured me I had nothing to worry about anyway as this was a very routine minor surgery. I was more than apprehensive as he put me under and my sole comfort was that I entrusted my soul to the safe keeping of our LORD.

The next thing I recall was waking up in a dark room with a young nurse/intern standing next to a blood bag holder and squeezing a blood bag that was going into my I.V. I asked her what happened and she replied that apparently I had lost an unusual amount of blood during surgery and so they had to give me three units and she was finishing the last of the three units at that time. She was standing next to a machine that I didn't recognize and so I asked her what it was and she replied that it was a blood warmer because it was being used to keep the blood warm that she was giving me. She continued that they had been unable to locate O+ blood in the entire hospital and so they had decided to give me raw O- blood rather than the frozen compacted cells and she said that raw blood was better in an emergency situation. (I knew inside that was incorrect, but I felt myself slipping into unconsciousness and so I muttered something about universal donor before blacking out.) Next I awoke in a brightly lit room with a huge tube down my throat and I was suffocating. Nurses and doctors were all around me frantic as I sat up and tried to pull the tube out that was choking me. Someone was yelling, "Hold him down! Hold him down!" and another, "Put him out! Put him out!" which they did. Then I awoke in what appeared to be yet another room with just a young man and woman. When I awoke, I was suffocating again with the tube in my throat, only this time my hands and legs were tied to the gurney and I couldn't sit up or do anything but jerk around and pound my fingers as loud as I could on the metal rail trying to get their attention. The woman had her back to me and as I struggled, the young man smirked and turned his back on me. The woman was acidly saying that acting like a wild man wouldn't help me and that they had to restrain me to keep me from pulling the tube out (that was in my throat and preventing me from screaming for help). My mouth filled with a thick foamy substance that began

running down my cheek out of my mouth as I tried frantically to get them to look at me so they could see I was suffocating. As I felt the darkness closing in, I shed a tear that I was unable to tell my wife I loved her one last time and had just a moment to think, "Into Thy hands I commit my spirit, LORD JESUS." Then I felt my entire body seize, convulse and everything went black.

I really don't like to think too much about it, I still suffer trauma every time I do.

You might be thinking at this point why has it taken him two years to tell someone about this and if they really wanted him dead, why is he still alive. Well, I'll tell you that at the time so much had happened to me, it took me all this time to recover enough strength and cognitive ability to remember it all clearly. Let me tell you as best as I can recall exactly how it happened.

I really thought I had suffocated to death at that last episode (and apparently I did), but I was surprised to awaken yet again in yet another region of the hospital in I.C.U. (yet another attending nurse about my height and healthy build) The story went something like I had suffered pulmonary edema from the negative pressure around my lungs due to my sleep apnea condition and that it was an extremely rare event and that I was very lucky to have been resuscitated by a shot of adrenaline. My wife, Jane Swenson, told me at the time that she had been told I had suffered pulmonary edema followed by cardiac arrest twice; once for three minutes and another for five minutes without oxygen or heart beat. She also told me that the attitude of all the involved doctors changed dramatically after the attempt on my life; that prior to surgery they were all well-mannered and friendly and afterward extremely aloof and cold. That would correspond to my memories. Finally, I was transferred to yet another area of the hospital to complete recovery. I was given oxygen, and they had a catheter in place. I was given intravenous hydration. I asked the attending nurse why I had a slight elevated temperature, sweats followed by chills, and dark brown urine and she replied that I was apparently suffering from "a slight allergic response to the blood transfusion". She also said that the brown urine was from the diuretic they were giving me. (I later found out these responses were all lies).

I was given prednisone and Norco (? Spelling, it's a pain medicine; I later read on the Internet that diuretics and prednisone are typically used to treat Acute Hemolytic Blood Transfusion Reactions) and sent home to recover. My wife and I had purchased recliners, just so I could rest upright with the splints in my nose. I was very ill, my intestines felt like stone and it was some time before I could eat solid foods. I drank mostly, and ate very soft foods like yoghurt and cooked spinach. The time came for my splints to be removed and my surgeon, Dr. Cruz, did the job. I must say that part of the surgery was a success. I could breathe through my nose sufficiently for the first time in over twenty five years and could actually smell things I hadn't since I was a child. Food tasted better and I thought I was on my way to a successful recovery.

I did remember the part about suffocating to death with my hands tied and I notified the hospital involved that if they were going to tie someone to a gurney they should've at least placed an emergency button in their hand. I also stated that I didn't believe law

suits (strictly for personal revenge) were appropriate (due to my faith) and that I only wanted to make sure they implemented that in the future so no one would go through what I did. Months went by and I tried very hard to return to full time work, but it was as if I just couldn't get my life force energy back no matter how hard I tried. I studied, changed my diet to the very healthiest recommendations, and spent thousands of dollars on the world's best supplementation products (as I'm fundamentally opposed to pharmaceuticals due to all the harmful side effects and my studies concerning them in the Holy Bible). I got a call from the anesthesiologist, Dr. Joy, regarding my written complaint of being tied to the gurney and he assured me that had never happened and that it was "psychological transference" from the previous episode I noted above and that the second episode had never happened at all. I became so enraged during that phone call from him, I almost decided to litigate the matter and I struggled with my faith for months regarding that course of action and eventually chose to forgive them, as I really was too weak to take on such a battle anyway and I wanted inner peace rather than turmoil over the wrong that was done to me and the physician(s) unwilling to apologize for it but tried to dismiss it with meaningless jargon.

As more time passed, I found certain supplements helped and I had some better days, but overall my health was continuing to decline. Eventually, it was becoming next to impossible just to make it out of bed, go to the bathroom and feed myself. Whether I slept 4 hours or 14, I just never felt recharged and it was becoming impossible for me to work. In between, days or weeks of not being able to do anything much at all but make a few phone calls in a desperate attempt not to lose my clients, I would get on the Internet and try to figure out what was going on. I started entering all my symptoms and was fairly certain that somehow I had developed hepatitis. I went to see an Internist, (Dr. Tepak Haw in Coeur d' Alene, ID who literally disappeared from this entire region and ceased medical practice in this region shortly after diagnosing me and the direct/indirect coombs test record somehow also disappeared) and had extensive blood work done. I tested negative for all currently known forms of hepatitis and everything appeared rather normal except for a slightly elevated ALT and cholesterol reading. There was also something about the direct/indirect coombs test. What he decided was wrong with me was that I had tested positive for infectious mononucleosis (I later read this can indicate Wilson's). I asked him how I could've gotten mono, since I had been at home for months and my wife and I had not been intimate for some time because I had been too ill. He looked at me skeptically and said something about kissing or sexual contact (of which I knew neither had occurred). He said I only needed to rest and offered some form of sleep aid, which I picked up at the local COSTCO. I continued to study and research and attempt to find natural products that would help me recover.

My short term memory was getting so bad, and the effort to get up out of a chair so strenuous that by the time I stood, I was forgetting why I had made the effort in the first place. I was forgetting food in the microwave, and I began to think I was developing early stage Alzheimer's. At forty years of age, this was very draining that not only was I physically without life force, but that mentally I was beginning to suffer as well. I thank God, my wife found this product known as Lucidal. About a month after taking it continuously, I woke up one morning remembering everything clearly that had happened

at the hospital. I wept and I wept. And then I got angry. Angry enough to begin to seriously research transfusion reactions and everything that had happened to me together with my progressing worsening symptoms of illness. As I did so, I came across ample information that what had actually happened to me is known as an acute hemolytic adverse transfusion reaction. It's a reaction that occurs when a recipient is given incompatible blood and causes pulmonary edema (suffocation on your own bodily fluids) followed by cardiac arrest and can result in death. Adverse transfusion reactions such as this are supposed to be handled immediately so that the donor's blood and recipient's can be analyzed to find out just what brought on the reaction. In my case, the Rh factor incompatibility was the primary reason, but raw blood is a last resort not a first in an emergency situation because of all the antigens and antibodies involved in both donor and recipient. (I learned this as a medical laboratory technician in the Army when I was younger). Regardless, raw O- blood was given me against my express verbal and written instructions and nearly caused my instantaneous death and now is causing an even worse scenario in that I'm dying in excruciating pain as a result.

Let me explain further. I continued to seek the reason(s) for my ill health as I developed more and more symptoms. My dental hygienist (because this office is not involved in the cover-up I will protect their identity at this time but I will say, my dentist was going to examine my mouth when I called him and told him about certain conditions in my mouth and told me to stop by anytime, I notified him I was coming and shortly before I arrived they closed their doors, shut off the lights (although I knew they were inside because I walked across the hall and the receptionist there told me she just saw them and was surprised they were suddenly "closed"); in addition, this busy family practice suddenly changed their normal operating hours as a result, I strongly believe they were pressured by our corrupt government officials trying to keep Wilson's from public knowledge); yes, the hygienist noted that I had petechiae (tiny, pin-point red dots in my inner lips and mucous lining of my mouth); she said that a friend of hers had developed those shortly before she was diagnosed with leukemia and that it was probably not so serious in my case, but that I should look into it. Well, she didn't know it, but the symptoms I had been experiencing kept directing me to leukemia on the Internet; so this didn't bode well with me. As I researched this additional symptom, it only confirmed my suspicions, but another topic of study reared its ugly head.

It's a hereditary condition know as **Wilson's Disease**. If you decide to research this topic, I **strongly** suggest you do so from a public forum, such as a library. I didn't know it at the time, but this condition is being kept from public knowledge and even from the knowledge of the majority of medical practitioners. Those in the "know" about this condition in hospitals across America may not be trustworthy. (At least not the ones I've encountered). You see, a patient with Wilson's will almost most certainly die from a bad transfusion. But let me continue as to how I finally figured out all that had happened to me and why.

I started seeing a highly recommended physician, Dr. William Correll, 3424 S Grand Av Spokane, WA 509-838-5800 ("Complimentary and Alternative Medicine") that was also a naturopath in Washington. I had extensive blood analyses done and there were noted

issues. Still elevated ALT, extremely low testosterone levels, borderline elevations in glucose and other issues that when all brought together with all the other symptoms I was experiencing kept pointing to Wilson's and leukemia. But my physician discarded the notion of leukemia because he said I didn't have elevated WBC's. (Not all forms cause this although the majority do, but I didn't know it at the time). He diagnosed me with Chronic Fatigue and Fibromyalgia and prescribed some natural herbal sleep aids and herbal pain relief formulas. As I studied further on the Internet, these diagnoses seemed like nothing but a catch all for conditions when physicians couldn't figure out what was really wrong with their patients. (BEFORE I figured out that I had Wilson's, I applied for life insurance with Lincoln and they turned me down citing that it was something in this doctors medical record as the reason. They stated no specific reason, because the truth of why I was turned down was that Dr. Correll violated doctor patient confidentiality and sent my correspondence with him on to them; thereby he prevented me from being able to look after my family as I had intended because of how bad I was feeling at the time; though undiagnosed).

