Plaintiff, is representing himself in a matter of serious violation of plaintiffs civil rights and constitutional law. While portions of the crimes against plaintiff took place in the State of Washington and hence some of the Defendants live and/or work therein, the crimes continued against Plaintiff in the State of Idaho, where Plaintiff resides. Due to the crimes against Plaintiff, he is seriously ill (considered by the medical community as terminally ill) The conditions were set off, worsened and allowed to continue to an extent as to attempt to deprive the Plaintiff of his life by the actions and/or negligence of the defendants. Conspiracy has occurred across state lines and because of the civil rights violations and constitutional issues, the matter can be tried in one Court. Plaintiff moves that the trial occur in the State of Idaho, as traveling regularly under the severe impairment to his health such distances to Washington is virtually impossible and seriously life-threatening for the Plaintiff. Plaintiff also moves for expedition of trial date due to the seriousness of the Complaint and health status.

31 I preface this complaint with an apology in advance to kind, innocent, decent souls for
32 the details I am about to relate. I have debated long and hard whether the pain of hearing
33 the events that have transpired are more damaging than to remain silent and possibly let
34 these things spread to other innocent victims. It might not have been so hard, but friends,
35 family, colleagues and authorities have systematically disbelieved me and instead of
36 helping me; though I've sacrificed all, have chosen to disbelieve me to my personal harm
37 and that of many innocent others, rather than do something to make sure this doesn't
38 happen to anyone else. In fact, there is such a string of crimes and corruption that has
39 been perpetrated against my recently divorced wife and I that the telling of them would
40 almost certainly preclude any serious hearing by the Court because the level of evil is
41 simply that incredible to decent, law-abiding citizens. So with no intellectual promise
42 that anything will be different now, I have determined that even if I'm hated and

43 disbelieved for what I must relate; and even if I'm sent to my possible death or torture of
44 mind and health by the administration of chemical lobotomizers in some mental ward
45 (because the events of what has happened to me are so terrible, it's easier for sane and
46 decent folks to think I went crazy than that evil and corruption has reached such
47 extremes); or murdered elsewhere, that I must nevertheless try with all that I am to do
48 what I can to prevent this from happening to anyone else and to make innocent citizens
49 aware; so they can better look out for themselves and their estates. I am not suicidal; nor
50 do I have any pleasure in suffering and torture; this is the most difficult thing by far I
51 have ever faced and I make this complaint with all seriousness and gravity and fully
52 realizing I am risking literally all I possess and my own life in the telling of it. I do not
53 have any agenda than the hope to save innocent souls, my loved ones and I from further
54 persecution and death. Let it be known in heaven above and in the earth below that I
55 declare these things by faith in GOD alone and that in that faith as others, if need be I am
56 willing to sacrifice my very life to fight this kind of evil; if only in the hope that it may
57 save even one innocent from similar evil or worse, than my wife and I have endured thus
58 far. In the name of Jesus Christ, YAHOSHUAH, May our Lord bring in righteous souls
59 to help me round up the perpetrators of these atrocities. Amen.

60

61 In a cause of action where there are violations of national and international law,
62 humanitarian and civil rights, Plaintiff(s) submit that the constitutional right that no
63 citizen is to be deprived of life or liberty without due process of law is at the heart of this
64 matter. Plaintiff(s) are representing themselves and do not preclude others (like victims)
65 who may or may not have legal representation in joining this cause of action. (Hereafter

66 understood that “Plaintiff” refers to complainants in this class action tort) Plaintiff is a lay
67 person with only a cursory knowledge of the law and court procedures; not a licensed
68 attorney. Plaintiff therefore requests leniency regarding not dismissing this just cause for
69 any technical or presentational lack of following any specific guidelines and procedures.
70 Plaintiff knows that there is a statute of limitations regarding submitting certain claims,
71 but contends the facts surrounding this cause have been continuous and ongoing to this
72 date and that due to extreme illness the initial facts weren’t clearly discovered until less
73 than a year ago (at the time I began typing this but I’ve been deathly ill and the
74 compilation of the evidence together with the circumstances surrounding our recent
75 divorce has prevented any earlier filing); upon which the Plaintiff notified as many
76 authorities as he was able to on a local, state, and national level through the Summer and
77 Fall of 2006; to date no authorities have contacted me to investigate these serious crimes.
78 I am concerned that if I submit the transmission logs proving the faxes I sent to these
79 various offices, that it may result in even more retaliation and crimes against me; so I
80 would prefer to submit the rest of them once the full compilation of the sensitive
81 evidence is entered and verified for the Court; hopefully by some volunteer assistants on
82 my side, because this is a monumental undertaking for one individual. Moreover,
83 plaintiff believes there is not a statute of limitation for homicide and contends that the
84 events that have taken place are in fact resulting in a slow, tortuous demise. In other
85 words, just because someone hasn’t shot me doesn’t mean that if someone poisons a
86 person or gives them a deadly disease that takes a long time to actually kill the person,
87 that it isn’t homicide. In my case, due to my hereditary condition, that had to have been
88 known by the perpetrators (and whether it was or not, their acts against me have literally

89 placed me in a position where I am fighting to stay alive long enough so that they can't
90 torture and murder others in this fashion). More facts are even still being discovered as
91 crimes increase against us. It may have been coincidence but my dog was shot recently
92 and supposedly hit by a car even though he died after a second shot sounding identical to
93 the first was fired about a month after the first shooting incident. I just buried him and
94 under the circumstances there is a strong possibility the message was to discourage me
95 from filing this complaint. Facts surrounding this conspiracy complaint are still
96 expanding virtually daily. Therefore, Plaintiff reserves the right to amend the complaint
97 in the event more crimes are discovered or perpetrated prior to or during trial. Plaintiff
98 has attached an affidavit that is supportable in a court of law with exhibits of documents,
99 digital images, artifacts, and by scientific proof demonstrated therein. Plaintiff asks the
100 court to issue subpoenas as necessary and grant motions of discovery of any and all
101 correspondence, communications, reports, medical records from the defendants involving
102 this cause or mention plaintiffs in any way. That is to include phone records, mail, email,
103 notes, video or any other recorded media involving plaintiff and defendants for the
104 duration from initial contact with plaintiff until such date as this is resolved. Plaintiff
105 asks the court to issue summons for the defendants to appear in court as expeditiously as
106 possible. The nature of the complaint is extremely serious and the defendants so listed
107 have proved willing to threaten witnesses into silence and destroy and/or alter evidence.
108 Proof exists of these allegations. Frightened witnesses may not come forward until it is
109 evident there is enough publicity and protection concerning their welfare. That doesn't
110 mean they don't exist, they will be watching to see if I can prove my lack of diagnosis
111 leaving me to die in excruciating pain and unable to get proper medical care until this is

112 resolved. I have locked away safely the exhibits, some of which are so technologically
113 advanced they require a microscope to analyze. My reason for stating this is that the
114 evidence I have accumulated is so sensitive (and so convicting) it could be easily “lost”
115 or destroyed by representatives of the defendants listed. In addition, the evidence is not
116 so easily recognized as such by the general populace. My extreme curiosity and path of
117 life has exposed me to a lot of uncommon knowledge, I’m finding out as I point out
118 evidence to others and they don’t have enough prior knowledge to recognize that what
119 I’m saying is true. A prime example is that license plates with numbers like “333”,
120 “4444”, “5555”, and I suspect “007”, “0013”, or “00...” are reserved for government
121 issue, but unless someone in authority confirms this, who would know it to be true? I
122 found out from a DMV agent that repeated numbers were reserved government issue (at
123 least at the time I sought such a plate) and so when many vehicles like this started
124 following my truck everywhere I went shortly after visiting the Wilson’s website, it
125 alarmed me. I started taking photos of all of them while driving and that alarmed my
126 wife, who was not aware that such plates were reserved for government officials. Since I
127 hadn’t broken any laws and since this occurred primarily after discovering that I was
128 dying from undiagnosed “Wilson’s Disease” and then increased after notifying
129 authorities via my affidavit of the homicide attempt in the hospital, and when authorities
130 conducted no investigation and made no arrests, to be trailed by government employees
131 felt very threatening to me. Since my wife had never found that information out, she
132 wasn’t just going to take my word for it and this has been my greatest problem. People I
133 meet and have tried to explain all of this to, simply don’t possess the same knowledge I
134 do. I’m not saying I’m more intelligent, quite the contrary, I know I’m less educated, and

135 if I were intelligent, I would've found some way to pass what I have learned on to them.
136 Often the people I'm trying to explain this to are more educated and so they
137 automatically don't take what I have to say seriously, because they haven't come across
138 such knowledge before. It might be true of me, if they tried to point out something of
139 their personal knowledge to which I'd never been exposed. But I am telling the truth and
140 if given the opportunity I believe I can prove it in Court or I would not be risking all to do
141 so. This is an extremely dangerous case. I am not fabricating any of the claims for some
142 selfish reason. In fact, I realize just by filing this complaint I am putting myself in grave
143 peril, but to not file is to leave others, many others (I suspect number in the tens of
144 thousands right here in the Inland Northwest, millions in the United States and hundreds
145 of millions worldwide); including my loved ones closest to me, in the same peril or
146 worse. I detest being put in the position of a whistle blower, but I am only one person
147 and the perpetrators many, the victims and potential victims massive if I do not warn or
148 attempt to warn unsuspecting innocents by every means available to me. So far all my
149 efforts seem to have been in vain; so I am literally beseeching the mercy of the Court for
150 a chance to PROVE my allegations as soon as possible (before I die from the ailments or
151 by some unnatural method). Due to my health, I petition the Court to try these matters
152 within the city of Sandpoint, ID altogether rather than separately in various jurisdictions,
153 because I am too ill to travel distances regularly. I realize, I may die in process of
154 attempting to prove this, but I must do so; my conscience will not allow me to do
155 otherwise. I also petition the court to give me an expeditious appearance; for each day
156 that passes gives my adversaries another chance at silencing me; or my health to fail
157 altogether making it impossible for me to testify and present the stacks of evidence I've

158 gathered. Another reason, why some of the evidence must needs be presented during the
159 actual trial, is the vast resources of the United States government can work at threatening
160 and bribing witnesses and discrediting the evidence or coming up with excuses as teams
161 work at deceiving the public.

162

163 Plaintiff alleges in brief a conspiracy by our governing authorities and certain medical
164 practitioners to keep the general public in ignorance of a rather common hereditary
165 condition that can result in or manifest all manner of illnesses many of which are
166 terminal. Plaintiff alleges that the motivation for this practice is that it is highly
167 profitable for the pharmaceutical industry, medical industry and government (FDA and
168 stock holders, and those taking bribes) to treat the many symptoms rather than inform the
169 public of one of the leading and common causes of terminal conditions. Analogous to
170 AIDS before it was widely known, many would die of unrelated conditions due to the
171 weakening of the immune system. The hereditary condition being falsely called and
172 labeled a disease is referred to as Wilson's Disease. It is a condition genetically passed
173 on that affects an individuals' blood. It impairs proper functioning of the blood through
174 immature and improper formation of the red blood cells among other things. The details
175 of the condition and the results it has on the body as blood failure causes various organs
176 to also fail are described in detail in the attached affidavit and can be readily determined
177 through study of the research material compiled to date. This intentional lack of
178 informing the public results in profits in the billions for pharmaceutical companies, and
179 medical practitioners, when the condition, if known, is readily and rather inexpensively
180 treatable by life long maintenance; if the individual becomes aware they have the genetic

181 trait before they development end stage terminal symptoms. This general cover-up has
182 resulted in my personal travesty. I can prove many medical practitioners and even
183 government “agents” have been working against me in my efforts to obtain an honest
184 diagnosis for myself and my loved ones.

185 Furthermore, plaintiff alleges that local (Deaconess Hospital in Spokane) medical
186 practitioners willingly tried to murder him by administering an incompatible blood
187 transfusion against his express verbal and written instructions, tying him down on a
188 gurney and sticking an intubation tube down his throat such that he could not cry out for
189 help or defend himself. The act resulted in two episodes of pulmonary edema and cardiac
190 arrest. Further the attack left the plaintiff with temporary memory loss and a fight to stay
191 alive ever since. Plaintiff can prove he has the hereditary condition known as “Wilson’s
192 Disease” in a court of law but local practitioners in an attempt to cover up the murder
193 attempt have conspired with their fellow colleagues and also pressured by governing
194 authorities (because of the intentional public cover-up) to leave plaintiff undiagnosed
195 and dying. Plaintiff is seriously ill and instead of filing a law suit when he finally
196 discovered the truth of all that has transpired, sent his signed affidavit to the attorney
197 generals of both states, and to appropriate local authorities in Idaho and Washington and
198 on a federal level. Plaintiff sent affidavit to governor’s offices, the House of
199 Representatives, the Senate, all State Medical Review Boards, the hospitals involved,
200 attorneys, Department of Health and Human Services, Office of Civil Rights and more to
201 be demonstrated in court that Plaintiff attempted to exhaust criminal remedies and
202 administrative chains and save the unsuspecting public from inhumane torture and death
203 as a result of these corrupt and illegal practices for money.

204

205 Plaintiff was kidnapped by deception and illegally confined, intentionally discrediting the
206 Plaintiff; so as not to be believed. While I have reasons to suspect (I worked in
207 restaurants for years and unfortunately, sometimes food spoils and has to be thrown out;
208 anyone who has ever eaten bad food or water knows what it's like to suffer from food
209 poisoning and suddenly I started having those symptoms rather regularly), I've survived
210 multiple assassination attempts by poisoning, it is extremely difficult for me to prove
211 because corrupt agents either threaten or bribe citizens into false lab reports (or switch
212 blood or urine samples prior to analysis) and show them a nearly 20 year old conviction
213 that makes them think they're not participating in murder, just the death of a less than
214 desirable ex-convict. It's never mentioned that I spent my entire incarceration studying
215 the Holy Bible and obtained my ministers license and ordination. It doesn't matter that
216 I've spent the years working honestly ever since. It doesn't matter that I have made
217 every effort to live uprightly in sincere repentance for the errors I made when younger
218 and ignorant of the truth of GOD, Heaven and hell. There were/are eyewitnesses and
219 others that can verify these allegations besides the ones I personally witnessed but I have
220 learned that after a visit from these corrupt authorities the eyewitnesses are often scared,
221 bribed or threatened so that they may not come forward, but I hope when the time comes
222 they will to save innocent lives and possibly keep this nation from falling; for corruption
223 this awful if allowed to spread and grow unchecked will cause it to crumble like rust eats
224 a structure until it collapses). Ultimately, this is how it all works. An unsuspecting
225 victim or victims come in for a health related condition, by skillful questions, physicians
226 determine the victims estate and level of will preparation, if they are well connected with

227 friends and family or not and can easily murder them by administering an incompatible
228 blood transfusion that causes an acute hemolytic response (or by some other lethal
229 “accident”). With no witnesses, the victim(s) simply “accidentally” dies during even a
230 “minor” surgical procedure. If they are single or only a couple and no witnesses, the
231 perpetrators know where the victim(s) lives from the paperwork and having the keys can
232 easily loot any personal and real property (victim automatically dies “intestate” and I
233 *suspect* is where at least some of the many government sponsored estate auctions are
234 coming from). The fact that corrupt medical practitioners tried to take my life and then
235 tried again to cover it up, is provable in a court of law (should investigators look into
236 these allegations seriously much more evidence than I have accumulated to date would be
237 obtained). So one spouse dies and then the other and corrupt officials tell the sweet
238 unsuspecting public or any friends or relatives that might come forward, that the spouse
239 must’ve died of a broken heart, etc. (when probably poisoned, perhaps lethal
240 prescriptions or given a hot shot similar to what they use to put animals “to sleep”).
241 Corrupt authorities are first on the scene of crimes and can readily designate cause of
242 death; so it is a REAL threat if they are criminals. In hospitals, doctors designate the
243 cause of death and out, police first arrive on the scene. Decent citizens, believers in God,
244 don’t expect this kind of hideous corruption and simply want to live quiet, peaceful, law-
245 abiding lives; thus their innocence and naiveté makes them easy targets to this kind of
246 criminal activity. I firmly believe I can successfully prove in court the willful (and in
247 some cases negligent) intent to leave me undiagnosed and dying of the terminal
248 condition, “Wilson’s Disease”, as I state. My conclusion after everything that has

249 happened that our government is negligent at best and willfully corrupt at worst I believe
250 reasonably minded individuals will agree with after beholding all the evidence.

251

252 Furthermore, Plaintiff requests that all evidence be inventoried at a future date as close to
253 trial as possible with mutual legal representatives (or in my case might need to be
254 volunteers as I may be without means to compensate legal counsel if and when I might
255 survive to testify in Court) with video cameras connected to off site servers (location
256 unknown to the state (defendants)) are present to make certain evidence is fully
257 catalogued and not damaged, destroyed or lost. I know this might seem unbelievable
258 because most of the time a case of this nature isn't brought by just one person but an
259 entire firm with resources and teams of professionals, but my requests are serious and
260 necessary under these extreme circumstances. Plaintiff requests that the evidence be
261 publicly recorded by various forms of media, print, radio and television broadcasters with
262 the strict compliance of simply documenting should the "state" intentionally or
263 unintentionally misplace/destroy the evidence. Plaintiff seeks to prove one allegation at a
264 time in order to establish completely the conclusions set forth in this most serious
265 complaint and in order to allow the court as soon as possible to determine if my
266 allegations merit further attention and time. If I am murdered or die because of the lack
267 of proper medical care soon, please make certain my wife is not in any danger or under
268 any threat of retaliation; an honest FBI investigation needs to be conducted to ensure her
269 safety from other persons in governing powers that have become criminals. I state this
270 because certain events that have transpired recently between us and many conversations
271 have left me reading between the lines that she may already be under coercion to get me

272 to stop pursuing this in an effort to save my life. While I am grateful for her genuine
273 concern, I can not without clear conscience before God remain silent. I, therefore, ask
274 that the Court make sure she is kept safe from any illegal retaliation on account of this
275 decision of mine. For her and innocent others, I risk now my freedom, my properties,
276 my possessions and my life. I told her when I gave her my love and my vows that I
277 would fight to the death for her. While I never anticipated such odds, such horror, I hope
278 she now realizes that this is the very best I can do under the circumstances and that with
279 this act I am keeping my commitment to her. PLEASE DO NOT DISMISS THIS
280 CAUSE SIMPLY BECAUSE IT'S SO HORRIBLE THAT IT'S EASIER IN YOUR
281 MIND TO THINK ONE MAN HAS GONE INSANE THAN TO BELIEVE
282 CORRUPTION HAS SPREAD INTO SUCH GRAVE EXTREMES. TO DO SO MAY
283 ENDANGER YOUR OWN LIFE AND THAT OF YOUR LOVED ONES SINCE NOW
284 YOU HAVE BEEN MADE AWARE. IT IS OF THE UTMOST IMPORTANCE THAT
285 RIGHTEOUS AUTHORITIES ARE CALLED IN IMMEDIATELY TO
286 INVESTIGATE. DO NOT LET THEM CREMATE MY BODY BEFORE A PANEL
287 OF ANY WILLING CORONERS(I WOULD PREFER OF THE FAITH TO ENSURE
288 THEY HAVEN'T BEEN THREATENED OR BRIBED INTO FALSIFYING ANY
289 POTENTIAL AUTOPSY) DETERMINE IF I WAS TELLING THE TRUTH ABOUT
290 BOTH WILSON'S AND POSSIBLY VARIOUS POISONS. If an analysis of my blood
291 is to be checked for toxins prior to my demise, then it should be done anonymously and at
292 a lab in a large city where many other anonymous patients are screened for the same, the
293 lab specialists told if they fail to correctly diagnose the blood samples for toxins that they
294 will be fired and bank accounts investigated for any bribes. Then if nothing turns up

295 rescreened at an anonymous international lab; the samples sent randomly and
296 anonymously. Any then coming back positive would show either the incompetence or
297 corruption unfortunately in so many as officials threaten lives and or bribe to cover up the
298 truth. I have every confidence that He who has preserved my wife and I thus far is more
299 than able to keep us alive, but and if it is His will that either of us depart, I, at least, will
300 do so with a clear conscience that even though I may not be believed I did my very best
301 to defend my wife, the freedoms our fore fathers bled and died for, and the souls of many
302 who are suffering already on account of the facts contained herein.

303

304 FACT, I am dying of undiagnosed terminal condition; (possibly conditions), that I can
305 scientifically prove virtually before anyone with eyes to see.

306

307 FACT, the lack of diagnosis is resulting in inhumane, excruciating pain, unable to work
308 and provide for myself and family. (which will result in death by exposure and/or
309 starvation if left homeless).

310

311 FACT, the lack of diagnosis has resulted in libel and slander in my community, among
312 former colleagues, early leave of absence, wrongful incarceration, incredible marital
313 stress (now divorce), and the mis-diagnosis is a threat to my freedom and life because it's
314 so discrediting I couldn't return to my profession in this community even if I became
315 well enough and because others might actually believe it and become fearful of me, even
316 though I pose no threat to them whatsoever and in fact, am sacrificing my own welfare to
317 actually help them.

318 FACT, the lack of diagnosis is preventing me from obtaining long term medical care with
319 possible chance of recovery, and any disability insurance (prepayment of life insurance
320 policy(ies)) that might help me with the burden of day to day living expenses. Now I've
321 lost my health insurance because I simply couldn't afford it any longer. So now as a
322 result of ongoing suffering from the acts against me my life is further threatened because
323 I actually need highly specialized medical care, that probably is no where in the Medicaid
324 coverage if I could actually get it. In other words, I believe I know the treatments I need
325 but because of this I simply can not afford it and the government might think some other
326 treatment would be in my best interest when it isn't. (For example, practitioners
327 regularly prescribed chemotherapy and radiation therapy for certain types of cancers and
328 other ailments; these are the accepted government authorized treatments, but statistics
329 show a 96% death rate in a short period of time to those accepting such torture, when the
330 facts are that alternative treatments have a much better success rate of actual recovery! In
331 fact, I personally met a man recently that participated in a study in which he and over
332 twenty other terminally ill patients with cancer were actually cured with some type of
333 grape seed extract, but has the public been made aware of the tests and results (I bet those
334 in the upper echelons of our government and society have).

335
336 FACT, after sending my affidavit to federal authorities and even the US attorney
337 general's office, I received a message on my answering service that stated this was all in
338 place as a form of "population management...it works perfectly." This recording and
339 others have been retained to be submitted as evidence along with a vast amount of data
340 and proof of the allegations set forth in my complaint and affidavit.

341

342 FACT, the life insurance policies are serving as motivation for these corrupt officials to
343 declare that we died intestate, auction our properties (or “bid” on them for themselves)
344 and rob us of our personal property when we pass. My source tells me they usually
345 prefer that one spouse dies first, then under threat once the policy pays, rob the survivor
346 and get them to name (marry) one of the criminals (again under threat) as a beneficiary
347 before that surviving spouse dies as well. My phones were/are bugged, my home, my
348 autos, I can’t go anywhere without the authorities knowing and thereby even contacting
349 an attorney results in ongoing threats and cover-ups. (By the time an investigation is
350 done, my property might be cleared/cleaned; so time is of the utmost importance). Please
351 help me quickly! I will need help organizing all the evidence because my health has
352 declined so severely, basic tasks are becoming nearly impossible. (It took many months,
353 phone calls and letters to finally get the policy canceled, but I shouldn’t have had to
354 cancel my insurance policies in the first place; if I had gotten an honest diagnosis the
355 policies would have allowed me to draw against them so I wouldn’t be spending my last
356 days facing losing everything I worked for and possibly ending up homeless dying under
357 a tree somewhere).

358

359 FACT, various media outlets I attempted to put the word out publicly, were also
360 threatened into silence.

361

362 FACT, Manhattan Life Insurance company has some corruption in it that even though I
363 am the sole owner and haven’t paid on the policy for months and have specifically

364 requested in writing many times and responded to direct company procedures to do so,
365 REFUSES to terminate the policy! I want the criminal(s) arrested and charged with their
366 part in conspiracy to commit homicide as well as all the violations regarding life
367 insurance and contract laws. (This policy was finally terminated but must be monitored
368 that it is not reinstated, except by me under Court order, should by God's Grace I survive
369 and prove these allegations. As long as the plan to rob innocent people of their estates by
370 unconventional methods of murder, I want no financial incentive to motivate these
371 criminals in offices of public trust further against me). I want the remainder of my estate
372 to be Court ordered to pay for my full body burial, any legitimate debts, and the rest to
373 pay for a full page of advertising on the back of every major newspaper in the world
374 starting with highest circulation; depicting regionally ethnic eyes with Kayser-Fleischer
375 rings and the symptoms on how to recognize Wilson's Disease to the general public. It
376 should also include advice ranging from least expensive to most on what to do if an
377 individual suspects they have this hereditary condition. This will and testament I put in
378 place, if I die, prior to Court appearance or if I fail in my attempt to prove these
379 allegations and expire afterward. If I am successful, miraculously, by God's grace, then I
380 reserve the right to alter my will, because if successful, my wife and I may be properly
381 restored in holy matrimony and I would of course wish to look well on her, and provide
382 rest to her soul after these incredible trials. Until that time, it's not that I don't care for
383 her, I just don't want any further reasons for the criminals who have attempted to murder
384 me to go after her as well.

385

386 FACT, I was illegally confined and an attempt of lethal medication prescribed by a
387 corrupt medical practitioner, David Wait, at Kootenai Medical Center, who coached my
388 wife into saying she was afraid of me in order to place me on an administrative hold and
389 then walked over and diagnosed me with a serious condition without even asking me any
390 questions. He had already written down the diagnosis before he even met me and had
391 very dangerous pharmaceuticals (chemical lobotomizers) all ready to administer to me.
392 All three final prescriptions carried a lethal warning not to be administered to anyone
393 with known liver complications of which the jaundice in the sclera of my eyes and skin
394 readily indicated I possess.

395

396 FACT, medical practitioners at Kootenai Medical Center, automatically libeled me with
397 incorrect diagnoses, without doing any fact checking into any of my allegations. One
398 even wrote that I had delusions of grandeur simply for telling her what profession I was
399 in and the transactions I was negotiating. She never attempted to verify that I was simply
400 telling the truth and due to my public profession was why I wanted to be referred to under
401 an alias while illegally confined there. It is my opinion that there are subjective and
402 monetary reasons to find anyone brought to their attention with some form of illness
403 whether or not it is the correct diagnosis. I would like to know how many of these
404 practitioners have ever diagnosed anyone but themselves, friends or family without any
405 ailment as proof. (It has been my experience that virtually everyone except the secular
406 diagnosing physician has some form of mental illness but themselves). Only after a
407 patient/victim agrees with their world view or opinions is the patient “healed”.

408

409 FACT, because I have been unable to obtain a correct and honest diagnosis of my
410 medical condition(s), my personal acquaintances once considered friends prior to the
411 events that transpired, believed that I was making it all up and so one told me that I
412 would finally get to see a specialist on Wilson's at Kootenai Medical Center, swearing to
413 GOD that was the case and telling me I had to sign paperwork that essentially admitted
414 me into the Behavioral Health Clinic by lying to me. That resulted in my illegal
415 confinement which also resulted in a medical bill of nearly \$16,000 dollars.