I began reading more on Wilson's. There were terms I didn't know the definitions of and so had to find out what they meant and as I did so, I began to realize that I possessed every single observable symptom of the condition. (For the sake of those reading let me go over some of the major symptoms: I believe the most significant sign/symptom is what are called Kayser-Fleischer rings; however the definition I read online is incorrect; in simple terms it is a darker ring around the colored part of each eye of varying thickness (a very narrow perfect symmetrical ring the size of a thread is probably NOT a K-F ring, but a murky ring of varying thickness at times blurring into the whites of the eyes (and especially if in connection with these murky or darker rings you possess virtually constant blood-shot eyes or if you look closely at the whites of your eyes they are turning yellowish (very light yellow is still significant!); yes, regardless of the color of this ring (because the color varies due to the chromosomal color of each persons eyes, for example, someone with blue eyes, most likely will have a dark blue K-F ring within the iris of each eye and PERHAPS brownish discoloration as it blurs into the whites of the eyes, someone with brown eyes will have very dark brown rings or may even look black, green will engender dark green etc. I believe the reason for this is that your eyes are filled with very fine capillaries and as they get clogged with heavy metal deposits (brought on by a combination of hemochromatosis and the spherocytosis (because immature RBC's (red blood cells) don't properly eliminate the toxic buildup in the cells AND the Rouleaux, chain formation RBC's, further clog capillaries causing the blood-shot eyes), so the metals get deposited beneath the chromosomal coloration of the iris at the outer edges in varying thickness, and the brownish blur of the ring into the whites has that coloration because the prominent metals being deposited are iron and copper found in most foods in varying degrees. (This is why taking zinc is so important (zinc chelation-binds with these heavy metals in the digestive process and helps prevent these toxic build-ups in your body (liver, eyes, brain, kidneys, spleen, are usually first affected because of the amount of capillaries in these) with each meal is currently one of the best things someone can do who has this hereditary condition (don't take too much probably most would do best with 25 mg per meal but if you eat large quantities of red meat or high iron and copper content foods could be as high as 50 mg per meal). Detoxification

baths in 1-2 cups of Clorox bleach (Clorox has a higher purification standard than some so best to stick to name brand, according to the health book I read) the amount will depend on your comfort level and the size of the tub (amount of water in the tub), will help pull out the metals through your skin and can help relieve the toxic aches and pains associated with the poisonous accumulation in your tissues. I tried other baths, like vinegar, mustard, special herbals and salts (expensive), but for me the most beneficial was the Clorox baths (inexpensive). Also sweating is good, but you MUST be especially careful to stay hydrated during any sauna or physical activity because the condition brings less of all that cells need (including water) and in later stages, gastric dumping occurs as the digestive tract fails and the body gets even less nutrients and hydration. In addition, I have found purification measures by green and white teas, grape seed extract, Compound X by Two Feathers, organic orange and apple juices, green apples, oatmeal (and other colon therapies), folic acid, powdered vitamin C (Ultra C- Dr. James Chappell's (READ HIS BOOK – "The Cure for Diabetes and Every Dis-Ease; a Promise Made is a Promise Kept", "lifepak"), **honey** is a great source of energy, easily assimilated, immune properties, and the enzymes aide in digestion, I use it instead of sugar to sweeten everything, and cinnamon helps dramatically to level blood sugar (so I lightly baste green apples in cinnamon and honey and mix it in the oatmeal after it's prepared, and I brew my tea with plenty of small cinnamon sticks, ginger (helps with nausea and motion sickness – I keep candied ginger in all my vehicles; so that if I'm able to travel I can keep mine at bay), and honey and then chill the tea after brewing (I've found a mixture of green, green chai, green orange spice, green honey lemon ginseng in equal proportions to be absolutely delicious) so I can drink it until about 5:00 or so at night, when I recommend going to organic apple juice with a half dropper full of liquid phos to help keep your liver and gallbladder clear (for a week out of each month) or the chamomile tea and honey warm (if you're not lactose intolerant a little warm milk or cream in the tea helps also); half organic orange juice half purified water throughout the day helps keep your depleted vitamin C levels up (important for helping your challenged immune system fight off infections) are all FAR more helpful than ANY of the current experimental medications I have read about thus far). Continuing on with signs/symptoms I found a couple life long issues with myself are insomnia (chamomile tea with honey, and Dr. Bell's or Dr. Teitelbaum's (doctor associated with chronic fatigue and Fibromyalgia) herbal sleep formula best help so far), and bouncing leg while sitting or dancing/twitching leg in bed (it's so frequent and unconscious with me my wife is constantly irritated by it), in fact, blinking overmuch, nervous facial or body twitches, or fingers (people with Wilson's often like to keep hands in pockets or fold them together and hold them even if they're unconscious about it (most are) they are controlling trembling and twitching that has most likely been with them for a lifetime but becomes more pronounced with aging as the metals build up in the moto-nuerological functioning of the brain, so palsies, Parkinson's, and other similar disorders can develop, (online a test is provided that if you hold out your hands relaxed in front of you they may flop at the wrist or fingers up and down or if you lay on your back and bend your knees and keeping your feet together let your knees part very relaxed that your knees may start bouncing back together as you relax and spread them further apart), but for me my whole life it was my fingers that twitched as my arms hung relaxed at my sides, my hands trembling and knees bouncing in this test only developed after this attempt on my life. I

had a teacher that has Wilson's growing up that had uncontrollable muscle flexing, eye's blinking, and neck twitching; so any moto-neurological issues of any kind; especially if you have K-F rings is HIGHLY indicative of Wilson's. Let me stray at this point into some personality traits of people I've noted with Wilson's. Most I've met so far are very talented, intelligent, often dynamically strong and yet can demonstrate difficulty in concentrating, easily bored, easily irritated (road rage), easily disappointed in what they perceive is incompetence in others everywhere they go, very impatient (virtually incapable of waiting in long lines), often feel like if they don't do it, it just won't get done right at all. As children they might have been diagnosed with ADD or when older with adult attention deficit disorder. Part of the reason we're irritated with others is that we are driven to succeed and be as best as we can be and part of it is that because we value that in ourselves we are disappointed when others are lazy or don't take their work seriously. The other reason we're irritated is that we often possess heightened sensitivity (some might even consider to be ESP) and so noises, bright lights, certain rough clothing or sheets, ANYTHING we perceive through our senses can be EXTRA annoying. As we grow older, the constant muscular (muscles tight and knotted all the time, very difficult to "relax") pain, joint pain, recurring headaches/migraines, organ pain coupled (PAIN all over sometimes very specific like an injured area, sometimes migratory) with chronic fatigue is so frustrating (due to our "type A" driven personalities) that we are often irritable even when we don't want to be (with our loved ones). Another frustration is that we think much more rapidly than we can talk and sometimes seems very hard for us to speak properly or as we would like and in extreme cases we wish others would just telecommunicate with us to save the effort. We are often concerned about our overall health, but because we are driven we are people of extremes, extreme sports, extreme learning, extreme artistry, but on the negative side can become extreme over-eaters, drug addicts, criminals, because people with Wilson's often tend to "go for it" and deem anything worth doing should be done with gusto or not at all. Back to physical signs and symptoms. I could write a volume on this topic; rather, I'm going to cover just why Wilson's is the number one cause of all terminal illnesses worldwide (or I should say makes us more susceptible to all terminal illnesses).

To this day, scientists are still proving the Holy Bible is the Word of the Living GOD, our Creator, as the Lord showed the prophets thousands of years ago that the earth was round (a sphere) and even the measure of it's radius, the hydro-cycle, the method of creation and biological cycles and hereditary properties (genetics), astrophysics, and, my point, stated "the life is in the blood". In healthy blood, the red blood cells are not hollow in their centers but donut shaped for a variety of reasons. In that translucent center is the ability of the cell to expand and contract as necessary through capillaries and so flow smoothly through the body. With each heart beat blood flows through main arteries similar to the way traffic moves through super highways (at least when there are no accidents or congestion). And then the blood picks up oxygen (and unfortunately pollutants) from the lungs as we inhale and nutrients from the digestive tract like those of us who travel to the store and pick up groceries to bring home or supplies for work. If all goes well, we travel main thoroughfares and usually onto ever smaller streets and roads until we reach our destination. In the same way blood carries what is needed to their place of work (organs, muscles, bones, neural pathways, and other individual cells of the

body so that each is fed and receives needed inspiration (oxygen). (In the body of Christ, this is like those who through prayer, receive inspiration from GOD, and through the study of His Word, receive food (Spiritual Wisdom and Knowledge) for the body of Christ and sent out on a mission (from the Heart), go to places to dispense what they have received, to other “cells” of the body. While there hopefully, confessions of sins (toxic waste) is made by those cells, people are healed of false doctrines (cancers of the body) and other sins are uprooted (urination and defecation of each cell in our natural body and exhalation, pollutants, toxins are removed). So the natural shows the spiritual functioning and the spiritual the natural). So a blood cell interacts with another cell, brings what it needs to live and then removes what is ailing it, travels to excretory organs and systems to get rid of all the toxic wastes before making the rounds all over again. (It’s much more complicated but this gets my point across). We all get what we need to work and live, we travel and share it with others, we have regular waste removal in order as a society to function properly. Whether it’s the natural body we’re talking about, or the Spiritual Body of Christ or society as a whole, “the Life is in the Blood”. In Wilson’s however, the spherocytosis of the blood cells makes each cell smaller, harder, and round. It doesn’t have the pliancy it needs to squeeze through tight spots, it doesn’t have the hollowed center it needs to pick up oxygen and nutrients properly, and when it tries it can burst or simply is inadequate for the task. As a result, cells throughout the body don’t get what they need to live beginning with the capillaries (tightest spots). As capillaries become clogged (blood-shot, irritated, dry eyes, headaches, dry skin (especially shins wrists, scalp (dandruff) and other low blood supply regions), the heart has to start beating harder and more rapidly (epidemic and ever increasing high blood pressure and faster resting pulse rates as more degeneration occurs). Inside organs start to suffer dramatically. The liver has to take on more as toxic waste builds up in the body because the small blood cells not only can’t bring what each cell in the rest of the body needs to stay alive, they don’t have the hollow area to handle the waste removal of each cell as well and so heavy metals start to build up in capillary supplied regions first (which is why Kayser-Fleischer rings can vary in thickness depending on diet, environmental pollution or other toxic exposure and the stage that Wilson’s blood has degenerated to. It’s also why metal sensitivities to jewelry can develop as well as why if one person with Wilson’s is exposed to the same carcinogenic environment that a person who doesn’t have the condition is exposed to, the person with Wilson’s will develop cancer first. And furthermore why now that our global environment is reaching toxic levels in our air, food and water why people with Wilson’s are starting to die off by the millions and will shortly reach epidemic proportions. People who don’t have the condition might be thinking all the better for them as the world’s population is decreased, but when a society loses its thinkers, and largely intelligent people, the whole of humanity suffers. I’m not saying that people without Wilson’s aren’t gifted, but I believe if blood tests could still be performed, president Kennedy, Howard Hughes, Einstein, Malcom X, Mohammed Ali and the like (some of the world’s greatest “movers and shakers”) would show they all had the condition. In addition, the truth of the matter is that our Creator is saying to the world thereby, if you don’t do something quick, you’ll all end up likewise. I am not one hundred percent certain, but I believe the millions that are dying in Africa right now should be investigated immediately by Wilson’s experts. Granted there probably is a certain percentage dying of AIDS, but I listened to the testimonies of many of those

dying and their children and it appeared to me that many were godly, monogamous people. Back to the signs/symptoms again. If your blood isn't functioning properly, and organs start failing as a result, say hello to every form of terminal illness. One develops diabetes, another, cirrhosis, another Alzheimer's, another asthma, another kidney failure, and eventually after the mind and body deteriorates sufficiently and if the afflicted hasn't died from all the other conditions they developed, the heart fails from the excessive strain. In addition, as organs fail, our hormonal production is affected and menopause can be more severe in woman and in men, we can suffer from a hormonal imbalance as well. This imbalance in the sexes can cause women to have more masculine traits like aggressive tendencies, facial hair (more body hair period) and certain parts of their genitalia to shrink, and likewise men can start developing breast tissue and have their genitalia shrink as well. (This is probably the most embarrassing part of Wilson's (from a worldly carnal perspective); the hormonal imbalance making woman more like men and men more like women – now I know a lot of people might not want to fess up to this, but it is a significant symptom and shouldn't be ignored, we're all still complete in Christ and after all in the beginning the male and female were one body (this is a spiritually significant event that God, by the Holy Ghost will reveal later)! God has shown me, by the power of the Holy Ghost, in numerous dreams that there are untreated millions right here in the United States and that we all need to pray to Him right now and seek His Will for our lives right now as never before, because our time is short. I really, really, really, really don't want another soul on the planet to suffer what I have and still am going through right now, but God calls us each to fulfill our purpose at our appointed moment in "history".

I started seeing another physician, (I don't want to even refer to these murderous conspirators as doctors, they don't deserve the title but), Dr. Scott Burgstahler, 207 Church St. Sandpoint, ID 208-263-6876, in order to get even more blood work done and I specifically wanted the definitive tests done to determine if I, in fact, had the condition. I told him it was important to have a microscopic morphology analysis done of my cells; not just a computerized count. When I went to the local hospital, Bonner County General, in Idaho to get this round of blood work done, I asked if I could look at my cells under the microscope because I had been a lab tech in the Army and I wanted to see them for myself. The lab tech at the hospital made me uneasy when she referred to herself as a vampire for over twenty years (her name I believe started with an "A") I was given permission to look at my blood smear on the slide and I thank God for that. As I looked, I recognized abnormalities, but I couldn't place just what they were at the time. I knew that there were things wrong with both my RBC's and WBC's (red and white blood cells), but just what I couldn't remember because it had been almost twenty years since my training. But I went home and immediately got on the Internet where I found images of exactly what I had seen in my own cells. One of the conditions was spherocytosis (your red blood cells are small round and immature; somewhere between 30 and 70% that of a normal healthy sized cell, and not possessing the elastic translucent middle, but literally sphere-shaped hence the term), another was Rouleaux Formation (causes the RBC's to form chains and the formation makes it harder for them to travel through capillaries and decreases the efficiency of properly functioning blood), another was that I saw two WBC's (monoblasts) that had lacy cytoplasm and looked exactly what a

laboratory scientist had recorded on the Internet and called acute monoblastic leukemia M5 type 2. I KNOW what I saw and I can show the same to ANYONE with eyes to see! But the lab technician at the hospital had looked at my cells for a micro-second and determined everything was “normal”; and that’s what went into my medical record.

About this same time, I showed Burgstahler documentation and printed my digital diary complete with color photos showing my yellowing sclera (whites of eyes), palms, and arm pits, the petechiae breaking out on my arms and told him how seriously ill I felt. Here are just a few of the images I showed him:

I showed these images to my doctor who looked briefly at my eyes and said he couldn't see the K-F rings or the yellow scleras leaving me untested, undiagnosed, untreated and dying

I showed many images to my doctor(s) showing clear indications of Wilson's but he refused to allow me to be diagnosed correctly and conspired with others to make certain I wasn't. Liver damage is clearly evident.

Instead of helping me, he mocked me, insulted me, and dismissed all easily observed visual observations. He chuckled as he showed me my modified medical record from Deaconess, and suggested mockingly that I might try to find an attorney. I at least got him to order the MRI and CT Scan also done at Bonner General Hospital. He's the one who lied to me about getting the review I requested done when I noted bone marrow degeneration, untreated Wilson's indicators in the brain and other serious conditions in the MRI and CT Scan. It should be noted that ever since I figured out what has been going on, I have not been able to get one diagnosis signed, and even receptionists for these physicians and technicians are unwilling to provide their last names as witnesses of denied medical care and intentional misdiagnoses.

About this same time, I went to the physician, Dr. Correll, in Washington again with my wife and told him again of my suspicions but he dismissed them even though I pointed

out that my lab results indicated I had the condition. (I had done further research and combined all my blood work together with abnormalities therein and matched them to possible conditions indicated). He prescribed an anti-depressant for my wife at the time known as Cymbalta. He wanted to prescribe it for me also, but I'm so fundamentally opposed to pharmaceuticals that I declined and told him once again that I wasn't depressed, just in a lot of pain and extreme fatigue. When I pressed about Wilson's he referred me to a hematologist in Washington. I also told him at the time that the hemolytic reaction could cause all the symptoms and prolonged suffering in a Wilson's patient but he apparently didn't understand how. In brief, a hemolytic reaction destroys so many of the "healthy" blood cells that the unhealthy ones proliferate (upsetting the "delicate balance") and causes an ever increasing decline in health as organs and tissues start to die off from lack of good blood getting to them. So places with low blood supply like shins become itchy and skin conditions (rashes, psoriasis, etc. can develop), organs with fine capillaries like eyes, become constantly blood shot, migraines develop, liver and kidney conditions, etc. Anyone who has Wilson's hereditary blood condition, needs to be especially careful during any surgical procedure and make certain a witness is always present that will check the blood products to make sure they are an exact type match and preferably, the patient pre-donates their own blood for the event.

I continued to research more online and came across a term known as hemochromatosis and suddenly I remembered! I remembered why I had insisted on an exact match transfusion and why I didn't want one in the first place. I could see her squatting in front of me in the hospital back in 1988 where she had looked intently into my eyes and told me that it was very important that I remembered what she was about to tell me. This particular hematologist had discovered that I had antibodies to negative Rh factor and she explained I probably developed them at birth if I had never had a transfusion before. She also discovered that I had spherocytosis, Rouleaux formation, hemochromatosis, and suspected I might have what she called was a "rare condition known as Wilson's Disease", but at the time I could not get further testing done. I asked her why it was so important and she took the time to explain to me that with my condition, I had probably developed what she called a "delicate balance" but that a bad transfusion could upset that balance in my blood and cause organ failure, blindness, a slow painful death and eventually a heart attack if I didn't die from my other organs failing first. She said at the time there was no known cure, but that in the future there might be. Nevertheless, she said; if you remember nothing at all, remember that if you ever need a transfusion in the future you **MUST** insist on an **EXACT MATCH ONLY, O+ ONLY!** (And that's what I had remembered when I had gone in for surgery sixteen years later)

I started feeling so badly, that I decided when I had enough strength I was going to start documenting my symptoms day by day with digital media and by diary. I also went to see Burgstahler again in Idaho because I was having severe abdominal pain and bloating as well as intense migraines. I had an MRI and CT scan done and obtained a digital copy of the images. I was shocked when after I looked at them I found indications of bone marrow degeneration, and untreated Wilson's indicators ("giant panda face" in mid brain and "hummingbird sign" as well as evidences of deposits heavy metals in various cranial regions and two images were missing in a region of the remaining image that looked like

it might be indicative of seizures) in my MRI images, further I had a dramatically enlarged liver and spleen, also indicating Wilson's. Together with gallstones, jaundice in my hands and yellow sclera, red swollen face, itchy rashes, petechiae appearing on my skin and spider and cherry angiomas, my body was screaming that I had untreated Wilson's and probably leukemia as well, but when I brought all these to my physician's attention, he dismissed it all outright. I requested an immediate review of my MRI and CT images by the head radiologist at the hospital where they were taken. (That reminds me, when I went into get them done, the technicians asked me before they even started if I was still urinating (I thought that was an extremely strange question at the time and had never thought that a person could cease urinating)) But this is just another plain indication that the people involved know I have Wilson's and they are all conspiring to cover it up and in the process are letting me die in a way I know no one would want to experience. At least in this country, pain relief is offered in such cases, but I don't trust a medical practitioner now as a result not to poison me or inflict some even more tortuous substance into my body; so I am left as I ever have, to trust solely in the Grace, Love and Power of our Lord and Savior JESUS (YAHOSHUAH), the Only Way to be Reconciled to GOD and gain Heaven!

After I learned I had gallstones, my wife found out about a product known as Compound X by Two Feathers and it came with instructions on how to perform a liver/gallbladder cleanse. I knew I had liver issues from the developing jaundice and I knew I had to get rid of the gallstones due to all the pain I was having in the region. So I followed the instructions with a slight modification due to my weight and size and got rid of the gallstones and also the build up in the diverticulae of my intestines. But the instructions called for hydro therapy following. I have tried unsuccessfully for months now to get into see her. This practitioner is the only one I know of in my town and came recommended from female colleagues. I tried by phone repeatedly to gain an appointment and I finally started offering additional payment if she would only treat me. I offered double, then triple and finally quadruple her normal fee. I couldn't understand why she wouldn't see me; so I decided even though it is hard for me to travel to go into her office and seek an appointment in person. While I waited I saw numerous patients of hers and all were females. I handed her a written request for an appointment and that night I received a call from a local sheriff threatening me with a stalking charge. (As of July 09, 2006 I wish to correct the previous sentence, the call from the sheriff occurred after I hadn't heard from the practitioner after handing her the note; so I called one more time and asked her to please grow spiritually and see me even if she had a problem with treating men, because I desperately needed it, and so it was after that call/message I left on her phone that the sheriff called me and not the day I handed her the note). I was so incredulous that I asked him if he minded if I recorded the conversation, which he allowed me to do. I then responded by faxing him evidence that for a practitioner to deny medical service based on sex was a violation of federal statutes and for him to prevent me from obtaining needed medical treatment was also a violation thereby. I let three weeks pass in extreme patience with no call from either party and no appointment; so I filed a federal complaint with the appropriate office. Next thing, I started seeing police vehicles parked outside places I went to shop and along my regular routes and one trailed me for no reason. I faxed them an apology that I had not intended to offend any of them, I just

wanted to get desperately needed medical care and that they should be upholding the law and helping me obtain that appointment. As of this date, I still have not been able to obtain this necessary treatment due to discrimination.