416

417 FACT, my credit is being systematically destroyed by these who have intentionally tried
418 to murder me and is still in process because of both my inability and unwillingness to pay
419 for my attempted homicide, illegal detainment, libel and slander of my personal character
420 and ongoing torture.

421

422 FACT, a local law enforcement officer, Brian Koch, Sandpoint Police Department
423 threatened me with criminal charges and arrest for merely trying to obtain necessary
424 medical care. He wanted to issue false stalking charges, contributing to my pain and
425 suffering by denial of medical care and denial of access to a practice that is publicly
426 advertised and open to the public for treatment. It wouldn't have been so serious but this
427 practitioner is the only one that I know of in our town providing this needed treatment.
428 Regardless, the only one that came personally recommended by acquaintances of mine.
429 Even though this is a constitutionally protected right (not to be denied/deprived of life
430 without due process), various levels of the US government down to local authorities are
431 not upholding the law and enabling sexual discrimination resulting in severe pain,

432 anguish and outside of a miracle from GOD, my soon coming demise. Even if the
433 treatment only gave a few days, weeks or months to my life expectancy, this denial is
434 serious and previous cases have said that such can result in criminal charges of
435 aggravated assault or worse if such denial results in the death of the victim.

436

437 FACT, after notifying the local authorities by my affidavit, instead of calls and
438 investigations and seeking what proof I had, they began to tail gate me and otherwise,
439 follow me as I occasionally conducted my business in town.

440

441 FACT, I have repeatedly tried to cancel our life insurance policy to get the bounty off our
442 heads and even though I have tried to explain the situation to them, I can not get them to
443 comply. I fully understand why people want to disbelieve these allegations that are
444 identical to the crimes perpetrated in Nazi Germany just prior to and during WWII. (I
445 finally succeeded in getting the policy canceled for the safety of my wife and I in at least
446 making it less tempting to follow through with their initial attempts). I fully understand
447 that people don't really question authorities believing that there couldn't be such
448 prevalent corruption as to put a death machine in place via hospitals, mental wards,
449 insurance agencies and governing authorities gone bad. Literally trillions of dollars are
450 changing hands through inheritances and this is how they do it; if people don't have
451 proper witnesses, friends and TRUSTED, honest executors in place. For this reason, I am
452 requesting that my wife and brother be placed under witness protection (at least if
453 anything, arrest or death happens to any of us the authorities (corrupt feds can and have
454 been documented to pressure locals into helping them) are THOROUGHLY investigated)

455 away from local authorities (I'm not accusing them all, it only takes a few corrupt ones to
456 spoil the bunch) until this can be resolved. In addition, because I'm naming one of the
457 local authorities in my complaint, other officers might be tempted to illegally retaliate,
458 rather than realizing if they were in my place, fighting for their life and that of others
459 suffering in ignorance because we have not been informed by our trusted and publicly
460 paid for officials, that they might just be doing the same. We pay for them to look out for
461 us and they are profiteering by leaving us in ignorance over a serious hereditary trait that
462 if they had told us all might save us from early deaths and a lifetime of unnecessary and
463 unexplained pain and suffering! They may not feel they are in danger now, but since I'm
464 filing this formal complaint, they might agree in the future; I'm only asking for their
465 protection should an unnatural and untimely demise occur before, during or shortly after I
466 testify should God grant me the strength to hold on that long.

467

468 The corruption is actually so hideous and horrific; I fully understand why the court would
469 want to dismiss my claim outright. I am filing as an effort TO SIMPLY BE ALLOWED
470 TO PROVE THESE ALLEGATIONS BEFORE I DIE! I am well aware the Court might
471 want audio visual footage of the crimes, but in such cases, such proof is rare indeed, an
472 investigation needs to be conducted that those who look into such crimes can readily
473 uncover the truth of my allegations.

474

475 FACT, I am so seriously ill it sometimes takes me months just to travel into town fifteen
476 minutes away (but I am determined and God-willing to prove these allegations or die
477 trying), for that reason even though the events transpired first in Spokane, WA, I need a

478 change in venue as the ongoing events continue in the state of Idaho and are most
479 prevalent now within this state and as the events are all linked and violate victims
480 constitutional rights and cross state lines that this be tried in my local jurisdiction, as a
481 federal (constitutional) matter AS SOON AS POSSIBLE! I have been desperately trying
482 to regain my health only to find it continuously waning, I am using the last of my strength
483 to do everything in my power to alert the public and defend innocent millions as well as
484 my closest loved ones the best way I know how. I may be uniquely qualified to take on
485 this task, and I can not meet my Maker (I am an ordained and licensed minister of the
486 Gospel of Jesus the Christ, called to the ministry over 18 years ago) without having given
487 my very best effort to try and make sure this doesn't happen to anyone else. I also
488 confess that I am an ex-convict and that is where my cursory knowledge of the law comes
489 from. I know that confessing this might make it all the easier to ignore my plea, treat it
490 as frivolous or fallacious, but my past history does not change the fact that I have hard
491 evidence and detailed eye witness testimony to prove these allegations. I also believe
492 that my life on closer scrutiny since my conviction will tend to make me more credible;
493 not less. I fully realize I am fighting a monumental situation but I have confidence that
494 the Savior of my soul, Jesus the Christ, is able to Aide, Save and Deliver me and for the
495 sake of others cause me to Triumph. I also trust Him to make certain that there are still
496 enough just and honest people left on earth and in the Judicial Branch of the United
497 States to reasonably allow me to present the evidence I've gathered; if not for my own
498 sake; for those who might suffer likewise or worse if something isn't done to stop it right
499 away. PLEASE HELP ME BY EXPEDITING MY REQUEST TO HAVE THE
500 EVIDENCE INVENTORIED BY MANY WITNESSES ON BOTH SIDES AND

501 COPIES RETAINED BY PUBLIC MEDIA SOURCES THAT CAN NOT RELEASE
502 THE INFORMATION UNLESS INTENTIONAL or UNINTENTIONAL
503 DESTRUCTION OF EVIDENCE OCCURS.

504

505 FACT, transceiver devices have been found on my real property, fly by military-looking
506 helicopters and men in camouflage photographed on my property similar to tactics used
507 by Special Forces of the US government or trained mercenaries.

508

509 FACT, technological cameras so advanced they must be controlled by the government
510 (some the size of a grain of ground black pepper) have been found in my dwelling and
511 are safely locked away as further evidence that the Patriotic Act is now well in use and is
512 spying on innocent American citizens in even their bedrooms and bathrooms (no privacy
513 anywhere even when you're intimate with your own spouse or utilizing the commode).

514

515 FACT, medical records have been deleted and altered and information including digital
516 images on x-rays purposely withheld from me that would further prove these allegations,
517 but that forensic science can verify.

518

519 FACT, my computer systems have been hacked; specific, condemning files deleted and
520 otherwise tampered with in an effort to destroy convicting evidence.

521

522 FACT, readily observable blood morphology has been mis-diagnosed by a medical lab
523 tech of more than twenty years experience and a nationally respected hematologist,

524 indicating gross incompetence, negligence or at worst willful intent. While the former
525 might be able to pass as incompetent or negligent, the latter either didn't look at my
526 blood (sample could have been switched by his assistant who drew the blood) or he
527 willfully mis-diagnosed and is participating in the conspiracy of my ongoing torture and
528 demise. My local doctor tainted the findings of the oncologist/hematologist by telling
529 him in advance (though to the best of my knowledge, Burgstahler, the corrupt local
530 practitioner, never looked at my blood) that no spherocytosis is present when anyone with
531 eyes to see can determine easily that it is.

532

533 FACT, unjustified billing by MCI corporation when they were not my authorized carrier
534 in the amount of \$6,774.93 has occurred in an attempt to deplete my financial reserves,
535 ruin my credit, and sever my ability to communicate with others of this ongoing
536 malicious conspiracy because of out of control greed and corruption. Allied Interstate,
537 P.O. Box 361477 Columbus, OH 43236 has been threatening my credit and to collect on
538 this unjust, unfounded bill.

539

540 FACT, Northern Lights, a local utility company, changed it's policy to more than
541 doubling (because of rampant GREED) the expense to install power with the same effort
542 to exhaust my financial reserves and I suspect violates FTC law.

543

544 FACT, another utility (City of Bonners Ferry) suddenly took over water and sewer for
545 some vacant lots I own (how I'm staying solvent by selling) and without my agreement
546 started billing for said services and threatening to take my meter and hook-ups away;

547 destroy my credit, if I didn't pay their unilateral take over of my appurtenances that I
548 already owned; bought and paid for. I recently signed the paperwork under duress that
549 they wanted me to, because I simply don't possess the strength to take on that lesser
550 battle and this at the same time. My point is that a vast and ongoing series of events from
551 a wide variety of entities have occurred against me with the effort to discredit, bankrupt,
552 and utterly destroy me altogether and are ongoing against me that all have one thing in
553 common, direct connections with money interests and corrupt governing authorities from
554 the highest branches on down to the local level.

555

556 I REITERATE THAT I AM NOT PETITIONING THE COURT TO ONLY BELIEVE
557 MY SWORN AFFIDAVIT, BUT THAT I SIMPLY BE ALLOWED TO PROVE
558 THESE ALLEGATIONS!

559

560 I beg the Court's leniency and consider that I am only one citizen working against many
561 criminals, with virtually unlimited resources. Please allow me to prove in chronological
562 order the sequence of events; to-wit to allow me to prove I have been left undiagnosed,
563 misdiagnosed, which has brought about the other crimes. If I can not prove that I have
564 been left undiagnosed and then the homicide attempt in the hospital, then the cover-up by
565 the mis-diagnosis at NIBH, I most likely will not have then the credibility to prove the
566 other crimes or the ability to bring forth eyewitnesses. I still hope there are stings and the
567 perpetrators and entities herein are investigated and I hope that even should I fail or die
568 prior to proving these allegations that hospitals are examined across America and all
569 "accidental" deaths made public. I think the statistics will shock Americans into

570 demanding audio-visual monitoring of all visits to medical facilities by citizens. I would
571 hope citizens could have their own secure i.p. address to send and store the file by loved
572 ones present or remote as well as a large database monitored by various forms of public
573 media to keep those in public trust honest!

574

575 For the reasons set forth in the attached affidavit and in this cause of action, plaintiff
576 seeks the following remedies in detail from the defendants.

577 **DEFENDANTS:** Together with any Pharmaceutical companies found intentionally
578 adding harmful substances to their medications and/or manufacturing lethal substances
579 for human (victims) consumption, United States Government, U.S. Attorney Generals
580 Office, U.S. Department of Justice, 950 Pennsylvania Av NW, Washington, DC 20530-
581 0001

582 **COMPLAINT:** Participation via FDA and government/corporate ties to approve
583 potentially lethal and known harmful substances for human ingestion being
584 systematically forced upon unsuspecting public and willfully utilized to keep people sick
585 and dying or to murder by same poisonous substances in private and public hospitals and
586 government subsidized institutions. I personally witnessed this attempt to destroy my
587 mind and my life and saw it being done to others. The government's negligence at best
588 and willful intent at worst in leaving the public and medical fields unformed and
589 untrained on the serious hereditary condition known as "Wilson's Disease" is unlawfully
590 depriving me of property, a threat to my freedom and my life and is leaving millions of
591 others to suffer without ever knowing why or die with misdiagnoses (many are being told

592 it's all in their head when in fact, if they knew the truth might actually stave off
593 incredible pain and death until a full age was reached).

594 **REMEDY:** Together with all the other violations by the United States Government (in
595 collusion with corrupt corporations, utilities, pharmaceuticals, telecommunications,
596 medical industries) a Ten Trillion Dollar Victims Fund be set aside; One Trillion of
597 which to be designated for immediate not for profit Wilson's Hereditary Condition
598 Research and Treatment Organization, including an initial awareness campaign in the
599 media and in all public schools. The trillion dollar fund is also to implement an
600 immediate testing of any willing citizens at no cost to the deceived public. The
601 remaining nine trillion to compensate the victims of torture and death by this corrupt
602 greed of collusion between the FDA, other parts of our government, pharmaceutical
603 industry and criminals in the medical industry. This fund is to be obtained by the
604 liquidation of assets of the criminals and criminal entities exposed in this suit and not to
605 be obtained by tax payer burden. It MUST be made illegal to approve any
606 pharmaceuticals that have poisons (harmful side effects that are INTENTIONALLY
607 added (in order to cause some other ailment in the victim in order to get them to buy
608 more medications which make them more ill and so on) and not inherent in the beneficial
609 part of the medication) in them and especially any substance that carries a LETHAL
610 WARNING it's so toxic!

611 **COMPLAINT:** U.S. Government via FTC is allowing the corrupt practice of billing the
612 public "basic monthly fees" when no service is being provided or simply has the potential
613 of being provided when the victim has no way of stopping the billing or choosing a utility
614 provider that does not extort money unilaterally from them at the threat of destroying

615 personal credit if the owner elects not to pay when they never agreed to the service
616 provided or the fees assessed. (Government is violating anti-trust laws and allowing
617 monopolies to exist in utilities and telecommunications industries) They have utilized
618 this control of these industries to destroy my credit and harass and bill me excessively in
619 order to get me to drop this complaint. (Events occurred following my attempt to notify
620 existing authorities on a local, state, and federal level of the criminal activities being
621 perpetrated against me). Additionally, a local CO-OP (Northern Lights) providing
622 electricity, went from charging citizens to install power one year, to the next charging
623 them the same fee and making them install the infrastructure as well, effectively doubling
624 the cost in an over night decision and forcing individuals to pay to expand their network
625 and holdings. The government is supposed to be watching these regulated industries and
626 preventing excessive billing due to the monopolies now in existence.

627 **REMEDY: NO MONOPOLIES ALLOWED IN UTILITIES,**
628 **TELECOMMUNICATIONS OR ANY OTHER INDUSTRY; NO UNILATERAL**
629 **MANDATORY MONTHLY FEES IF NO SERVICE IS PROVIDED OR USED BY A**
630 **POTENTIAL CUSTOMER. NO CONNECTIONS (FINANCIALLY, BRIBES,**
631 **SPECIAL INTEREST DONATIONS, GOVERNMENT AWARDED CONTRACTS**
632 **FOR PERSONAL KICK BACKS), RAQUETEERING IS ILLEGAL WHETHER OR**
633 **NOT IT IS DONE BY CITIZENS WITHIN THE GOVERNMENT OR NOT)**
634 **BETWEEN GOVERNMENT OFFICIALS AND CORPORATE INTERESTS. Every**
635 **violation brought forth by a citizen awards the citizen with no less than one percent of the**
636 **gross revenue of the guilty person and/or entity for that year. (Thus, if one hundred**
637 **citizens have a legitimate complaint, no gross receipts for the violator(s) that year).**

638 **DEFENDANT:** U.S. Government Department of Health and Welfare, Office of Civil
639 Rights, and Human Services. 200 Independence Av S.W., Washington, DC 20201

640 **COMPLAINT:** Plaintiff contacted repeatedly the various offices that were supposed to
641 have jurisdictional authority regarding discrimination, civil rights violations, denial of
642 medical care, and was given the systematic bureaucratic run around of apathetic
643 individuals who collect regular pay checks and benefits that the majority of the public can
644 only dream of. Yet when we go to them for help all our tax paying dollars get is are
645 excuses as to why each and every individual that is supposed to have authority to do
646 something simply can't or won't. I have compiled letters signed by specific individuals.
647 Perhaps decent individuals are hampered by too many minor codes that cloud and
648 confuse their judgment as to what are the weightiest matters of law and life. Perhaps
649 these same individuals are over-worked due to all the others who don't. Regardless, if a
650 restaurant and hotel and any service open to the public can't discriminate, then it
651 shouldn't matter whether a medical practitioner is licensed or not to fall under the
652 jurisdiction of civil rights violations. If anything it's MORE serious not less when
653 someone is discriminated against in that manner (seeking necessary medical care).

654 **REMEDY SOUGHT:** People not doing their job, disrespecting the public, issuing letters
655 systematically of why they can't or won't help legitimate victims, should be fired and
656 potentially made to realize criminal and civil liability for the ongoing suffering their
657 apathy causes. They should be replaced by people that RECOGNIZE the general public
658 needs hard hitting advocates, not sit on your butts, collect cushy checks and count the
659 days to retirement, individuals who have forgotten what it's like to slave in the real world
660 for the mighty buck. By stating this I do not mean in any way to infer that all

661 government employees are somehow lazy, unfortunately for me and many of us, many
662 are paid and told to make it difficult to get assistance even when we need it. So it is not
663 them to whom I address this charge, but to the ones setting such policies in place. Public
664 should be allowed to file complaints with a review agency against anyone not seriously
665 looking into the cause of someone who sick and dying spends the energy to contact them
666 about SERIOUS VIOLATIONS THEY DO HAVE JURISDICTION OVER! Too many
667 complaints should cause consequences varying from loss in pay, demotion, job loss, to
668 criminal and civil liability.

669 **DEFENDANT:** U.S. Government various agencies like NSA, CIA (obtained by Motion
670 of Discovery for registered owners of the licensed vehicles and persons photographed).

671 **COMPLAINT:** U.S. Government, agents wrongful use of the Patriot Act to conspire
672 against innocent citizens (can even invade private homes and with devices spy on (watch
673 and/or listen to) their intimate unions with their spouses and then lustfully seek to
674 interfere in the marital relationship, remember spies are subject to temptations just like
675 any human being; we can not allow imperfect beings to spy on our private moments!)
676 who try to expose criminal activity being perpetrated by those sworn to serve and protect
677 us. Plaintiff requests a complete list of identities of those registered owners of the many
678 government vehicles photographed tailing, impeding or at locations where agents
679 swapped positions with the usual employees to perpetrate cover-ups and other crimes
680 against Plaintiff(s). Specifically, they did damage to a vehicle and had staff at Les
681 Schwab, participate in criminal activity by driving damaged vehicle, that I had to pay to
682 fix, off site, for the purpose of spying by going through personal artifacts (attempt key
683 traces) and by installing transceiver device(s). Specifically, intercepting many requests

684 for administrative review by the hospitals involved, colluding with medical practitioners
685 to leave me undiagnosed, obtain and alter or delete medical records, in all ways various
686 agents have invaded places of day to day contact like hospitals, Home Depot, Walmart,
687 Title Companies and other locations to spy; gather information and persuade to drop
688 telling others about what has happened to me. They even invaded local churches to
689 slander me when I tried to tell others. Furthermore, because I was aware of their spying
690 in restaurants, Home Depot, Walmart and the like and their ability to systematically
691 freeze bank accounts, I purposely started using cash, so they couldn't readily see my
692 account numbers. Then I found out they actually stole a legitimate donation to my local
693 church by telling the unsuspecting pastor that the money was counterfeit. If there is in
694 fact counterfeit money being circulated in Sandpoint, I suspect it is by corrupt banking
695 officials. I pointed out what I thought was discrepancies in certain notes to the issuing
696 bank and they commented that they weren't aware of the changes I showed them, but that
697 in their opinion the notes were genuine. Regardless, agents have been going around to
698 unsuspecting victims and claiming counterfeit money just so they can pocket legitimate
699 notes. Any retailer or person so accosted should take a photograph of the person and
700 their I.D. and call in local authorities as well as the U.S. Treasury department to verify.
701 Corruption is rampant these days, the public needs to be aware that not all criminals
702 appear as such and from my experience, some of the worst are those we would generally
703 like to think less likely to be so. My point is that these agents have been working hard to
704 go to restaurants to lift finger prints and lip prints, and have fenced in refuse depots to
705 gather more information by going through trash and obtain circumstantial evidence in an
706 attempt to frame me with discrediting acts (like the usual false accusation of dealing

707 drugs; so they can freeze assets and steal real and personal property, and it appears to me
708 that they're attempting to falsely accuse me of being a counterfeit producer) if I should
709 actually live long enough to present my case. From a confidential source, I have heard
710 that they even will obtain a job as a cook or server in a restaurant the unsuspecting victim
711 frequents in order to poison their food and/or beverage. I have become seriously ill (over
712 and above my present state of declined health) now upon several occasions after eating
713 out. Government vehicles have been seen grouped together at these restaurants and
714 photographed upon several occasions. If my relatives (wife and/or brother) or I die in the
715 near future, a full toxicology should be done and the evidence used to convict the
716 defendants involved. It should be noted that the invasion of vast numbers of these
717 government vehicles following me, impeding me, and changing personnel where I
718 regularly conduct my shopping, eating and medical care occurred immediately after I
719 notified the Wilson's Disease International Organization of my address. If divorce has
720 occurred and it's found that corrupt authorities actually pressured my wife in an attempt
721 to silence me, in the future, and as a result of these actions and properties divided already,
722 I seek full restoration of my marriage (if she is still willing after all this unbelievable
723 stress, and we're both still alive after enduring all this) and all assets lost be returned to
724 my or our possession (depending on her willingness) as a result of these malicious acts to
725 discredit and destroy. (In an effort to silence witnesses by distraction, emotional anguish
726 or stress related death). I hope I'll live long enough to see justice done and righteousness
727 restored in the places of public service as it ought to be. My struggle, as a minister is to
728 recognize that to corrupt officials it may just be about their jobs and the money; that
729 destroying lives, in their thinking, carries no consequences in this life or the next and to

730 try and keep my integrity and sanity regardless of the overwhelming filth and corruption
731 I've unwillingly found myself in. So at my personal humiliation (in that I have not the
732 strength (due to my undiagnosed serious ailment(s)); even if I wanted to try and clean this
733 all up myself and unfortunately even if I did; it is unacceptable in this society (in other
734 words if a citizen defends himself and/or family against corrupt agents and/or police and
735 other criminals in society such as these murdering "doctors", we are killed or put in
736 prison even if such have become extreme criminals and if we try and tell other officials
737 we're slandered and libeled as "snitches" or "rats"; thus in the natural realm when
738 officials become criminals, citizens are in a virtual no win situation. That is why my
739 confidence is in the supernatural - ALMIGHTY GOD!!!) and having exhausted every
740 means I know how, I stand in faith that whether I live to see my day in court or not, that
741 GOD and CHRIST JESUS my LORD, will begin rectifying situations such as this all
742 over the globe and comfort the innocent victims with the knowledge that one day evil
743 such as this will be no more and we will live in peace and joy.

744

745 **DEFENDANT:** Idaho State Government, Office of Attorney General, Statehouse, Boise,
746 ID 83720-1000

747 **COMPLAINT:** Plaintiff notified the governor's office, the state attorney general's
748 office, the senators and representatives of the state; no response by phone, fax, email or
749 U.S. mail was obtained; not even a cursory investigation to the best of the Plaintiff's
750 knowledge. Innocent citizens are being murdered in state hospitals and tortured in mental
751 wards and no matter how hard I've tried, I can't seem to get anyone to realize the
752 incredible seriousness of the situation!

753 **REMEDY SOUGHT:** Personally, I think when authorities through negligence or
754 otherwise contribute to the suffering and deaths of the citizens they've sworn to protect
755 there should be criminal and civil consequences by the offending persons. What I'd
756 really like to see is an immediate review and personal publicized interviews with all
757 citizens being held in hospitals, mental wards, government subsidized institutions to
758 determine how many have been slain, brutalized, and otherwise had their civil and
759 constitutional rights violated by these incredibly evil practices being perpetrated on
760 unsuspecting innocents.

761

762 **DEFENDANT:** Washington State Government, Office of Attorney General, P.O. Box
763 40100, 1125 Washington St. SE Olympia, WA 98504-0100

764 **COMPLAINT:** I notified the state attorney's general office, no phone calls, no arrests,
765 that MURDERERS are free to kill at will at Deaconess Medical Center, and to this day
766 these individuals as far as I know have not been investigated or had any under cover
767 stings done to verify my allegations. Personally, I think this is occurring across the
768 nation from a witness I talked with and under cover stings should immediately go in
769 place in every hospital across the United States as well as thorough investigations into all
770 "accidental" deaths or premature (before national average) and find the location of the
771 bodies of the deceased (especially those that did not have connections of friends and
772 relatives). In addition, I contacted certain representatives and the governor's office as
773 well. The events that occurred were too well rehearsed to be an isolated incident, and the
774 people involved believe too well backed (by corrupt officials practicing "population
775 management").

776 **REMEDY SOUGHT:** An immediate review of all deaths occurring in hospitals,
777 objective coroners verify causes of death and near death experiences, and made into
778 public documentaries. All “accidental” deaths, the “accidental” death records of
779 attending anesthesiologists, and the ages of the victims to be fully publicized and made
780 available to the public and to anyone who asks attempting to obtain treatment at a
781 hospital. Any record that defies the laws of probability, have perpetrators
782 inconspicuously monitored at all times and the most aggravated sentences possible given
783 to the convicted who think it’s okay to torture and murder people when they are at their
784 most vulnerable (sedated and/or unconscious). In addition, the hospital internationally
785 exposed that has allowed such murderous practices to occur within it’s corridors meant to
786 restore health; not take life! Repeated violations, should bring severe criminal and civil
787 liabilities upon all those administrators who don’t see that every death is thoroughly
788 investigated and any corruption dealt with sternly and swiftly. Any state officials who
789 don’t take every complaint such as this seriously, should suffer criminal and civil
790 consequences; because, at best, they are negligent in allowing such evil to continue or at
791 worst corrupt participants.

792

793 **DEFENDANT:** State Medical Review Boards, Federation of State Medical Boards of the
794 United States, Inc. P.O. Box 619850, Dallas, TX 75261-9850

795 **COMPLAINT:** Plaintiff notified by fax **all** State Medical Review Boards, a couple
796 responded to the effect that they could or would do nothing out of their lack of concern or
797 jurisdictional ability to deal with. I notified them such that they could investigate in
798 hospitals across their state (where they do have jurisdiction) and determine if similar

799 practices were occurring and clean up the corruption, the criminals, the murderers. Who
800 knows, maybe one of their friends or relatives might be the next victim.

801 **REMEDY SOUGHT:** Medical Boards should be much more involved in making sure
802 those they license are ethically treating their patients, and I believe should be mandating
803 off site server surveillance of licensed practitioners. Such surveillance recordings should
804 be available for live viewing of friends and relatives of anyone undergoing surgery or
805 obtaining treatment of any kind at the hospital or by the licensed practitioner.

806 Furthermore, all patients should be allowed to have at least one trusted person with them
807 with access to an emergency 911 phone AT ALL TIMES; especially during sedation. It
808 is one thing to have legitimate accidents, it's quite another to intentionally murder
809 helpless victims.

810

811 **DEFENDANT:** Deaconess Medical Center, 800 W. Fifth Av., Spokane, WA 99204 and
812 owned Johnson-Roundtree Collection Agency, 711 E. 3rd Av, P.O. Box 264, Spokane,
813 WA 99210-0264

814 **COMPLAINT:** Deaconess has and to Plaintiff's knowledge still employs murderers,
815 people who falsify and delete medical records and do not uphold acceptable standards of
816 medical practice, lie to patients/victims and on top of it all has the audacity to bill for
817 attempted homicide.