During this time, I had called the Wilson's Disease national center and was astonished to get the president of the organization ("Mary", I can't remember her last name but it's on her site wilsonsdisease.org (again only visit from a public forum like a library)) on the line directly. When I told her my name she asked in disbelief for me to repeat my name and when I did suddenly a fax tone sounded in the phone. It was as if she had been told I would be calling in and that she was trying to get rid of me for some reason. I called back because I wanted to get the brochures to give to my physicians that told them how to diagnose Wilson's and what tests to give for definitive diagnosis. Within a few days after I left my name and address, government vehicles began to appear in my home town and follow me about. In addition, places I frequented suddenly would have change in personnel when I walked through the door. Especially when I went back to the hospital to get the review I had requested and that my local physician, Burgstahler, had said had confirmed that nothing was wrong with the images. I asked for signatures and ID's of those who had stated this and found out that no review was ever done at all and that my physician (Burgstahler) had out rightly lied to me.

During all this, I started hearing recording devices on my phone, files proving these facts were suddenly deleted off my computer (although I still have more than ample evidence of ALL that I affirm in this affidavit under penalties of perjury!) I started having record number of virus attacks on my various systems. One of my monitors was taken out by a "death spike". People started knowing my name everywhere I went when I was mostly a rather inconspicuous individual prior. Drivers of government cars started watching my every move. A vehicle of mine was tampered with so that I had to take it to a local shop, Les Schwab, where someone sped off with it off of the lot (I have filed a formal complaint regarding this event, all pertinent names are filed with the complaint).

At first I thought all the government vehicles (I know what plate numbers are reserved for federal and state officials because I tried to get them one time for spiritual reasons and Department of Motor Vehicles/Licensing personnel told me I couldn't because those plate numbers were designated for that purpose) was due to the fact that one of my clients had told me about a website called **911whatreallyhappened.com** (if you decide to visit this site make certain it is done from a public forum like a library) but the files that were being deleted had to do with proving Wilson's. I finally got to see the hematologist, Dr. Robert Laugan 12615 E. Mission, Ste. 200 Spokane, WA 509-228-1200, who was elderly and apparently nationally recognized in his field. It had been a long road to get to see him and I finally thought I was seeing someone competent enough to correctly diagnose me. I handed him the clinician's guide for diagnosing Wilson's and told him I wanted to be tested for two specific illnesses both of which were very serious. One was Wilson's and the other leukemia. He began verbally dismissing both out of hand! I couldn't believe it! He wouldn't even look at the Wilson's guide! I was both flabbergasted and enraged! I had just told him through years of research and agonizing pain, I believed I was suffering from two terminal illnesses and he wasn't even willing to do the tests or

read how really simple they were! He was saying something like he didn't know anyone in the entire region who could diagnose the condition. (I was handing him the guide! It is VERY easy)! And he wouldn't even take the time! My patience was gone at that point; this went beyond incompetence to willful negligence or perhaps intent to let me die. I did raise my voice at him at that point. He finally conceded to test my blood at least for spherocytosis. When he came back with negative results, I KNEW that this was INTENTIONAL COVER UP OF ALL THAT HAD OCCURRED TO ME! THERE WAS NO RECORD OF THE TRANSFUSION (ALTHOUGH I HAVE IRREFUTABLE EVIDENCE OF IT) AND A LEADING HEMATOLOGIST COULDN'T RECOGNIZE OVER 50% AFFECTED RBC'S WITH SPHEROCYTOSIS! I KNOW he knows that I have both Wilson's and leukemia but is refusing to diagnose me. I got a copy of his lying report in my medical record where he liabled me and quoted Dr. Burgstahler (who has never looked at my blood to the best of my knowledge) stating, "just like you told me no spherocytosis", PROVING Burgstahler, prejudiced the test before it was even done. In addition, Burgstahler talked of psychiatric condition BEFORE even a quack diagnosed me, PROVING further this man liabled me without reason. AND he slandered me on the phone to the staff at the radiology department when I caught him in a lie that he had never gotten the review I requested and that he had said was done. The staff patronized me after talking with him on the phone (why did they call him in the first place, all I did was request a copy of the review). Again and again, as I have stated people are working together to keep you, the public, in the dark about this serious hereditary condition. And as a result, I will use the last of my life force and channel the great pain they are causing me to be in, into telling every last soul on the planet, as long as GOD gives me strength and keeps me alive!

So I began to put it all together. Why would the government be interested in me? Why are all my physicians refusing to correctly diagnose me? Why am I dying in excruciating pain? While I figured it out, my wife, Jane Swenson, my brother, James Swenson, and my "friends", Glenn and Kat Westbrook, all started thinking I was "crazy" because all these physicians were saying I'm fine when I was telling them that I had these serious conditions. And they especially started thinking it when I tried to point out the government conspiracy involved. So they tricked me into going to another hospital, Kootenai Medical Center, in the North Idaho Behavioral Health (NIBH) division, where they swore to me an expert in Wilson's was and I ended up in a mental ward where these same practitioners (co-conspirators), Dr. David Wait, Dr. Miller possibly others involved but these two are definitely complicit, tried to give me chemical lobotomizers seroquel, depakote, and other such harsh medications as to kill a person in my condition! They kept me illegally incarcerated against my will for a week. During that week that seemed much longer, I found out to my horror that all of this was a standard of practice for corrupt medical practitioners! Patients that these corrupt doctors had made "mistakes" on were routinely placed in mental wards (according to the individuals I spoke with that had been in these institutions for many years). They were given such strong chemicals that it made them appear so incompetent no one would believe or listen to them. In the meantime, these corrupt practitioners drained the victim's financial resources and through "kangaroo courts" got them routinely committed and were given drugs until they were either brain dead or really dead! They did this intentionally so no one would listen to or

believe their testimonies and so they could avoid taking responsibility for their intentional/or possibly unintentional “mistakes” in medical practice! I witnessed a very well organized and oiled machine of corruption first hand as a quack, David Wait, diagnosed me with a serious mental illness (bipolar something) without even talking with me and tried to give me lethal doses (for a person with my stage of Wilson’s and leukemia) of serious medications. I heard him coach my wife into saying that I had threatened her (when I have never done any such thing in all the years we’ve been together) so that he could place me on administrative hold and he was rushing me to one of the kangaroo courts these other poor souls were warning me about when I chose to follow their advice and pretend to take the “medication” they were proffering me; so that they couldn’t route me to a state institution where no one would see me again. I’m NOT lying! I’m NOT crazy! This is occurring regularly all over the United States according to one witness in particular that had been in and out of these institutions since the sixties. Furthermore, he said it was legal for them to make you urinate and defecate naked in a locked room and physically force dangerous medications into your body if they chose to do so. That practice is absolutely outrageous and MUST be stopped IMMEDIATELY! Just put yourself for one instance in their place! Some arrogant quack pronounces you insane all because you don’t think the way he or she does and FORCES highly dangerous, organ damaging, brain damaging, and potentially lethal substances into you regardless of your personal wishes on the matter. Even IF someone needs medication NO ONE should be forced to take medication the prescribing “doctor” wouldn’t take themselves! THAT IS MOST CERTAINLY CRUEL AND UNUSUAL PUNISHMENT AS WELL AS DEPRIVATION OF LIFE, LIBERTY AND HAPPINESS WITHOUT DUE PROCESS OF LAW! IF SOMEONE HASN’T ACTUALLY HURT THEMSELVES OR SOMEONE ELSE WITH VISIBLE, IRREFUTABLE EVIDENCE THERE IS NO WAY THEY SHOULD BE LOCKED UP UNDER ANY CIRCUMSTANCES! NO ONE SHOULD BE ABLE TO CALL UP A MENTAL INSTITUTION AND SAY SO AND SO IS ACTING STRANGE AND GET THEM LOCKED UP JUST BY THAT! BUT IT IS HAPPENING IN THESE MENTAL WARDS ALL THE TIME! I TALKED WITH INDIVIDUAL AFTER INDIVIDUAL THAT HAD BEEN ILLEGALLY DETAINED IN THIS MANNER! (BESIDES EXPERIENCING IT FOR MYSELF)!

I further wish to document that fiber optic cameras are located throughout NIBH where all occupants are spied on 24/7 and they can take still images of the occupants at will. While there I witnessed such occurring as images were taken of my face and fingers, presumably so they can put my prints on some crime weapon or frame my image so that they can keep me silent if people start listening to me. I don’t just speculate about this, as I found a listening device on my property shaped like a black plastic gas cap but had a lens in the center and was heavy like metal inside. I PURPOSELY picked it up by scooping it into my palm so that no fingers ever touched it and I examined it thoroughly while it sat in my palm. Kat Westbrook, (when she lied to me and swore to God, she was taking me to see a Wilson’s expert and that I would not spend more than one night in any hospital, and that she would never leave my side which was the only reason I agreed to accompany her, because Christians will still lie to other Christians, but I couldn’t believe any one who claims to belong to Christ would give an oath to God, intending all the

while to break it; proving the proverb “foolish is the man who puts his trust in man, but wise is the man who puts his trust in GOD”), also saw it and dismissed it. I didn’t want the spies to know that I knew what it was; so I tossed it planning to pick it up and submit it as evidence. But while I was illegally held at NIBH, Kat went back and picked it up and said it was light in weight and hollow. I knew the spies had switched it then, because she claimed my finger prints were all over it when I had never touched it with my fingers. (she is former law enforcement and is how she apparently discovered my prints on it). As a result this warned me that these same spies plan on framing me for something I haven’t done. Furthermore, poison attempts were made with my food and beverages while at NIBH and I have proof of such. In addition, men deposited reflective metal pieces of some device I have never seen in the grass outside and leading up to my window outside of my room while there. I don’t mean to state that all staff there were or are corrupt, perhaps some legitimately think it’s alright to give these strong chemicals to people that mostly just need to be loved, listened to and filled with Jesus Christ and the Holy Ghost. I don’t think secular humanity has made any significant progress in the cruel and unusual punishment going on in America’s mental institutions; if anything, it may be getting worse as an elitist, fourth reich mentality emerges that hates God’s people and anyone they think are less worthy to live than themselves. In order to obtain my release, I had to challenge my rebellious wife, the one I’m now going through divorce and separation proceedings with (who, although I esteem for her many virtuous qualities; or I wouldn’t have been with her the past decade, the majority of the time disobeys me and does whatever she feels like) and so I obtained my release by saying to her that it would be impossible for her to get me out of there. I furthermore, had to promise my “Judas Iscariot”, “friends” that I would take a harmful medication upon release until I was better. Well I was better the instant I walked out the door, but just to make them all feel that I kept my word, I actually tried to take as little as 25 mg of seroquel every day at first and then every other day but it made my tongue and lips swell, my face twitch, caused abdominal bloating, and gave me liver and kidney pain besides numb feeling in my left arm and chest area. I informed them that the substance was harmful to me and they still wanted me to take it regardless; therefore, these individuals who wish to harm me are no longer welcome on my property; and if I have any say in the matter, in my presence. And IF they make it to heaven by God’s Grace, that they are kept in the furthest reaches of the Universe from me, except they repent of their great evil in betraying me to my adversaries and in having the greatest part in my marital problems at present (convincing my wife to scheme against me and put me, illegally, in the mental ward; sticking me with unjust medical bills in excess of \$15,000, fifteen thousand dollars). On top of that, after I told them and my wife that if she valued our marriage, she would have nothing to do with them, I heard them still conspiring against me; falsely accusing me of breaking my promise to take harmful chemicals (medications) until I was better. (Even though I knew the substance was very harmful, I still tried to take it regardless; just because I had given my word that I would; but after it was clear to me that if I continued, it might kill me, I stopped. These ignorants have made me so angry I’d like to see them all stuff their faces with poisons they know are harmful just so they understand – not really but you get the idea. From my spirit, I really just want them to repent and live unto and follow our Lord Jesus Christ, Yahoshuah, all the rest of their days because right now they only think they are Christians; they’re (like so many others)