818 **REMEDY SOUGHT:** Immediate arrest of all involved in my attempted homicide and if
819 they were unrepentant of their serious crimes, death by incompatible blood transfusion,
820 strapped down on a gurney with an intubation tube forced down their throat. The
821 procedure should be filmed and shown to all practitioners and the public; that if they do

822 that to anyone else, then they will have it done to them. But it is my wish that they make
823 sure they don't die right away. Keep them alive, but give no medical care, no treatment,
824 instead give them mockery, ridicule, have physicians tell them that nothing is wrong with
825 them as their immune system attacks their own cells due to the confusion of so much
826 incompatible administered blood (graft versus host immune response giving lupus like
827 symptoms). Document their slow, tortuous deaths. Alright, in a purely just world, these
828 would reap what they've sown. Truth is we are instructed to be merciful, but these can
829 not be allowed to do this to anyone else, cruel and unusual is a drastic understatement to
830 what's been done to me. Now I know others suffer and have suffered and I'm not stating
831 that mine is worse; just something that should not be occurring in a "civilized" society.
832 Those involved should have their assets liquidated and placed into the victims fund,
833 because they kill, then steal possessions and property in order to have gathered those
834 assets. Any hospital administrators not investigating deaths, but aware these "accidental"
835 deaths are occurring should share in the fate of those performing these hideous atrocities.
836 Any nurses, assistants, etc. everyone, who is administering lethal doses, or improper
837 transfusions, or shots, I.V.'s etc. to murder innocent victims needs to be arrested and
838 confined as the murderous criminals that they are. I am so angry with those who
839 perpetrated this on me, I would request that if this makes it to trial and they get on the
840 stand, that I be allowed to question them from another location via remote media such as
841 cameras and television in the court room. Even in my weakened state, I do not altogether
842 trust myself to maintain control when I've been in tortuous pain for years now, lost my
843 career, my marriage, my reputation, my health and may yet die on account of their
844 actions. Part of the reason, I have not gone and picketed the hospital is my severe illness,

845 part I am concerned they may haul me in to some room and make good on their first
846 attempts, part that I may be further wrongly persecuted for attempting to make a citizens
847 arrest of the murderers involved and that would only put me in prison and really wouldn't
848 help much of anyone at all. I'm just trying to be honest; and ask that I not be placed in
849 such a position of testing my self control under the circumstances. Once this is proven,
850 that an immediate investigation be done at the expense of all who are convicted (and
851 ongoing convictions fund further investigations) on deaths in hospitals and institutions
852 across America, and the records of various attending anesthesiologists made public, such
853 that people can choose who from or where they wish to receive treatment. There also
854 should be review of all death certificates and the unmarked graves of those that have died
855 in state mental institutions have the corpses examined against what was the documented
856 cause of death, officer reports of death scenes, and coroner reports by a new not for profit
857 entity comprised of the public and make the findings public as to the accuracy/inaccuracy
858 (all of the cover-ups of serious criminal activity in America).

859 Plaintiff petitions the court to subpoena employment records that were present in the days
860 prior to surgery when I requested in writing no blood transfusion be given me; only if I
861 was in imminent danger of dying from blood loss and had to be O+ only regardless or
862 none at all! (They were concerned that I wrote that on the form well in advance of the
863 surgery, showing premeditation in advance to murder me by one). In addition, the staff
864 records of all who participated in my tests and surgery at Deaconess. I know Dr. James
865 Joy, Dr. Michael Cruz, Dr. Timothy Chestnut are all involved to a greater or lesser
866 extent, but I want to know all the assistants that were present and especially the two who
867 tried to murder me a second time. Any funds paid by me regarding related charges be

868 returned to me in full. (I paid in strongest protest only trying to keep further injury to my
869 person by damaging my credit). Any compensatory and/or punitive damages the Court
870 awards. Plaintiff requests a subpoena of the documentation (the signed transfusion
871 permission/denial form) presented by the hospital to my insurance company, Mega Life
872 and Health, P.O. Box 982009, North Richland Hills, TX 76182 1-800-527-5504 be issued
873 and the presumed matching document from Deaconess be examined forensically against
874 it.

875

876 **DEFENDANT:** Kootenai Medical Center, North Idaho Behavioral Health, 2003 Lincoln
877 Way, Coeur d'Alene, ID 83815

878 **COMPLAINT:** The Medical Center is employing murderers, and individuals that are
879 inflicting cruel and unusual treatment (torture) on innocent citizens. I personally
880 witnessed administration of medications so toxic that they caused individuals to lose
881 cognitive abilities and others were near death due to the poisoning. I met individuals who
882 testified one after another, that if you didn't take your prescriptions of brain damaging,
883 organ damaging and life threatening substances, the "doctors" would have you committed
884 and sent to an isolated state hospital where many failed to make it out alive. They
885 testified of abuse, sexual abuse, inhumane torture of being deprived of clothing, food and
886 water and sanitation (made to defecate and urinate in a locked room) if you did not
887 "cooperate" and take the substances. They testified of aggravated assault on their persons
888 and physically forced to take these poisons whether they wanted them or not. They
889 testified that checks would be missing once released and thefts from their accounts. They
890 testified of collusion between attorneys, medical practitioners and their spouses to deplete

891 inheritances or other personal and real property with no one to represent the victims as
892 the conspirators got wealthy from their suffering and deaths. They testified one after
893 another that medical malpractice was a common thread that put many of these people in
894 these institutions in order to discredit them, rob them and either brainwash or murder
895 them into silencing their legitimate complaints. Here I had thought to obtain help from
896 the authorities and doctors, only to find that the love of money is causing a death machine
897 of the kind the worst nightmares are made of. I sadly watched as these victims in order to
898 save their lives lied to doctors (about the truth they knew as to why they were being
899 victimized) or if they didn't lie, they had their medications increased so dramatically that
900 they began to drool and stare blankly so the brainwashing could take hold. I was on my
901 way to a kangaroo court (judges, according to the victims, in the know about this,
902 routinely send them away for their cut in the profits or silence money). I apologize to the
903 people of integrity and mean no insult wantonly on any profession, but within every
904 profession there is only as much integrity as the persons within it and to think that in this
905 materialistic society people aren't bribable or can be threatened is naïve. What chance
906 does an assaulted, victimized, drugged into a stupor, poor individual have against
907 criminal conspiracy and people so arrogant that anyone with even remotely a different
908 world view must be destroyed. I have yet to find one secular psychologist that didn't
909 think anyone who believes in God is intellectually inferior at best or mentally ill at worse
910 but these are the individuals primarily making such determinations of torture and death in
911 the form of "treatment" for those who disagree with their flippant, dangerous diagnoses!
912 And then the poor soul is dragged into an even more stressful setting that if they weren't
913 so severely assaulted by these slanders and libels and drugs (and other crimes mentioned)

914 they might actually be able to defend themselves even though attacked by a whole group
915 of individuals that feel their own world view is so correct that anyone who believes
916 different is a personal threat to their own egos and so strive to convince the judge. The
917 judge looks at the poor individual drooling on themselves on account of the prescribed
918 poisons and naturally gives more credibility to these individuals with letters after their
919 names. I would wager not one of these judges really realize the torture and possible
920 death sentences they issue as they follow these smooth talking quacks. I also would
921 wager they have never once set foot in the institutions they sentence so many to, in order
922 to actually perceive the consequences of their decisions for individuals so traumatized
923 and victimized it's a virtual impossibility to defend themselves even though they are fully
924 aware they're being tortured to death! I experienced personally, that these practices are
925 in place as potentially lethal substances were prescribed me, as doctor(s) that know I have
926 Wilson's deny it and diagnose an unrelated mental condition (or if they don't know their
927 incredible incompetence is LIFE THREATENING), in an effort to silence me from
928 telling others or keep me locked up; so as not to expose these unbelievably horrible
929 illegal activities. I saw first hand that they were giving lethal doses (doses causing such
930 severe organ damage, it was physically observable to the eye) as one studied the victims
931 that were obviously being dragged to a premature death thereby. These people have no
932 voice, no representative and the cruel and unusual treatment is horrific and must stop
933 immediately.

934 As soon as I realized that there was no Wilson's Expert there to correctly diagnose me
935 and that I had been deceived into signing admission and responsibility papers thereby, I
936 requested immediate release from the hospital. Dr. David Wait then called my wife and

937 told her the only way he could keep me there legally is if she told him that she felt
938 threatened by me or was afraid of me (that should not be sufficient to violate the fifth
939 amendment of the US Constitution; as a lot of people are “afraid” or “fearful” of others
940 but we do not deprive those they’re afraid of, of freedom; only when there is real cause
941 and proof of crime)! Because no doctor to that date (and this) had either been honest
942 enough or competent enough to correctly diagnose me, she thought something might be
943 wrong with me mentally and so I heard her reluctantly consent to the prompting of Dr.
944 Wait. He then smiling came out immediately to announce smugly that he was placing me
945 on administrative hold and that I was not free to leave. He then gave me choices of
946 prescriptions that all (except one, lithium, and then he shortly thereafter removed that
947 non-lethal choice) carried lethal warnings and specific instructions not to be given to
948 anyone with liver complications when it was obvious I had such. I refused them all
949 outright and then he was threatening me with commitment to a state institution. It was
950 then that the other victims started to warn me not to let them commit me or I may not live
951 through it, as others that they had known personally.

952 **REMEDY SOUGHT:** Immediate investigation of all mental institutions. No
953 prescriptions given to anyone that prescribing physicians won’t take themselves. No
954 prescriptions forced upon anyone against their will. Any institutions where there is found
955 a history of early demise (before the statistical national average) of the patients, all
956 responsible persons arrested for as many counts of aggravated assault and homicide as
957 the investigations uncover. Immediate prohibition of any practices of surgery, electro-
958 shock therapy, drugs, brain-washing or any other torture/treatment against the consent of
959 the patient. Immediate prohibition against slander and libel (diagnosing with a mental

960 condition) of people with different religious beliefs than the diagnosing physician or
961 simply because the physician invalidates or disagrees with the patients' religious beliefs
962 (even if they claim to be in the same faith, for example there are many "Christians" today
963 that don't believe in the power of GOD and abilities of GOD (that just as we, HE sees,
964 hears, and still speaks; all those stating otherwise are saying they, a created being, are
965 greater than the Creator; but for anyone telling a secular psychologist or psychiatrist that
966 God speaks, sends dreams, visions is automatically diagnosed as delusional or
967 hallucinogenic thus IMMEDIATELY VIOLATING THE FIRST AMENDMENT OF
968 THE UNITED STATES CONSTITUTION!) So even a psychologist or psychiatrist
969 professing to be a Christian might not be but still call themselves such simply because
970 they were born into the tradition or occasionally go to church or if their in a crowd and it
971 seems to be the band wagon thing to do). Regardless, it has been my recent experience
972 that the practice is already in place of libeling, slandering and prescribing life threatening
973 treatments simply because a person disagrees with the worldview or philosophy of these
974 so called physicians. Immediate prohibition of any and all prescriptions that the
975 prescribing physician wouldn't take themselves in the same dosage they're trying to force
976 someone else to take must be implemented. People and physicians in their arrogance
977 may think they know what is best for their patients or others, but everyone has the right to
978 choose for themselves what they consider is in their best interest or our Creator wouldn't
979 have given us the ability to make decisions at all. (Secular humanist psychologists don't
980 believe in the existence of GOD, and have a tendency to diagnose with a mental
981 condition anyone who does; especially if they express the reality of a relationship with
982 the Almighty). It is a GRAVE violation that deprives people of what they choose to put

983 into their bodies and is in my opinion as severe a crime of violating a person as assault or
984 perhaps approaches even rape as physically and psychologically life threatening; if
985 doctors are so enthused and FDA so approves let's see them ingest the poisons FIRST!
986 Begin scrutinizing the health care industry immediately to make certain no more sadistic,
987 (no more cruel and unusual death practices for profit or sick pleasure, or to cover up of
988 "mistakes") people are allowed to torture and put to death any more innocent people
989 either through negligence or intent. Perhaps health care professionals that are in
990 particularly difficult professions, such as dealing with people in great pain, who yell and
991 scream at them as a result of their personal suffering need to have schedules that give
992 them regular lengthy breaks from enduring the results of people being in such pain; so
993 that they are not adversely affected (like slowly thinking that by killing these people they
994 are doing the victims, themselves and society a favor). I believe that it is possible that
995 relatively decent individuals if exposed to a constant bombardment of people who in
996 great pain might be rude, loud or short tempered might become adversely affected
997 enough to do things that when they first started their profession they would never have
998 imagined. It may be necessary to give them regular breaks like one week on one week
999 off and a month or two spa vacation annually for those exposed to especially difficult
1000 situations in their jobs like being around great emotional or physical pain and death on a
1001 regular basis (this might include professions like homicide investigators or even law
1002 enforcement or corrections officers in particularly violent and verbally abusive
1003 situations). It is necessary in my opinion that surveillance of the health care and law
1004 enforcement professions by public not for profit agencies begin immediately every where
1005 to make certain hideous torture, cruel and unusual treatment, and sadistic or otherwise

1006 homicides in our nation; through individuals in these professions, comes to a halt. Every
1007 person that checks into any hospital whether public or private, is bodily accounted for
1008 and the body can physically be located (doesn't disappear and has no evidence of murder
1009 or abuse in any way). Interviews, need to begin in all "mental health" institutions of all
1010 patients/victims and they need to have their personal complaints seriously investigated no
1011 matter how insane or horrible their accusations may sound. I also seek punitive damages
1012 at the personal expense of the perpetrators like Dr. Wait to compensate me for my illegal
1013 incarceration at the average going rate for illegal incarceration in the United States
1014 currently. Any other punitive damages the Court may decide to issue as a result of
1015 adding to the stress/destruction of my marriage and covering up by attempting to poison
1016 me to death (through FDA approved lethal medications) the crimes he has committed and
1017 those who are murdering and attempting to murder others in hospitals in the region.
1018 The attempt to collect close to \$16,000 for my illegal confinement, discrediting mis-
1019 diagnosis and ongoing conspiracy to commit homicide through lack of diagnosis or
1020 harmful prescriptions must cease. The debt must be erased and my credit restored. I seek
1021 injunctive relief from all collections attempts in this regard with a strict order not to
1022 damage my credit until this matter has been resolved. I further seek injunctive restraint
1023 from anyone who might try to illegally retaliate and either imprison or place me in any
1024 institution such as this or any jail until this matter has been resolved. I have committed
1025 no crimes but these criminals have made it obviously clear they don't care about the law,
1026 only preserving money through the growing death machine just like was in place in Nazi
1027 Germany prior to open persecution. Any funds paid by me regarding this be returned to
1028 me in full.

1029

1030 **DEFENDANT:** Bonner County General Hospital, 520 N. 3rd Av, Sandpoint, ID 83864

1031 **COMPLAINT:** Lab tech, Anita, could not or would not diagnose easily observable
1032 cellular morphology indicative of Wilson's. In fact, it could be so prevalent up here in
1033 the northwest that technicians think the morphology to be normal, but it is still
1034 inexcusable to leave patients undiagnosed either in ignorance or with intent. Radiologists
1035 have omitted images and left obvious indicators of "Wilson's Disease" in my images
1036 undiagnosed and without remark. Radiologists, who I had never seen before asked me if
1037 I was still urinating BEFORE any x-rays were taken. No review was afforded me though
1038 petitioned. No administrative review given though requested. "Staff", if that's what they
1039 can be called, were systematically changed from the real employees of Bonner General,
1040 in order to continue to cover up. I believe federal agents, impersonate medical
1041 practitioners when in such cases as mine, someone stumbles into such a scam being
1042 perpetrated on the unsuspecting populace at large by corrupt politicians, corporations,
1043 and other entities of public trust such as the health care, some law enforcement and
1044 insurance industries.

1045 **REMEDY SOUGHT:** I believe the lab tech did it in ignorance; she should be trained on
1046 how to recognize the condition and tested that she no longer ignores obvious
1047 spherocytosis and Rouleaux formation in anyone who submits a sample for any reason at
1048 Bonner County General. The radiologists however, omitted with intent and gave a
1049 precursory knowledge of my state of health prior to any images and are thereby guilty of
1050 conspiracy to commit murder through lack of diagnosis willfully leaving me in tortuous
1051 pain and untreated. I seek immediate injunctive relief against collections or damaging

1052 credit. The missing images from the CT/MRI scans be produced. Correct diagnosis
1053 obtained. Any funds paid by me regarding these procedures be returned. No hospitals or
1054 any places of business allow agents to flash badges and impersonate personnel for any
1055 reason! Agents for the government are just that, not trained personnel in all fields and the
1056 general public should be able to obtain treatment from legitimate professionals; not
1057 impersonators. Furthermore, agents are already a tax payer burden and shouldn't be
1058 taking jobs from the tax payers on top of the pay they already draw by temporarily or
1059 more permanently gaining employment in the fair market place strictly as a cover for
1060 their true profession or to spy upon unsuspecting innocent citizens.

1061 Training and retraining of medical lab techs in this nation (and hopefully across the
1062 globe) on how to recognize the morphology and lab result indicators of the hereditary
1063 condition being falsely labeled "Wilson's Disease". As all defendants, personal
1064 contribution of those found guilty through negligence or intent to the victims fund and
1065 such then dispersed at the discretion of the court. (The award should not come at
1066 consequence to increased medical fees or tax payer dollars but from the liquidation of
1067 personal assets held by the guilty!).

1068 Proposal: the defendant could remedy by accurately diagnosing the lab results, cellular
1069 morphology, MRI and CT scan imagery, within no more than thirty days after receipt of
1070 this complaint. Never again allow agents to impersonate any employees. Actually, I am
1071 extremely distrustful of all hospitals because of all that's happened to me recently; so I
1072 don't know how they could get another blood sample to analyze if they don't already
1073 have a previous one. But they could get a Wilson's expert to review and accurately
1074 diagnose the lab reports and images on file of my internal organs and brain. I would give

1075 the blood sample(s) myself from a sterilized sealed needle randomly drawn from the
1076 manufacturers sealed box and a vacuum tube provided me, but I no longer trust anyone
1077 else to do it and DEFINITELY no injections, medications or I.V.s without my first
1078 thorough research of what is being proffered to me.

1079

1080 **DEFENDANT:** Brian Koch of the Sandpoint Police Department, 1123 Lake St.

1081 Sandpoint, ID 83864

1082 **COMPLAINT:** Officer Koch threatened me with false charges if I continued to seek
1083 treatment from the only hydro-therapist in town. (Only reason I know I needed the
1084 treatment is by reading, analyzing my stool, and by recommendation after having
1085 cleansed my liver and gall bladder from gall stones. I've never had the treatment done,
1086 there is no perverse agenda; just necessary medical care that I'm being arbitrarily (I
1087 suspect has to do with gender) denied to my own prolonged pain and suffering and poor
1088 health as toxins that could be removed are still in my system as a result. He has thereby
1089 violated laws regarding discrimination, and by denial of medical care can be charged with
1090 aggravated assault and homicide; should I pass away from my untreated ailments for his
1091 part in the conspiracy to leave me undiagnosed, untreated and dying.

1092 **REMEDY SOUGHT:** Objective, fair treatment and protection under the law for all
1093 citizens. That I no longer be prohibited from obtaining necessary medical care because
1094 of some individual that chooses to think perversely rather than objectively. I begged for
1095 an appointment and even offered extra wages because I know the serious condition of my
1096 state of health to no avail. In a state of extremely poor health why should someone have
1097 to travel prolonged distances to someone they don't know or trust, when a recommended

1098 practitioner is nearby? The law should have informed her that as long as she treats the
1099 public it is illegal to discriminate. Arrests made, permanently banned from law
1100 enforcement across the nation and personal contribution from the assets of all convicted
1101 in this conspiracy either by negligence or intent to the victims fund at the discretion of the
1102 court. I further request injunctive relief; a restraining order be issued from any additional
1103 police retaliation (and any affiliates or other law enforcement departments) until this goes
1104 to trial and that my wife and brother be protected also from retaliation because it's
1105 difficult to know who can be trusted under these circumstances.

1106

1107 **DEFENDANT:** Dr. Michael Cruz, 217 W Cataldo Av, Spokane, WA 99210

1108 **COMPLAINT:** Dr. Cruz queried me as to my personal estate and status of will
1109 preparation prior to surgery. He also coerced permission for blood transfusion when I
1110 didn't want any blood products to be given me. He is guilty of participation in
1111 premeditated homicide. (The technicality of attempted is somewhat ambiguous since I
1112 was clinically dead twice, even though the record only shows once). However, as long as
1113 I'm still breathing it might only be considered attempted, but should I die from the
1114 untreated hereditary condition I have that the charge should be upgraded to first degree
1115 homicide. (In my opinion, of one of the worst kinds because it involves slow and tortuous
1116 prolonged suffering due to the method),

1117 **REMEDY SOUGHT:** Arrest, imprisonment or death penalty if he fails to repent and
1118 obtain salvation through the Living Lord Jesus the Christ. Return of the fee for service to
1119 me. Liquidation of all personal assets belonging to Cruz or entities owned by him; to be
1120 deposited in the victims fund, because his approach was practiced and I'm obviously not

1121 the first victim. Undercover investigations need to be conducted nationally and hopefully
1122 across the globe to make sure this isn't going on elsewhere. Any defendants transferring
1123 their assets to others as of the filing date of this complaint to be nullified and made part of
1124 the victims fund. (No sheltering assets by any of the defendants, through a fore
1125 knowledge of guilt to avoid the consequences).

1126

1127 **DEFENDANT:** Dr. Timothy Chestnut, 801 W 5th Ste 504, Spokane, WA 99210

1128 **COMPLAINT:** If anyone knew that I had suffered from an acute adverse hemolytic
1129 response, this pulmonologist, who boasted of time in the Mayo Clinic, did. He chose
1130 rather to hide the truth from my wife and I and claimed some kind of "rare" response. He
1131 is an accomplice, because he knows what was done to me and made no attempt to alert
1132 authorities or tell me the truth that I might obtain accurate diagnosis and necessary proper
1133 medical care.

1134 **REMEDY SOUGHT:** Arrest and sentencing as an accomplice. Liquidation of personal
1135 assets to be placed in the victims fund.

1136

1137 **DEFENDANT:** Dr. James Joy, 805 W 5th Av, Spokane, WA 99201

1138 **COMPLAINT:** Dr. Joy on day of surgery, via carefully worded questioning, confirmed
1139 status of my estate and will preparation and with premeditation gave the order to
1140 administer the three units of incompatible blood transfusion with intent to kill me. This
1141 was successfully done and suffocation and cardiac arrest resulted twice. He is guilty of
1142 premeditated homicide. It is only by a miracle from God Almighty that I'm alive to tell
1143 of it. He was well practiced, cold, and apathetic.

1144 **REMEDY SOUGHT:** Arrest and death penalty (if I had my way would be by
1145 incompatible blood transfusion with an intubation tube jammed down his throat and then
1146 filmed so people would know if they did the same, they would die likewise). This
1147 individual was the most practiced and I believe has the largest quantity of homicides
1148 under his belt and is why I request the strictest penalty, if he fails to repent. I request
1149 liquidation of personal assets and contribution made to the victims fund. In addition, the
1150 two assistants that mocked and snickered at me as they suffocated me to death need to
1151 likewise receive the same consequences. An immediate investigation needs to be done in
1152 all hospitals on any premature deaths regardless of what medical practitioners claimed in
1153 the death certificate report.

1154

1155 **DEFENDANT:** Dr. William Corell, 3424 S Grand Av, Spokane, WA 99210

1156 **COMPLAINT:** Guilty of negligent medical practice when I showed him outright that I
1157 possessed the signs and symptoms of “Wilson’s Disease” and the lab results confirmed
1158 and yet he was still unable or unwilling to make proper diagnosis. His participation
1159 through negligence or intent has resulted in unbelievable pain and suffering and my
1160 marriage in jeopardy as my wife was/is unwilling to believe so much incompetence or
1161 intent to cover up could continuously result in improper diagnosis. Furthermore, Dr.
1162 Corell forwarded confidential correspondence between myself and him to Lincoln Life
1163 Insurance Co.; resulting in denial of the issuance of the policy.

1164 **REMEDY SOUGHT:** Mandatory participation in annual meetings and colleges that
1165 train practitioners on how to recognize the hereditary condition being called “Wilson’s
1166 Disease”. Training on how to help people locally with the condition and doors open to

1167 all who have the condition whether or not they can afford the appointment.
1168 Reimbursement at his personal expense of the \$1.25 million dollar policy he cost me as a
1169 result of the violation of doctor/patient confidentiality. Said amount to be designated to a
1170 Wilson's awareness foundation research and treatment center of which at least 1 million
1171 of which goes toward immediate media awareness for the public of this condition, unless
1172 I so designate by will at a latter date.

1173

1174 **DEFENDANT:** Lincoln National Life Insurance Co., 350 Church St., Hartford, CT
1175 06103-1106

1176 **COMPLAINT:** Failed to issue policy by relying on confidential information illegally
1177 provided by Dr. William Corell.

1178 **REMEDY SOUGHT:** Issuance of policy (if plaintiff prevails and
1179 murderers/conspirators arrested; so as not to be in even greater danger from the
1180 unbelievable greed of these individuals) from the date of denial with my responsibility to
1181 bring premium payments current. Beneficiary to be a not for profit organization, initially
1182 of not more than eight modestly compensated individuals (of which; if I'm alive, am to
1183 have the over sight of and right to choose my successor(s)) and rest volunteers (so that at
1184 least 90% of the money goes toward the awareness campaign directly such as purchasing
1185 full page ads in newspapers with color images of eyes showing what Kayser-Fleischer
1186 rings look like) comprised of only those who have the testimony of Jesus the Christ as
1187 their personal Lord and Savior with the initial responsibility of making the global public
1188 aware of the condition being called "Wilson's Disease" and in accurately testing those
1189 who come forward as a result.

1190

1191 **DEFENDANT:** Dr. Scott Burgstahler

1192 **COMPLAINT:** Medical Negligence, Malpractice, Libel, Slander, willful mis-diagnosis
1193 possibly to blackmail the perpetrators from Deaconess, intentional skewing to prejudice
1194 medical findings, lying about a serious request for a review by an expert of obvious
1195 omissions of findings on MRI and CT scan imagery and mockery (cruel and unusual
1196 treatment) of a patient in serious condition.

1197 **REMEDY SOUGHT:** Retraining on how to correctly recognize and identify the
1198 physical and medical signs of a person with the hereditary condition of “Wilson’s
1199 Disease”. Automatic referral without fee to anyone who can’t afford (has no medical
1200 insurance), in this area for laboratory testing to verify if the local populace has the
1201 condition or not. Retraining on the best inexpensive care these persons can do for
1202 themselves that find out they have the condition. Arrest for his part in the aggravated
1203 assault and possible homicide conspiracy if this person did intentionally participate in
1204 leaving me undiagnosed and dying and was not just doing so in ignorance.