not studying His Word (reading the Holy Bible and praying for His Understanding), and not doing His Will, but are yet carnal and going about daily doing whatever they want). Therefore, I am grieved to realize that many who call themselves Christians are fulfilling the scripture that states, “the days will come when those who kill you, think they are doing me (*GOD, the LORD*) a service” and “a man’s enemies/foes will be those of his own household” ((Lk 21:16, 9:1-27, 10, 12:1-56, 14:26-35, Mk 13:12, 8:34-38, Mt 24:9-13, 10:7-36-42, 16:24-28). The sad truth is that Kat and Glen Westbrook also have Wilson’s, but they went to a physician and their blood tests were switched (“assistants” have infiltrated the few honest, knowledgeable Wilson’s physicians and switch the samples of those coming in to be tested for it with “normal” blood samples, which is why anyone who suspects they have the condition **MUST** go to a Wilson’s treatment facility and **MUST** follow their drawn blood directly to the microscope, never letting go of the tube until the drop is placed on the slide in front of them and they **SEE FOR THEMSELVES** whether or not spherocytosis is present!) or the doctor they went to is either incompetent or is intentionally lying as the ones I’ve visited. Again, I am ready to prove to the world that these “doctors” are all woefully incompetent, intentionally negligent, or guilty of conspiracy to commit murder. Unfortunately, for the ones at Deaconess, they are guilty of attempted homicide (and most probably will be homicide unless a miraculous recovery is in my future). I think Burgstahler’s smirk when I told him what happened, was his way of blackmailing the guilty as he saw a way to make a quick buck off my suffering in keeping my condition undiagnosed and in prejudicing the hematologist in Spokane.

I have tried to see yet another “doctor”, a Dr. Stephen Puffer, Sandpoint, ID, but apparently he’s just too busy and so is using that as an excuse to refuse me medical treatment. In fact, somehow, doctors think this is an acceptable practice in the United States in violation of the U.S. Constitution (deprivation of life...without due process of law), federal laws (and in some states, state laws as well).

Because of all the intentional cover-up, people I’ve told along the way that I know have the condition, role their eyes at me, with very few exceptions. Why is this so hard for people to comprehend? Millions are dying and are daily victims of corrupt physicians, pharmaceutical manufacturers, FDA, government officials, anesthesiologists (it’s been estimated that some 50 fatal “mistakes” are occurring in hospitals across America **DAILY!** – according to a televised report and book, “...health...treasures” or vice versa. Heck, criminals have been known to kill others for a pack of cigarettes or a pair of shoes, what makes anyone think that criminals who haven’t been caught yet wouldn’t be tempted by millions; if not billions of dollars in profits?! I’ve started wondering where are all these estate and art auctions we’re seeing on television coming from? I’m dying, I **HATE** attention, I’m very much a recluse and I’ve got nothing to gain by making this all up. In fact, by disclosing this, it is only bringing me further hardship and suffering as “my world” I’ve worked so hard to build is crumbling all around me and I’m slandered and liabled for telling others I meet the truth. I’ll state for the record, that if it’s discovered that I’ve told the truth and someone wants to write a book, make a movie, etc. they can only do it with my permission, and after printing expenses, and compensation for the author’s time (not to exceed ten times federal minimum wage per hour at the time

it's written, and one percent of all gross sales on original publication and all reprints) and expenses (receipts must be shown for out of pocket expenses to be reimbursed), ALL remaining (after publication hard costs (hard costs to be reviewed by competitors any misrepresentation by publisher loses rights to publish and must pay the proven difference to the succeeding competitor showing the fraud) and author's compensation) profits are to go to charities divided equally as follows for the purpose of furthering the Gospel, Feeding the Hungry, Clothing the Naked, telling the world about Wilson's, and treatment and research for the same: 1) Wilson's Hereditary Condition Treatment and Research Foundation (to be created by my estate executors, ONLY staff filled with the Holy Ghost and have the testimony of Jesus Christ (YAHOSHUAH) allowed to work for; as not for profit organization), 2) World Challenge (David Wilkerson) 3) Christian Children's Fund 4) Life Outreach (James Robinson) 5) World Outreach 6) Salvation Army 7) TBN 8) Kenneth Copeland Ministries 9) Wilderness Ranch Ministries, Spirit Lake, ID (mimic this across the states and across the globe) 10) Oral Roberts University (because of their main goal of training ministers to listen to and be guided by the Holy Ghost!) 11) reprints in future must adhere to same guidelines, with publishers allowed only an 11th share, but not greater than 10% profit over hard costs, rest to be distributed as written above in items 1-10. Prior to and or a period of one hundred twenty days following my demise for any reason, I retain full rights to author and publish, or originate any other form of media regarding these events or give permission to do the same, in case our Living Lord Jesus the Christ (YAHOSHUAH) decides to resurrect me or have me resurrected by one or more of His Chosen Children within that time period (bodily resurrection in His Holy Omnipotent Name has been occurring since He Arose nearly 2000 years ago to this very day!) Regardless, I must also adhere to the points 1-12 as stipulated herein. After that period; if I have not been resurrected (or if they wish to represent my interests in this regardless, then they would be entitled to a 12th share), then Jay Sekulow, ACLJ, and it's representatives are charged in YAHOSHUAH'S (JESUS') HOLY NAME to make certain this is adhered to and as such would be entitled to an equal share of any profits divided with 1-11 above. (a 12th share)

This is how the scam of all scams works. At least twenty years ago the medical field had knowledge of Wilson's (probably much longer) and that there is no known cure. Viola! It's the number one cause of all terminal illnesses!!!! If your blood isn't healthy, neither is the rest of your body, organs start to fail, muscles, joints, etc ("the life is in the blood") what a "cash cow"! Instead of telling the public about the ONE condition, so they eat right and practice zinc chelation to pull out the heavy metals that get deposited in the eyes causing Kayser-Fleischer rings, and in the brain causing Alzheimer's, palsies, and other neurological and motor-neurological disorders, in the spleen and liver causing hepatitis-like and toxemia symptoms, in joints, causing arthritis, and in other organs causing all forms of digestive disorders, including diabetes, causing all forms of cancer, and as the blood fails, high blood pressure, migraines, tremors, and eventually heart attacks; they would rather bilk the public of millions and billions of dollars treating a wide variety of symptoms of the one true underlying predominant cause! Normally this is all treated by pharmaceuticals with INTENTIONAL harmful side effects that cause other organs to fail and so on until a patient is taking thousands of dollars of drugs that are killing them! Furthermore, somewhere along the way when someone died in the hospitals by a bad

transfusion, they figured out why. (You know they did, when someone dies, they had to have looked into it) And presto! What a perfect way to off someone! It looks just like an “accident”! Someone with Wilson’s checks into a hospital and they don’t check out! Why? You ask? Consider the questions they posed to me. Are you successful? What’s your net worth? Assets? Do you have a will? (That reminds me they also asked if I had children, which I don’t) All that made me a perfect target! Why? THINK! What happens if someone dies intestate? It all goes to surviving spouse. But what happens if both pass? With NO ONE alive to verify what happens to it and NO ONE who cares, you guessed it – the murderers and thieves end up with all of it! You see when one spouse of a Wilson’s victim dies, they grieve and either end up so doped up they don’t take care of themselves (and end up in a death camp/ mental ward) or die from grief themselves (because Wilson’s people tend to marry and the stress can bring on the acute phase of Wilson’s degeneration (an EXCRUCIATINGLY PAINFUL way to die)!)

The most terrible part of all this is that I have become somewhat of an expert on Wilson’s as a result and I am recognizing it others virtually everywhere I go! Actors, politicians, physicians, artists, businessmen and women, military special forces and academy officers, all godly, talented and intelligent people everywhere (extreme sports, extreme professions, extreme “go getters” for extreme, passionate, intelligent (not necessarily “educated”) people), which makes you all even more prime targets because you’re successful! I am MORE than serious about ALL of this!

(I typed this part a week ago after trying unsuccessfully for months to get diagnosed and treatment, because of the government involvement, and how I have witnessed their “influence” on people everywhere I go, I am convinced until the public becomes aware of this, I will not be able to get an accurate diagnosis; so I’m doing what I can to make sure no one else has to go through this and perhaps in the process I might eventually obtain badly needed medical care if I live long enough). You’re thinking why haven’t I mentioned names and specific locations yet. I’ll tell you. Love covers a multitude of sins. I was forgiven of all the wrongs I have done and I long to forgive all these who have wronged me. It is enough that I have told you all the truth of what is going on and that you can each choose whether or not you will bring this terrible oppression and affliction of the American public to light (and for that matter the citizens of the world). I have patiently tried for months now to get correctly diagnosed but the final hematologist is without excuse. There is NO WAY he’s so incompetent to not recognize my conditions. Since I know this, if I expose him that would make him a conspirator to commit murder and he would probably spend his latter years in prison. So I am giving him one final chance to correctly diagnose me by 6:00 pm PST next Wednesday July 05, 2006. If I haven’t been correctly diagnosed by then, then he doesn’t deserve the mercy I’ve offered him in Christ Jesus our Lord and I will, for the sake of others, send full details of names and locations.

In addition, I want this affidavit to serve as a release of my medical records to Paul and Jan Crouch, Oprah Winfrey, Jay Sekulow of the ACLJ, Kenneth and Gloria Copeland, David Wilkerson in the event of my demise for ANY reason! I AM NOT SUICIDIAL, HOMICIDAL OR DO I HAVE ANY INTENT TO HARM ANY ONE! I JUST WANT

THIS EVIL, WICKED EXPLOITATION ALL IN THE NAME OF GREED TO STOP KILLING OFF INNOCENT AMERICANS AND PEOPLE WORLDWIDE!!!! (What many are labeling AIDS (in a further effort to cover up the truth and keep good and caring people from looking into the many deaths) are actually godly people dying from Wilson's)!!!!!!!!!!!!