1205

1206 **DEFENDANT:** Regina Danielsson, 510 N 4th Av, Sandpoint, ID 83864

1207 **COMPLAINT:** Over a period of months, I sought an appointment with Ms. Danielsson
1208 as the only recommended, and to my knowledge, the only competent person providing
1209 colon hydro therapy to the public in my town. Due to the extreme toxicity, and pain in
1210 my colon following the homicide attempt at Deaconess and furthermore, after I read I
1211 needed to do so after my liver gallbladder cleanse I sought treatment from Ms.
1212 Danielsson. I have been unable to obtain an appointment to this date. I am still suffering

1213 in great pain as a result. Books I have read state that this is an absolutely necessary
1214 treatment for a person with my history and in my condition. In desperation, after being
1215 ignored by Ms. Danielsson, I started to leave messages between weeks that would go by
1216 with no appointment, that I was willing to pay her extra if she would just treat me. Some
1217 might believe that an enema accomplishes the same thing, but from what I read the
1218 treatment cleanses a large portion of the intestines and not just the rectum and portion of
1219 the colon as a self administered enema might. I am not some pervert, I do not have any
1220 ulterior motive, I simply need the medical care that to this date I have received no reason
1221 for being denied.

1222 She complained to the police which brought in Officer Koch to participate in her illegal
1223 discrimination, willfully denying me necessary medical care; amounting to prolonging
1224 my suffering, and leading to eventual serious ailments or death.

1225 **REMEDY SOUGHT: TREATMENT!** And that if Ms. Danielsson indeed has a
1226 problem treating the male sex that she would train competent assistants that don't
1227 because from what I can tell, by observing skin conditions and eyes and other tell tale
1228 signs, many people in this region need this care including men. If she yet refuses to treat
1229 me, I want her criminally charged with aggravated assault, and potentially her
1230 participation in my unlawful demise in violation of my God Given, humanitarian, and
1231 constitutional rights. If she does treat me, then no charges, but still needs to train
1232 someone who doesn't discriminate against men. Furthermore, I want her observations of
1233 my internal condition well documented for the court.

1234

1235 **DEFENDANT:** Les Schwab Sandpoint, 279 Bonner Mall Way, Ponderay, ID 83852

1236 **COMPLAINT:** One day while parked in the parking lot across the street near Staples
1237 Sandpoint, my brother and I parked and went into shop. When we came out and started
1238 to drive away, the Subaru we were in had been obviously tampered with while in the
1239 parking lot to such a degree it was mandatory to take it immediately across the street to
1240 Les Schwab. The staff there was obviously expecting us. This gave me grave concern as
1241 immediately someone ran out and sped off the main lot with the car and into the back
1242 shop. When I tried to trail my car, a government plated vehicle pulled up, two young
1243 men laughed and started to close up the back structure as if it was funny or some game
1244 that they were involved in. I was confronted when I said I wanted to see what they were
1245 doing with my car with a lie that it wasn't in the back shop when I saw them pull it in
1246 there. I went back into the main shop and told the assistant manager on duty that if my
1247 car wasn't returned immediately, I would call the police and file a formal complaint. A
1248 phone call was made and suddenly it was back. The shop was busy, they were expecting
1249 us, the reason it was pulled into the back is that government agents were rummaging
1250 through the vehicle and either installing a transceiver, looking for keys to trace, or some
1251 other illegal activity not properly authorized under the so called "Patriot Act", and these
1252 agents had manipulated the staff at Les Schwab to commit a felony. I filed a formal
1253 complaint with the names of those involved with the Better Business Bureau and never
1254 received a response to date.

1255 **REMEDY SOUGHT:** Those that tamper with vehicles and have foreknowledge of
1256 vehicular tampering and drive a vehicle off the property to participate in illegal searches
1257 or additional tampering have committed felonies. They should be arrested and fired. The
1258 manager on duty and the assistant manager had full knowledge. They have participated

1259 in conspiracy and illegal activities against my person and property. It should be
1260 broadcast throughout all corporations that they are not to be coerced into any illegal
1261 unauthorized activities, especially felony activities against any person by any so called
1262 government agents. The money spent on the repair of the damage should be reimbursed
1263 because they expected to gain income by knowledge of illegal activity and did not
1264 correctly report it to proper authorities. This should be reimbursed even though I did not
1265 let Les Schwab effect the repair because of the circumstances. It should be reimbursed
1266 because for *expected* gain, staff were coerced into participating in felonies against my
1267 person and property. The court is requested to issue a subpoena of the staff on duty at the
1268 date and time in question and a copy of the complaint filed with the Better Business
1269 Bureau that never received a response.

1270

1271 **DEFENDANT:** Manhattan Life Insurance Co., P.O. Box 5416, Cincinnati, OH 45201-
1272 5416; 11815 N. Pennsylvania St. Carmel, IN 46032 (Certificate of Authority LC629)

1273 **COMPLAINT:** I requested by phone and in writing the cancellation of the policy I had
1274 with them, because due to the attempt on my life by the medical practitioners and the
1275 ongoing cover up; it soon became apparent that money was the motivator. Out of
1276 concern for my wife and I, I deduced that motivation would be less likely if the bounty
1277 was taken off of our heads. Think about how many people have died for far less than an
1278 estate or life insurance policies, then think about all the scandals and corruption that has
1279 been taking place in our government in recent history, ask yourselves with trillions of
1280 dollars changing hands by inheritance and in our greedy, instant gratification society if
1281 what I'm stating isn't a serious possibility (and in my case has happened). Think about

1282 the advantage they have! License to kill, authority to spy on citizens, monitor their real
1283 property holdings and assets, bank accounts, etc. Tell me seriously that you believe there
1284 are NO criminals in our government! The righteous ones I call out to immediately
1285 investigate this area and across the nation (it could be they chose remote north Idaho
1286 before larger cities or perhaps it's already in practice across the nation, but men and
1287 woman of integrity in public trust, PLEASE help bring this nation back from all this evil!
1288 This was the exact type of events that transpired just before the holocaust of World War
1289 II. I am sacrificing all to warn innocent Americans, PLEASE DON'T IGNORE THIS
1290 ALARM! At the very least they can loot personal property of the victims and if friends
1291 or relatives come forward, they can just say they must have been robbed (and either
1292 blame it on some other poor victim or leave the case unsolved). I'm not claiming that all
1293 law enforcement is guilty or corrupt, but it only takes a few, AND IF THOSE FEW GET
1294 AWAY WITH IT BECAUSE NO ONE TAKES ME SERIOUSLY, IT WILL SPREAD!
1295 If anything happens to myself or my wife (battery, rape, our deaths, ANYTHING,
1296 investigators should find out where ALL law enforcement of federal, state and even local
1297 levels were at the time of the crime)! I HATE HAVING TO POINT THIS OUT, I
1298 REALLY LIVED IN A FANTASY WORLD THAT PEOPLE GOT INTO THE
1299 HEALTH CARE PROFESSIONS BECAUSE THEY CARED ABOUT OTHERS AND
1300 THAT LAW ENFORCEMENT WERE ALL THE "GOOD GUYS"! I AM REALLY
1301 DISAPPOINTED OF THE SHATTERED FILTER ON REALITY I HAD. I kept
1302 thinking when we'd see abuse of authority on the news that it was just a few gone bad,
1303 BUT JUST A FEW IN PUBLIC TRUST GONE BAD CAN PERPETRATE SERIOUS
1304 CRIMES AGAINST INNOCENT CITIZENS WITHOUT GIVING US MUCH

1305 RECOURSE TO DEFEND OURSELVES! AND SADLY IF WE DO ACTUALLY
1306 DEFEND OUR LIVES FROM CRIMINALS IN AUTHORITY, WE CAN BE
1307 MISTAKENLY LABELED AS A CRIMINAL OURSELVES AND SHOT TO DEATH
1308 BY RIGHTEOUS AUTHORITIES JUST FOR POINTING OUT THAT SOME OF
1309 THEIR COWORKERS MIGHT BE SERIOUS LAW BREAKERS! Corrupt authorities
1310 could've put pressure on someone working at Manhattan Life and was the reason why I
1311 had such a difficult time (took months) canceling my policy. Manhattan Life did not
1312 heed my requests or take them seriously. Therefore, if I and/or my wife are murdered in
1313 the near future (or arrested for some false accusations and then murdered while confined)
1314 our estate absolutely can not go to any part of the government and the people at
1315 Manhattan Life that ignored my requests, should also be charged for their part in our
1316 deaths as well as any overt criminals that are disguising themselves as law enforcement
1317 officers. This company after months issued me a letter stating my policy was canceled
1318 but I am not certain that the responsible parties shouldn't be charged with the aggravated
1319 assault and the threat upon my life during the delayed response of months to cancel.

1320 **REMEDY SOUGHT:** On top of the serious crimes I've personally experienced; other
1321 serious crimes are possibly being perpetrated here and are actually a standard of practice;
1322 so other jurisdictions must be notified and investigated to make certain there are no
1323 corrupt officials giving their jurisdiction a bad name. This is identical to the activities of
1324 the Third Reich just before open persecution and concentration camps and must be put to
1325 a stop immediately or I believe will repeat right here in the United States. If I live
1326 through this, miraculously, then at a future date I would like to be able to bring my
1327 premium current that I was forced to try to cancel due to these extreme crimes and

1328 designate the beneficiaries and record them with trusted executor(s) at that time. I am
1329 seriously concerned that when there is so much corruption, that life insurance policy
1330 reviewers might be bribed or threatened to participate in state pay off scams like this;
1331 therefore there must be an agency that reviews all so called “intestate” pay offs and make
1332 certain NO ONE employed by the insurance company is getting any personal kick backs!
1333 I see a terrible death machine for profit looming on the horizon; if it isn’t already in
1334 place; and there is not open and public review of all deaths and where personal property,
1335 real property and life insurance monies actually end up (with regards to all so called
1336 intestate demises). There should be implemented immediately a change in law that does
1337 not make the state ever to benefit financially even in the event of “intestate”. It should be
1338 mandatory and a matter of public review that all citizens designate some charity(ies) (the
1339 list to choose from can not be generated by or have any connection to do with “the
1340 state”/government, and a review of all such charities be publicly conducted at regular
1341 intervals to make sure the same problem doesn’t just move over to them) of their
1342 choosing should they not have wills or survivors as beneficiaries and that their choice(s)
1343 remain undisclosed in the safest confidence until the time of “death” (upon which
1344 representatives from relatives and the many charities behold the opening of the document
1345 simultaneously). The state, law enforcement, doctors, coroners, etc. should NEVER have
1346 access to personal or real property of the deceased. To do so GUARANTEES corruption
1347 and profiteering off homicide and perhaps will evolve due to unprecedented greed into
1348 mass murder that surpasses the atrocities of World War II, if something isn’t done right
1349 away to stop this.
1350

1351 **DEFENDANT:** Cancer Care Northwest, Dr. Robert Laugan, assistant Linda Smith,
1352 12615 E. Mission Av Ste. 200, Spokane, WA 99210

1353 **COMPLAINT:** Dr. Laugan refused to run the diagnostic tests to determine absolutely if
1354 I had the hereditary condition known as Wilson’s Disease. After years of suffering, and
1355 at great duress I had finally obtained an appointment with a so called hematologist that
1356 was nationally recognized and considered at least by a couple practitioners to be the
1357 specialist to see. He didn’t even read the simple tests he could’ve conducted easily that I
1358 was willing to pay for and was specifically requesting be done. He reluctantly agreed to
1359 look at my blood morphology to determine if I had one of the symptoms of the condition,
1360 spherocytosis. I know for a fact I have the condition having been previously diagnosed
1361 and having viewed my own blood in the past and recently. I was a medical lab tech in the
1362 Army and I know how to identify this condition. Here was a specialist that couldn’t
1363 recognize a condition that any child or person with eyes that see can readily do. I then
1364 found out Burgstahler had told him not to find the condition, skewing objective results. I
1365 also found out that Linda Smith handled the samples and that Dr. Laugan didn’t review
1366 the sample until the following day. With all of the other government interference and
1367 cover up, it was not out of the realm of possibility that either my blood sample had been
1368 switched or that Dr. Laugan’s life had been threatened as others not to correctly diagnose
1369 me. Either way, I gave Cancer Care Northwest every chance to see me again, follow my
1370 blood from my arm or finger directly to the slide with no possibility of switching slide or
1371 sample in order to accurately view my blood and make accurate determination. I gave
1372 repeated opportunity over a period of months to Dr. Laugan to correctly diagnose me and
1373 run the simple tests involved in determining “Wilson’s Disease”. Cancer Care Northwest

1374 and Dr, Laugan left me undiagnosed, untreated, suffering and dying. In addition, I noted
1375 many of his patients have the condition that are dying from various forms of cancer and
1376 yet are not being treated or informed of the root connection and cause as a result of this
1377 facilities willful negligence and ignorance on how to identify this prevalent condition in
1378 this region of the country. In addition, I noted by a recent viewing of my blood
1379 morphology that I may have also developed a form of Leukemia I believe is referred to as
1380 M5 Type 2.