After everything that has happened to me, I've lost my career, my ability to support myself, friends and family have turned against me because they're too willing to believe that people simply can't be this evil (even as I did, until all of this added up to the facts as I've set forth here) and I'm in great pain every waking moment unable to obtain even my own prescription for pain relief. This brings me to another point. One day I was in such agony, I let my wife talk me into trying one 60 mg capsule of Cymbalta. Some time later I suddenly felt a circle of pain relief originating in the center of my brain and it expanded until it had pushed my migraine right out of my head, like a bulldozer shoving pain completely out of my head. But then my body began to shake uncontrollably for at least an hour and then what I would have to say was a miracle happened. The shaking stopped and I reached down and felt my thighs. As I squeezed my quadriceps I was amazed they were soft and relaxed, I began to feel my muscles all over and for the first time in my life my muscles weren't rock hard. I didn't know muscles could feel that way! I asked my wife to reach over and touch them and she was amazed as well! Suddenly, I was able to work again for the first time in almost two years and so began an intense research of about twenty hours a day while I documented and found out the truth about all that I have set forth herein. The trouble is that when I found out, I tried to tell my wife and brother and they thought the medication had made me paranoid! They didn't believe me! I even offered to show them my blood under a microscope as proof but they think they can't match a picture showing the condition from the Internet with my blood. I assure you ANYONE with eyes to see even a young child could match the images! So even though I had finally obtained a prescription for the first substance that brought me significant pain relief, my wife threw them out without telling me! In the process, I endured pain so great one day that all I could do was scream as my muscles tightened up so severely that it caused me to curl up in a tight ball and I was unable to unclench my hands. It was then, she conceded that I needed some relief and so has allowed me my prescription but only in half doses; so that I am in extreme pain constantly but able to function enough to do very basic things like sit and type. And type I will until I find someone honest enough to put an end to this great evil once and for all.

May GOD protect and Grant Wisdom, Knowledge and Power to Prevail to ALL those who now come forward and tell the TRUTH about all of this that has been going on. This petition is made in the Name of JESUS (YAHOSHUAH), the One and Only CHRIST. Amen. And Amen.

Signed in the presence of GOD ALMIGHTY and HIS HEAVENLY HOST OF ANGELS this 30th day of June, in the year 2006 of our REIGNING KING OF THE UNIVERSE, JESUS (YAHOSHUAH), WHO SOON SHALL APPEAR IN GREAT GLORY. Amen.

Under penalties of perjury.

Michael Swenson

I will get this notarized if and when the offending specialist fails to diagnose me and at that time I will provide names, locations, and further details of the terrible crimes these people have and are committing, because if I get this notarized now, then you all will be able to deduce my exact location easily before this individual has a chance to repent and do the right thing. (I am seeking someone here locally to be able to correctly diagnose the condition, because I have seen so many here that have Wilson's also and I want to be able to refer them all so they don't have to go through what I've just experienced and am still experiencing).

Notary _____ commission expires _____

It is the evening of July 06, 2006, I called Dr. Laugan's office directly today at 10:24 a.m. and spoke with "Terry", a female receptionist who wouldn't give me her last name; who I had asked yesterday to make certain Dr. Laugan had gotten all my many faxes I've sent and this one that I sent last week, because if I didn't hear from him (yesterday) then he would probably be facing criminal charges and I wanted to make certain no one was intercepting the faxes and messages. Today I called one final time, asking to speak with him directly, because I thought just maybe, his nurse, Linda (Smith?, I have her name on one of my digital records) had switched the blood sample and he had looked at someone else's blood thinking it was mine (trying to give him absolutely EVERY benefit of the doubt), but Terry wouldn't refer me on and instead sent me to an "office manager", who answered "compliance" and gave a name of Marie or something like that once again, I wasn't trusting anyone who refused to give their first and last name, but during the conversation she made it clear that Dr. Laugan was aware of all my faxes, that he was aware that by continuing to leave me mis/undiagnosed he would be facing criminal charges, and pretty much that cancercarenorthwest.com in Spokane, Washington and it's members were aware of my undiagnosed situation and that they didn't consider me a patient or in need of treatment. (UNBELIEVEABLY SMUG IN THEIR SERIOUS CRIMES IF YOU ASK ME).

Apparently, these corrupt physicians are SO smug and they must've gotten away with this for SO long, that they don't believe there is anyone out there either honest enough or intelligent enough to figure out what they're doing and have been doing for quite some time. This means to me that the corruption is probably SO extensive, and they believe their backing by the corrupt government officials is so strong that they simply don't fear the law. So, I am placing this information in the hands of the global public at large, and I will let each of you decide on your own if you want to let these murdering thieves continue their practices of death and torture or not. I believe it is my duty to tell and continue to tell as many as I can of this great evil until I either die or my strength fails me and I am no longer able to do so.

Regardless, I advise ANYONE that has darker colored rings around the outer perimeter of the colored part of their eyes (often thicker in places and sometimes blurring into the whites) (Here is a recent example on mine:

)
to get health insurance with long term care and life insurance and then go to a Wilson's treatment center to get tested! Familiarize yourself with what Kayser-Fleischer rings look like and what spherocytosis looks like (smaller sphere-shaped red blood cells as opposed to the donut shaped "normal" red blood cells with translucent centers):

Notice these chained spherocytes - Rouleaux formation

As opposed to "normal" individual red blood cells "normal" are usually larger than the spherocytes but this person is obviously very ill or now deceased.

and ask the lab to let you see your blood on the spot (follow it from your arm to the slide, to the microscope to make certain the sample isn't switched. In order to be absolutely

sure, make sure the technician has NOTHING in their hands and no long sleeves on to prevent “slight of hand” as much as possible. In fact; I would ask them to show you how to prepare your own slide (don’t give them your tube/sample to do that!) (it is very easy), then you prick your finger yourself on the spot and drop the blood onto the CLEAN and STERILE slide (tubes may have chemicals put in them to hemolyze the blood or otherwise make it impossible for you to see your cells), focus the microscope yourself until your cells are clearly visible; if possible take a digital photo of the image by placing the lens of the camera right up to where you look into the microscope. I’m VERY serious about these measures no matter how extreme they may seem because just as criminals/some corrupt, greedy, casinos train their dealers to be card mechanics so they can cheat and steal your money at will, it is easy to train others in basic “slight of hand” techniques and switch a blood tube, blood sample or slide)! If you have both Kayser-Fleischer rings and spherocytosis don’t believe them if they tell you that you don’t have Wilson’s! It can take a lifetime before a person develops end stage symptoms! But it can happen quicker depending on diet and environment! DO NOT ATTEMPT TO GET TESTED FOR WILSON’S IN ANYWHERE OTHER THAN A SPECIAL CENTER JUST FOR THE CONDITION! Then if you don’t believe me, after you find out the truth, try to get diagnosed through a general practitioner and see how difficult it really is!

Finally, if there are any of you that believe in God and in His Loving Power to Heal, pray for me that He would manifest that health He purchased for us all when He was scourged some 2000 years ago, or let me go Home (to Heaven) quickly, because every waking moment of every day I am in agony; in a constant, tortuous pain, and deathly, sickly fatigue I wouldn’t wish on my worst enemy.

All I have stated, I state realizing there are consequences for slander, liable and false accusations, both in this life but more importantly by the Divine Creator and Ruler of the Universe, the Living LORD JESUS (YAHOSHUAH), the One and Only MESSIAH, who alone comforts me with the knowledge that He shall soon return in great glory and if there are not those honest enough left in the world presently to put an end to these wicked practices, then I know He will!

Just so everyone who reads understands what I mean by Divine Consequences, GOD in His Law, the Holy Bible, the Torah, plainly states that if anyone falsely accuses another and it is proven to be a false accusation, then they should suffer the penalty they sought to bring upon the falsely accused (I guarantee, less than half the prison population would be there, if this righteous law was adhered to; for no persecutor/prosecutor would think of taking a case without irrefutable evidence; furthermore, there would have to be at least two or three eye witnesses to convict, NOT just circumstantial evidence, because circumstantial evidence can be fabricated)! In my case, this means that I am willing to suffer the penalty of first degree murder (if these herein can prove I’ve falsely accused them of such); I am that certain I can prove what I state is true. I am a real person, all of this really happened and is still happening, at times I’m so ill I float between life here in the world and going Home to be with those who Love the LORD. Blackness closes in and then, I find myself still here suffering; convinced that it is GOD’s will for me to tell you all this; so you can properly start looking out for yourselves and one another and

entrust yourselves to the safekeeping of our LORD and SAVIOR JESUS (YAHOSHUAH), the CHRIST, through the days ahead. While I hope I may obtain help through this my greatest trial since coming to KNOW the LORD our GOD, it is my greater motivation to do His Will and to make you aware of one of the greatest evils ever perpetrated by the wicked upon innocent, unknowing people. I realize that by informing you all of how corrupt many of our government officials (executive, legislative and judicial branches), medical practitioners, pharmaceutical executives, have become that I will be angering them and they have assassins and special forces at their disposal, but my faith is in GOD (and that there are still enough people who value freedom, honesty and integrity still residing in the United States) to deliver and keep my soul rises above them all and I do it so that none of you have to go at it alone. If you will all put the word out together, then they won't be able to single you out and take you for a prey one at a time like they have been doing. PLEASE take this warning MOST SERIOUSLY and PLEASE HELP ME SPREAD THE WORD AND LET AS MANY KNOW AS POSSIBLE! IT JUST MAY SAVE YOU OR YOUR LOVED ONES FROM A SLOW, TORTUOUS DEMISE OR UNTIMELY DEATH. I thank you for your valuable time and while I know that so many are skeptical these days (and rightly so), I pray fervently that GOD will bear these words witness and spread them abroad throughout all the earth. In YAHOSHUAH'S (commonly known in the English language as JESUS, the CHRIST) OMNIPOTENT NAME, Amen.

A possible explanation as to why those who attempted my murder that day in the hospital didn't succeed in both their attempts was that I had entrusted the keeping of my soul to our LORD and SAVIOR, JESUS THE CHRIST AND TRUE MESSIAH (YAHOSHUAH, MORE CORRECTLY TRANSLATED) and just perhaps HE moved on someone to come running down the hospital hall to my room that wasn't in on the scam and thereby forcing them to at least pretend to attempt to resuscitate me. I believe the truth will come out soon enough even if I have to "die" in the process.

I close with my mailing address and my name and I ask that if anyone figures out my home phone number to please leave it open; so that if God wills, I might obtain the call I am hoping for and obtain an accurate diagnosis; so I can get the medical treatment I desperately need.

Michael E. Swenson
P.O. Box 129
Dover, ID 83825

Signed this 6th day of June, 2006 in the year of our Reigning King, JESUS (YAHOSHUAH), the One and Only CHRIST.

Michael Swenson signed electronically 9:54 p.m. PST

Forgive the shaky, sloppy signature; it is getting harder for me to control my hands.

I will notarize this document as soon as I am able (it is getting very difficult for me to even walk; let alone travel into town) and submit to attorney generals and public at large in the world.

Michael Swenson

On this ____ day of _____, _____, before me, the undersigned Notary Public, personally appeared _____, personally known to me (or proved on the basis of satisfactory evidence) to be the person(s) whose name(s) is/are subscribed to the within instrument and acknowledged to me that he/she/they executed the same in his/her/their authorized capacity(ies) and that by his/her/their signature(s) on the instrument the person(s) or the entity upon behalf of which the person(s) acted, executed the instrument.

Witness my hand and official seal.

[Within these brackets is a summary of things our own government is responsible for and some of the reasons why the events occurred. I am adding these events as of September 18, 2006 because they are still preventing my Loved Ones and I from getting correctly diagnosed; so we all can obtain necessary treatment. As stated this affects MILLIONS in the United States alone and TENS of MILLIONS globally (actually HUNDREDS of MILLIONS, but in the short interval that actual testing is done, the condition will be so well known that people will be able to start properly taking care of themselves even before testing proves the condition is that widespread) So as time goes on and they continue to refuse to let my Loved Ones and I get properly diagnosed and continue to attempt to STEAL, KILL and DESTROY by NOT TELLING US THE TRUTH, I will tell you all more and more of what they've done and why:

OUR OWN GOVERNMENT IS RESPONSIBLE FOR:

9-1-1!!!!!!!!!!!!!! THEY SET IT ALL UP!!!!!!!!!!!!!! This is how it went down: Greedy Bastards with nothing better to do than to plot on how they can take over the world, sat down and wrote out "The New World Constitution" an actual document that states plainly their agenda to rule the world! They plotted with plans on how to gain popular opinion so that the public and poor fools would be willing to sacrifice their own lives to bring to pass their devilish agenda while they sacrifice young, unknowing ignorants by brainwashing them through our branches of the military (why they target you young, poor souls before you gain enough knowledge to think for yourselves). They EVEN SHOW

YOU PLAINLY THAT THEY ARE BRAINWASHING YOUR CHILDREN ON TELEVISION! So that they will shed their precious blood all in the name of their Imperialistic, Greedy, Devilish, Agenda to RULE the WORLD in GOD'S PLACE! So they came up with what they thought was a great idea! They knew our westernized society didn't know much of anything about those in the region of ancient Persia and of the Islamic religion and traditions (so it would be easy to label them as "terrorists"). So they sat down with their pals the billionaires of the Bin Laden family. And they came up with a proposal, look Osama, good buddy, it's a win-win situation, we'll take good care of your wives and children (poor Osama didn't know until it was too late the lying devils had NO INTENTION of keeping their word! **THEY ARE NOT, ABSOLUTELY NOT,** honorable men who keep their word; they LIE CONSTANTLY, DON'T BELIEVE ANYTHING THEY SAY!!!!!!!!!!!!!!) yea, said the snakes, desiring to rule the world and make slaves of you all (as ever the spirit of antichrist has done since the beginning of time) ... yea Osama, we'll take *good* care of your loved ones, YOU get to be a HERO! A MARTYR! Your people will LOVE you! And WE GET TO INVADE and steal whatever resources we want!!!!!!!!!!!!!! (that's not what they told him, but I HOPE you're getting the idea!) What the Bin Laden family doesn't realize is that the true agenda wasn't to just get resources, but to set up a permanent strategic position, where to launch their true goals, militant strikes, of world domination! INCLUDING TAKING BY FORCE WHAT THE BIN LADEN FAMILY NOW CONTROLS!!!!!!!!!!!!!! (among other plans so heinous that most of you wouldn't believe even if I showed you video footage of their meetings) BUT I WILL SAY ISRAEL BEWARE!!!!!!!!!!!!!! DON'T TRUST ANYONE!!!!!!!!!!!!!! **YOU MUST, ABSOLUTELY MUST, TRUST IN THE LORD YOUR GOD OPENLY, UNASHAMEDLY, IN THESE LAST DAYS IF YOU WANT TO TRIUMPH OVER YOUR FOES ROUND ABOUT! I SAY AGAIN, YET NOT I, BUT THE HOLY SPIRIT IN AND UPON ME, IT IS TIME; THE TIME HAS COME, RETURN UNTO THE LORD YOUR GOD WITH ALL YOUR HEART, WITH ALL YOUR MIND; WITH ALL YOUR SOUL AND WITH ALL YOUR STRENGTH; FOR THERE IS NO OTHER WAY FOR YOU TO BE VICTORIOUS OVER ALL YOUR ADVERSARIES NOW GATHERING THEMSELVES TOGETHER AGAINST YOU TO ANNIHILATE YOU FROM THE FACE OF THE EARTH!!!!!!!!!!!!!! AND HOW SHALL YOU RETURN?! YOU MUST RECOGNIZE (THERE IS NO OTHER WAY) THAT YAHOSHUAH (JESUS THE CHRIST) IS THE ONE TRUE MESSIAH AND THERE IS NONE OTHER, AND CALLING UPON HIM AND CLEANSING YOURSELVES FROM ALL SIN, THROUGH AND BY HIS PRECIOUS HOLY BLOOD, BE RESTORED TO FELLOWSHIP WITH THE LORD YOUR GOD AND BE FILLED WITH HIS HOLY SPIRIT!!!!!!!!!!!!!! THEN YOU WILL RECEIVE DIVINE STRATEGIES OF WARFARE AND THEN WILL THE LORD YOUR GOD RISE TO FIGHT FOR YOU AND WHEREAS THEY SEEK TO ANNIHILATE YOU, IT IS THAT THEY WILL BE ANNIHILATED AND BE NO MORE!!!!!!!!!!!!!!** And why is this agenda in place, you ask? Besides the spirit of antichrist moving in and upon them to attempt to take GOD's place and rule the world, it goes back to World War II, both MUCH of the money and the war criminals took refuge right here in the United States! And they indoctrinated (bought their freedom) those who questioned them with their "supreme race" agenda. And so our government has been supporting genetic engineering

and has been using tax dollars to pay woman to be “breeders” because they were concerned that, in their opinion, people that shouldn’t be breeding, were; while people that should be breeding, weren’t. So to make sure the whole world wasn’t filled with ignorants (in their opinion) they’ve been spotting young people that they perceived would make good breeders and pay them to have babies (that they train to do their will). Much of the kidnapping is going to human slave trade and this agenda. Anyway, these spies have infiltrated where they perceive people have to go like hospitals, stores, home improvement branches; ANYWHERE, people regularly go; so they can look out for more prospects! (recruiting those with temptations of an adventurous life, which is also why they’ve been recruiting the elderly, retired, bored individuals, with temptations of “excitement” and “doing your duty for your country” in addition to small sums of money.) This practice is putting an unbelievable burden on the common taxpayer as government officials (CIA) steal these jobs needed by our community getting paid from the government AND the jobs they’re taking from the over-worked public at large. I haven’t gotten off on a tangent; I’m just trying to tell you how it’s all intertwined. In order to fund all this spying and desire to rule the world, they’ve buddied up with millionaires and billionaires, corporations who are run by these same “elitist”-minded racists. They promise them pie in the sky positions in the new world empire (all the while, thinking “stupid fools, after I’ve used your money to conquer by building more and more weapons, I’ll just have you shot if you don’t bow to my will.”) The truth of the matter is they don’t even need their money, they print off the paper whenever they want and is why inflation is out of control (been doing it in Russia now as well (selling out diamonds, weapons, and printing tons of paper at will, but poor ignorants don’t see how these devils have infiltrated their society)). But the reason why they oppress us with outrageous taxes and seek to drain the personal resources of others is they want the public so tired, that even if they finally figure out what’s been going on, you’re all too weary and too poor to do anything about it. And they want to make sure there is no one wealthy enough to finance any substantial resistance. Heck, I’ll just tie it all in for you. Texas Instruments has billions of bio chips ready for implantation into the general public. The main reason why there is so many printings of paper money these days, is that they’re putting out the image of counterfeit unsubstantiated bills (and attempt to frame others thereby); so that they can say there’s no way anyone can keep up with the authentic so they can do away with cash transactions all together. Why? They’re passing laws right now to keep track of EVERYTHING you own! Why? (they say to “fight terror”) but the real reason is so that they can STEAL everything you’ve worked hard for! It’s our own government responsible for the recent identity thefts; so they can say, we must keep track of all transactions, (no more cash and no more privacy regarding your personal estate), and all citizens (“so we can identify terrorists”) then if anyone gets out of line, they simply swoop down, arrest or kill you, say you were a terrorist and laugh as they steal everything you worked so hard for. Think not?! Corrupt law enforcement has been doing it for years through the “Rico Laws”. They spot people who have actually earned a decent living for themselves, then through their many spies they start spreading false accusations in their communities by accusing them of being drug dealers; so they can STEAL all your holdings!!!!!!!!!!!!!! And the poor victims are framed by them as they hide drugs in their homes when they break and enter or they just say they found drugs there. Then these innocents end up in prison completely framed while the devils laugh that

they've destroyed more innocent lives while they snort another line themselves. THIS IS THE WORLD WE'RE LIVING IN BECAUSE AS A SOCIETY YOU'VE PUT GOD AND RIGHTEOUSNESS OUT OF OUR PUBLIC SCHOOLS AND NOW WE HAVE A SOCIETY OF DEVILS JUST LIKE GOD'S WORD SAID WOULD HAPPEN!!!!!!!!!!!!!! ARE YOU HAPPY?! YOU WON'T BE WHEN ALL THIS HAPPENS TO YOU!! So getting back to 911. They just said we need to do it on a larger scale. Some of their corporate buddies probably made some bad investments, or some corporation was about to fail or they stole bonds or all of the above and more and so the towers had to come down so the evidence would be destroyed. Bush's cousin, in charge of security, made sure the explosives were set (don't you remember all the people on television that testified they heard a series of explosions?, look at the film carefully! Controlled demolition! We have the world's best radar, RF technology network, our government did the same thing to those poor fools that they did to Osama. ("hey (sucker), we can see you're a (poor s.o.b.); and we can see (you're hating life and to live because you're a poor s.o.b.) so we'll take care of your wife (wives) and children (RIGHT! – poor fools) if you do this for us. "you'll be a hero, a martyr, etc.etc.etc." and so they had to order our response network to stand down while the planes carried out their practiced plans, so they could make more money, kill innocent lives, blame "terrorists" and gain public opinion, so they could kill your innocent children in sending them to a war of their own making, enforcing their will in STEALING, KILLING AND DESTROYING INNOCENT OTHERS!!!!!!!!!!!!!! ALL THE WHILE THEY'RE LAUGHING!!!!!!!!!!!!!! What a great plan, decrease the surplus population, award the contracts to their corporate buddies, more for them and their plan to rule the world rolls right along. ALREADY they've been putting biochips in babies and federal agents (some of the foolish agents don't even realize it, they were told they were getting "inoculations".) All so the devil can keep his thumb on you so that you can't buy or sell or do anything at all without him knowing about it! (Patriot Act violates the highest laws of our land but they obviously don't care, after all when they murdered American citizens (the Kennedy's, Malcom X, Martin Luther, Waco, 911, and thousands of nameless others) they consider themselves above the law and a law unto themselves. Corrupt cops are just waiting for martial law to be declared so they can enter your homes and kill you and they've been keeping their eyes on the nicest places in their communities. It's the real reason why they've been trying so hard to get rid of those who believe in the 2nd Amendment (right of all citizens to bear arms). The reason why the government land vehicles uses almost exclusively diesel and jet fuel (now are going to universal incinerators) is so that they can keep you under control by banning standard fuel during martial law. Alright so 911 was the most blatant act of high treason ever committed in the history of the United States but it was just small potatoes compared to how lucrative the Wilson's scam has been in murdering innocent thousands and about to become millions. Just so you so called "patriotic" Americans know, our government is putting the lives of all of you in the greatest danger this world has ever known. Because of the crimes, atrocities and war crimes, they've committed and are committing right now we are on the verge of World War III and global annihilation! Concentration camps are already to go right here on American soil, it is at the doors when these devils start rounding you all up just like they did in World War II. Say hello, to the rise of the Fourth Reich unless you all raise up RIGHT NOW and say of ONE ACCORD, NO

WAY!!!!!!!!!!!!!! ABSOLUTELY NOT! AND BRING THESE LYING, STEALING, MURDERING DEVILS TO JUSTICE RIGHT QUICK!!!!!!!!!!!!!!

As Americans, we need to apologize to the world for our nation's war crimes and openly ask their assistance in bringing these worst criminals in the history of the world to justice as soon as possible or I see plainly on the horizon a holocaust in which hardly any souls on the planet will be left. The time has come, we are at the most critical point in the history of mankind since the Great Flood of Noah's day. And contrary to popular opinion, you who are sitting on your asses, not doing anything to stop these devils, are NOT going to float up out of here in some kind of "RAPTURE". GOD calls you to be VALIANT, BE BOLD, BE COURAGEOUS, BE TRIUMPHANT FOR HIS NAME'S SAKE!!!!!!!!!!!!!! NOT COWARDLY!!!!!!!!!!!!!! THE EARTH AND THE FULLNESS THEREOF BELONGS TO HIM AND US WHO ARE HIS CHILDREN!!!!!!!!!!!!!! WE'RE NOT TO BE GIVING IT UP TO DEVILS BUT SAYING TO THEM, **"YOU WICKED OPPRESSORS, HAVE OPPRESSED LONG ENOUGH! YOUR TIME HAS COME TO AN END! YOU WILL NO LONGER TAX US, RECEIVE TRIBUTE FROM US, STEAL, KILL AND DESTROY IN ALL THE EARTH!!!! IT ALL BELONGS TO US; NOT YOU!!!!!!!!!! STEP DOWN OR DIE!!!!!!!!!!!!!! IN YAHOSHUAH'S OMNIPOTENT NAME, PERISH DEVILS, ALL OF YOU AND BE NO MORE IF YOU REFUSE TO REPENT OF ALL YOUR MANY, MANY, MANY CRIMES AGAINST GOD AND MAN!!!!!!!!!!!!!!"** Amen.

Most all of these crimes are carried out by bribed governing officials (in all three branches), businessmen and women, doctors, CIA officials, special forces, paid assassins (synonymous), and that's why the open assassinations have occurred upon those trying to get rid of the corrupt printing of unsubstantiated bills by our government (driving the cost of living impossibly high for those of us who have to earn the paper with pretty pictures on it). And for those who have spoken out against the CIA, they kill; just like those who have fought for living wages (like Hoffa), those who try to get rid of the corruption, and those who point out their racist/elitist agenda as well as their many connections to drug dealers, cartels, mob bosses (casinos), etc. (if money is involved these devils want their share so to speak), the same way the strong arm robbers working at the IRS steal from your wages (it's absolutely no difference than when a racketeering mobster demands you pay for protection or else – the IRS is an illegal entity, illegally created, and our government has NO RIGHT whatsoever to tax citizens' earnings!!!!!!!!!!!!!! (just another way to keep you all so oppressed you can't even think let alone do anything about it). Welcome to the world of the dead and dying. GOD is not mocked! HIS Fiery Wrath is about to be unleashed such as this world has never seen!!!!!!!!!!!!!! Holy Angels have encircled the entire globe and stand ready to pelt (stone) the sinners with "hail stones mingled with fire" the sizes of five bowling balls put together; in keeping with GOD'S HOLY LAW!!!!!!!!!!!!!! THE DAY OF LORD'S VENGEANCE IS TRULY AT HAND!!!!!!!!!!!!!!

What is HE waiting for; you might ask? HE'S waiting to see what **you** will do at the reading and/or hearing of these words.

I conclude at this time (more will be revealed if the Wilson's scam doesn't come to an end right now upon innocent American citizens and the citizens of the world and my Loved Ones and I get properly diagnosed; so we all can get the treatment and compassion we need as we go through the most severe and painful trial and tribulation of our lives. (millions right here in America are about to die horribly and uncomforted if this doesn't come to the Light and Attention of the few kind, caring compassionate souls left on the planet). Yes, if they don't end this wicked persecution upon the innocent right away, even more of their heinous crimes, how and why, will be revealed together with evidence of the names of those involved. (They think they're the only ones who have been spying, they've all been under surveillance for a very long time!!!!!!!!!!!!!! – FOOLS!!!!!!!!!!) So consider now if you truly are a Patriot, read for yourselves the Declaration of Independence and the Bill of Rights (the First and Most Important, Foundational and Highest Laws of our Land as contained in the United States Constitution) and ask yourselves, if our forefathers, who were prepared to bleed and die for FREEDOM; who were prepared to lay down everything they held dear, their homes, their lands, their families in their JUST CAUSE; Yes, ask yourselves if those REAL PATRIOTS were prepared to FIGHT, ... **Are YOU??!!!!!!!!!!!!??**

I am reminded of Patrick Henry's famous quote spoken by Inspiration from GOD, "...I KNOW NOT WHAT OTHER COURSE OTHERS MAY TAKE, BUT AS FOR ME **GIVE ME LIBERTY OR GIVE ME DEATH!!!!!!!!!!!!!!!!!!**"

I KNOW, BEYOND ALL DOUBT, THAT IN YAHOSHUAH'S (JESUS THE CHRIST) OMNIPOTENT, HOLY NAME, I HAVE THE VICTORY!!!!!!!!!! I HAVE ETERNAL LIFE!!!!!!!!!!!!!! IT'S THESE DEVILS THAT ARE GOING TO DIE; NOT ME!!!!!!!!!!!!!! LIBERTY AND FREEDOM WILL REIGN IN ALL THE EARTH WHEN OUR LORD YAHOSHUAH APPEARS IN GREAT GLORY BUT IN THE MEANTIME, I'M NOT GOING DOWN QUIETLY OR WITHOUT A FIGHT; IN HIS SUPREME AND HOLY NAME AND TO HIS GLORY!!!!!!!!!!!!!!!!!!!!!!!!!!!!!! AND I HOPE TO SEE GOD'S VALIANT ONES JOINING THE RIGHTEOUS CAUSE QUICKLY NOW!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

!!!!!!!!!!!!!!!!!!!!!!!!!!!!!! AMEN, HALLELUJAH, AMEN !!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

1

September 23, 2006 Update continued.

As I have stated, I will continue to reveal more and more of what is going on until the Wilson's scam comes to an end and my loved ones and I get properly diagnosed and told what we can do and be able to obtain necessary medical care when the time comes.

Our government has made spying alliances with Microsoft, AOL Time/Warner, Gateway, Dell and communications corporations like MCI; so that spying on it's own citizens (long before the Patriot Act and virtually since the inception of the Internet) could be easily facilitated. Microsoft provides backdoor entry to our government and for themselves and remote viewing of everything you do on your system has been in place for quite some

time. Gateway and Dell have provided access to your data THROUGH THE POWER SUPPLY! THIS IS NOT WELL KNOWN AT ALL, BUT IF YOU'RE PLUGGED INTO THE GRID AND NOT ON AN ISOLATED POWER SUPPLY AND SECURE ENCRYPTED NETWORK BEHIND QUALITY FIREWALLS (NOT ZONE ALARM OR MICROSOFTS BUILT-IN BUT AVG AND KASPERSKY ARE OKAY FOR NOW) THEN YOUR SYSTEM IS FREE TO BE BROWSED AND IF UNPROTECTED, STOLEN FROM OR ALTERED! The majority of virus attacks are by our own government spies (we have FAR more than any other nation!) Lately the Helkern attacks have been a preferred method. AOL provides copies of all email correspondence to our BIG BROTHER NOW OUT OF CONTROL! The program to spy on citizens through the Internet I believe was originally codified under the name Centurion, but could be something else now. IF you are able in the future and DON'T want BIG BROTHER invading EVERY ASPECT of your PERSONAL PRIVACY and LIVES (including it's standard practice now to bug American citizens homes and place cameras that are so small that you need a microscope just to see the components)!, then you need to go to ALTERNATIVE POWER OFF GRID AND BECOME AS SELF SUFFICIENT AS POSSIBLE UNTIL THIS TYRRANY COMES TO AN END. By SELF-SUFFICIENT, I mean learn to live off the land, and that if money can't be had you can still provide for you and your loved ones basic necessities of life. IF you can't handle that, then you need to PRAY! Furthermore, Brit leaders are also aware of these things and likewise practicing spying techniques (cameras virtually EVERYWHERE)! And unfortunately, now they don't even respect the privacy of your own homes. To be very clear, cameras in your bathrooms, cameras in your bedrooms, tracking phone conversations, computer IM and email (the most current versions of software by those mentioned have the WORST spyware built in (why the browsers keep getting updated so rapidly). The good news is that Apple/MAC didn't cave in to the corrupt BIG BROTHER threats and if I had the money I would be crossing over as soon as possible, especially since now they can communicate with IBM PC's. MSN, AOL, and any linked ISP's like Netscape, Walmart, etc. to AOL are all participating in making all your email correspondence known. The safest way, if you want privacy, is to send encrypted correspondence that's password protected. Cell phones in public can be tuned into and lips read just like the movies show, but cells in private, especially brand new ones are still relatively secure. (Might be a good idea to obtain secure PDA phones with encryption software or keep a new cell available for critical communications) Above all if your battery on your cell has been changed KNOW you are being listened to and tracked by BIG BULLY BRO! This is all a result of too much centralized power in the hands of corrupt individuals. America was founded as a Republic; not a Democracy and was never intended to have such enormous concentrated unrestrained power as now exists in our federal branch. President Clinton ordered that TRUE U.S. HISTORY be taught in our public schools and I have found the David Barton of Wallbuilders, Carl Baugh, James Dobson, James Kennedy, Josh McDowell and Catherine Millard to have some of the best and correct knowledge of this subject. Because you can't return to your foundations as you need to, Americans, if you don't know what they were.

GOD, in the Name of YAHOSHUAH bring it to pass. Amen.

I will notarize this document as soon as I am able (it is getting very difficult for me to even walk; let alone travel into town) and submit to attorney generals and public at large in the world.

Michael Swenson

On this 1 day of September 2006, before me, the undersigned Notary Public, personally appeared Michael Swenson, personally known to me (or proved on the basis of satisfactory evidence) to be the person(s) whose name(s) is/are subscribed to the within instrument and acknowledged to me that he/she/they executed the same in his/her/their authorized capacity(ies) and that by his/her/their signature(s) on the instrument the person(s) or the entity upon behalf of which the person(s) acted, executed the instrument.

Witness my hand and official seal.

Notary Public in Idaho
Residing at Yadade
Commission Expires 6-29-2008