1381 **REMEDY SOUGHT:** An ACCURATE DIAGNOSIS! As a result of this so called
1382 experts inability to identify obvious conditions of my blood, my wife and friends,
1383 colleagues and community all think that I don't know what I'm talking about; so much so
1384 they think I'm not sane or that I have some mental condition. It has caused me not only
1385 an inability to obtain financial aid for myself with "terminal" condition(s), but to incur
1386 slander and libel, job loss, marital stress of unimaginable proportions, illegal
1387 confinement, emotional and prolonged physical suffering that few can even imagine (who
1388 haven't suffered with these conditions left untreated). I have had to spend thousands of
1389 dollars desperately trying to treat myself and educate myself and at the same time salvage
1390 my marriage, so incredibly under attack due to all the illegal actions of the participants
1391 who for greed, don't care about the MANY lives they are destroying and leaving in
1392 unimaginable pain and suffering. I am prepared to drop any damages against Dr. Laugan
1393 and Cancer Care Northwest, if and only if, Dr. Laugan will see me again, ready to
1394 immediately run the tests at my appearance and diagnose at my appearance, by drawing
1395 my blood personally and going directly to the slide; allowing me to view it and take
1396 digital images of it; so that if he still can't recognize OBVIOUS morphology, I can know

1397 with perfect certainty that his life must have been threatened and confirm the willful
1398 conspiracy that is so obviously in place. If he does accurately diagnose me, then I can
1399 obtain preliminary payment on my life insurance policy (if I can get it reinstated under
1400 the circumstances), disability, and can finally rest and perhaps miraculously recover my
1401 strength or at least be comforted in my death rather than forsaken by friends, family,
1402 acquaintances, and my own wife because they think I'm not terminally ill at all thanks to
1403 all the incompetence, negligence or at worst homicidal, very sadistic conspiracy. I
1404 request that Cancer Care Northwest have their staff retrained on how to recognize the
1405 obvious physical symptoms of the condition and then how to diagnostically test and treat
1406 the condition here locally, because it is obvious to me after much research that many
1407 (tens of thousands) who live here in the northwest have the hereditary condition being
1408 wrongly called Wilson's Disease. Begin scrutinizing the health care industry to make
1409 certain no more sadistic, (no more cruel and unusual death practices for profit or sick
1410 pleasure) people are allowed to torture and put to death any more innocent people either
1411 through negligence or intent. Perhaps health care professionals that are in a particularly
1412 difficult professions, such as dealing with people in great pain, who yell and scream at
1413 them as a result of their personal suffering need to have schedules that give them regular
1414 lengthy breaks from enduring the results of people being in such pain; so that they are not
1415 adversely affected (like slowly thinking that by killing these people they are doing the
1416 victims, themselves and society a favor). I believe that it is possible that relatively decent
1417 individuals if exposed to a constant bombardment of people who in great pain might be
1418 rude, loud or short tempered might become adversely affected enough to do things that
1419 when they first started their profession they would never have imagined. It may be

1420 necessary to give them regular breaks like one week on one week off and a month or two
1421 spa vacation for those exposed to especially difficult situations in their jobs like being
1422 around great emotional or physical pain and death on a regular basis. It is necessary in
1423 my opinion that surveillance of the health care industry by public not for profit agencies
1424 begin immediately every where to make certain hideous torture, cruel and unusual
1425 treatment, and sadistic or otherwise homicides in the industry come to a halt. Every
1426 person that checks into any hospital whether public or private, is bodily accounted for
1427 and the body can physically be located (doesn't disappear and has no evidence of murder
1428 or abuse in any way). Interviews, need to begin in all "mental health" institutions of all
1429 patients/victims and they need to have their personal complaints seriously investigated no
1430 matter how insane or horrible their accusations may sound. I HAVE REITERATED
1431 THESE SUGGESTIONS OF REMEDIES ON PURPOSE! Many in this region appear to
1432 be suffering from "Wilson's Disease" and could potentially become a victim like unto
1433 me. I am able to make this extrapolation based on the fact that everywhere I go I observe
1434 a large percentage of the people with the most obvious of the physical signs and
1435 symptoms. If Dr. Laugan and Cancer Care Northwest refuses still to make absolutely
1436 certain they have analyzed MY blood and analyzed it correctly, then I want him, his
1437 assistant (who I believe had access to the blood samples and switched them with
1438 "normal" blood), and those who systematically blocked me from obtaining necessary
1439 diagnosis, treatment, and long term care necessary for those in such terminal condition(s);
1440 to be likewise charged with their part in the conspiracy leaving me in tortuous pain and
1441 dying. (Aggravated assault, to negligent or premeditated homicide should I rest ("die")
1442 before obtaining diagnosis and treatment). Also that those found guilty have their assets

1443 liquidated and placed in the victims fund, that I would like to see one trillion of which
1444 pay for the ongoing investigations across the nation (and hopefully becomes global).

1445

1446 **DEFENDANT:** MCI and Verizon, MCI/Worldcom, 205 N Michigan Av Ste 2700,
1447 Chicago, IL 60601-5924, Verizon, 1095 Avenue of the Americas, New York, New York
1448 10036

1449 **COMPLAINT:** MCI billed me over \$6000 illegally and refused to cease collections
1450 attempts and damaged my personal credit. They were not the authorized carrier at the
1451 time of the charges they have billed me for. Verizon refused to assist me in telling them
1452 plainly that they were not the authorized carrier. Verizon acknowledged that they were in
1453 fact the authorized carrier but made the excuse that I must've dialed some special
1454 numbers in order to bypass the plan I had just called and put intentionally in place just so
1455 I could pay thousands of dollars extra (sarcastically stated). In addition, Verizon
1456 regularly generated bills in excess of their most expensive pay plan advertised and even
1457 though seriously ill I spent days of my time trying to get the excessive charges reversed
1458 to no avail. Their willful participation in depleting my funds and destroying my credit
1459 and attempting to cease my ability to communicate with others smacks so strongly of
1460 government meddling under the circumstances (since I know they have coerced others
1461 and that they have ties via the FTC with all telecommunications industries (especially
1462 since the "Patriot Act")); that I must conclude that there is simply no way coincidentally
1463 all that has happened to me has just by pure chance occurred simultaneously and without
1464 conspiracy.

1465 **REMEDY SOUGHT:** No more monopolies. No more intentional hassles (like
1466 prolonged holds on the phone, and arguing customer service reps) when someone points
1467 out billing errors. Any errors should be credited double to the victim at first and then
1468 triple and quadruple and so on for every billing error and every false defamation or
1469 assault on credit carry serious financial consequences to be paid to the victim(s). Any
1470 prolonged excessive, illegal billing practices resulting in damage to the credit of innocent
1471 consumers, should have the CEO and all acting officials suffer credit damaged
1472 proportionately and personally reimburse those they injured by these outrageous
1473 practices. No more government ties to corporate entities (no more bribes allowed
1474 period). Absolutely, no more government manipulation of the telecommunications
1475 industry or curtailing in any way a citizens right to communicate with others thereby.
1476 Every incident of the state destroying a person financially, should have all the actual
1477 people in the government that effected the destruction of credit and credibility to have
1478 their assets liquidated and paid to the victim. This is so serious that if left unchecked
1479 virtually no citizen is safe from our so called public servants (that have turned to criminal
1480 activities) who although sworn to protect and serve us, have become oppressors,
1481 persecutors, spoilers, murderers and all for the love of money – GREED!

1482

1483 **DEFENDANT:** City of Bonners Ferry Water and Sewer, 7232 Main St, Bonners Ferry,
1484 ID 83805

1485 **COMPLAINT:** During this same time of repeated excessive billing from various
1486 companies, the City of Bonners Ferry took over water and sewer for some lots that Jane
1487 and I owned. They then sent me bills for service, though the lots were vacate and not in

1488 use of water or sewer save one. We purchased the property with all water and sewer
1489 hookups paid for and meters on site. They threatened unilaterally that if we didn't pay
1490 their sudden demands, that they would remove the meters and perhaps part of the
1491 infrastructure we already paid for and owned outright as appurtenances to our property.
1492 Though we made no agreement for service, they took it upon themselves to send bills and
1493 force us to give up our already paid for hookups or pay for service we weren't using at all
1494 and couldn't afford under these circumstances. Even if we could afford, should not have
1495 to in good conscience pay for what we already purchased or suffer extortion by credit
1496 damage, liens and threats of loss of property that is owned altogether by us.

1497 **REMEDY SOUGHT:** It should be illegal to unilaterally start billing anyone without an
1498 agreement for service. It should be illegal to make someone pay for equipment and
1499 infrastructure and then extort monthly fees, then trespass, remove property paid for in full
1500 and make a person pay for it all over again. I want anyone and everyone who did so
1501 arrested for theft. I want all money paid by this extortion returned to me. I want laws
1502 passed making it illegal to bill for potential service; that if the product or service isn't
1503 actually being utilized then there can be NO FEE, NO BILL! I want any damage to my
1504 credit removed. I want any stolen meters returned. Never again should any authorities
1505 behave so ashamedly toward it's own citizens and POTENTIAL customers. Agreement
1506 for service must be bilateral and in writing. It might be acceptable to charge a minimum
1507 amount for an average use per household, just to simplify billing, but to charge when NO
1508 SERVICE is being utilized must be illegal or people will just start sending bills out to
1509 everyone simply because in their mind they have the potential to offer some necessary
1510 service. Every industry has maintenance costs, to force citizens to pay for utility

1511 expansion and installation and to pay for them to maintain their growing entity even
1512 when not using the service sets a terrifying precedence for all companies just to start
1513 billing citizens to maintain their companies or pay for their expansion. (For example, the
1514 transportation industry has trucks, etc. to maintain, we all rely on the transportation
1515 industry, we potentially use a product or service related to the transportation industry,
1516 with the insanity of the utility type billing, they could force citizens to contribute and so
1517 on until everyone would feel justified in sending monthly billing to citizens to maintain
1518 and expand their entities just like the utilities do). It violates the trade principle since the
1519 inception of man! Normally in a sane society someone offers a product or service in
1520 exchange for a fee; but the utilities charge just for the POTENTIAL use of a product or
1521 service; essentially getting away with billing when no product or service is utilized. I
1522 don't see any difference between their actions and strong arm robbery. They started
1523 sending me bills unilaterally, threatened my property that I owned and paid for in full and
1524 my credit, filed liens and forced me to pay them money; though I never agreed to and
1525 wasn't using their services! (So called legalized extortion) In order to convey one of my
1526 lots, the City forced me under duress because I didn't have any other source of income
1527 and because I'm so seriously ill and didn't have the strength to take on all these battles at
1528 once, that I was forced to pay the liens they filed against my properties, EVEN THOUGH
1529 I NEVER AGREED WITH THEM FOR SERVICE AND EVEN THOUGH ALL
1530 WATER AND SEWER HOOKUPS WERE ALREADY BOUGHT AND PAID FOR IN
1531 FULL! This is just another of many attempts to destroy me through organized
1532 conspiracy, greed and illegal abuse of government powers. Altogether, all the events that
1533 have transpired during this time smack of conspiracy of such an organized level, the

1534 federal government must be involved. I reiterate, such practices must be illegal, all
1535 money returned to me that I paid, liens lifted, credit restored, meters and any other
1536 infrastructure removed restored in full and in working order and if not done promptly
1537 arrests made of the perpetrators who trespassed and robbed me of property I owned.

1538

1539 **DEFENDANT:** Glenn and Katherine Westbrook, C/O Brigitte Westbrook, 3163 N 12th
1540 St, Coeur d'Alene, ID 83814 (Glenn and Katherine are known to reside in the Coeur
1541 d'Alene region and may have moved into their home that last I knew was under
1542 construction in the Wolf Lodge subdivision of 20 acre parcels or larger – I request the
1543 court subpoena their exact location via tax assessor's or treasurers office. The above
1544 address is the mother of Glenn Westbrook and she should know how to contact them).

1545 **COMPLAINT:** Katherine Westbrook came to my house one day after a particularly
1546 conspicuous day of government vehicles tailing, impeding and otherwise harassing me as
1547 I was taking my wife into town. My wife didn't know and perhaps still doesn't know
1548 how to recognize government issue plates. After murder attempts, coercion, agents
1549 openly replacing citizens in places of business and in hospitals, I didn't know what they
1550 were doing by tailing me and my wife. I was genuinely concerned for her safety. I
1551 photographed the plates and vehicles harassing us. Since she didn't and perhaps still
1552 doesn't know how to recognize such, she was frightened and so I dropped her off where
1553 we were meeting the Westbrooks at Kootenai Medical Center. They had told me that a
1554 Wilson's expert was there, but after all the government tailing I was genuinely concerned
1555 about going into the hospital especially since they had openly coerced others into leaving
1556 me undiagnosed and especially since my last stay in a hospital resulted in my clinical

1557 death – TWICE by overt and sadistic murderers. So I dropped my wife off and returned
1558 home. Katherine Westbrook, then met me at my house, where she swore to GOD that
1559 there really was a Wilson’s expert at the Kootenai Medical Center and that I could finally
1560 get accurately diagnosed. She also swore to me that she would never leave my side and
1561 that I would not spend more than one night there, just long enough to get tested and
1562 diagnosed. Regardless, she swore to GOD, she would not leave me unattended or there
1563 for more than a day. While she was so swearing and convincing me to go and hopefully
1564 finally get tested and a correct diagnosis, I noticed a device that looked like a black
1565 plastic gas cap on the ground on my property. I intentionally picked it up by scooping it
1566 into my palm; never touching it with my fingers. I held it in my palm, it had weight that
1567 indicated metal parts sealed inside the plastic and had a glass magnifying lens in the
1568 center of the stem. It was obviously a spying device. I didn’t want whoever was
1569 listening to know that I recognized what the device was as I was concerned for the safety
1570 of Katherine if they were nearby. I tossed the device on the ground mentally telling
1571 myself I would pick it up later and add it to my collection of accumulated evidence. By
1572 swearing to GOD and myself, Katherine deceived me into entering her truck and she
1573 drove me to Kootenai Medical Center. Glenn Westbrook was there and they all
1574 pretended to be looking out for agents while they deceived me into thinking they were
1575 helping me get accurately tested and diagnosed. A brunette woman with short curly hair
1576 in her 50’s; with a gun in her purse came over to listen to our conversation in the waiting
1577 room and became clearly uneasy as Glenn was boasting about ripping people’s heads off,
1578 if someone actually tried anything. The woman then got up and moved further away
1579 when a bald gentleman (appeared to also be in his 50’s or low 60’s) of wirey build sat

1580 down and spoke in hushed tones with her telling her to remain and make certain I didn't
1581 leave. She was obviously very nervous and potentially an inexperienced agent. She then
1582 came back over to continue to eavesdrop on our conversation. I was astounded that both
1583 Glenn and Katherine were so oblivious to these activities when they were both retired law
1584 enforcement. They had set up with the hospital, to have me "tested" but the real agenda
1585 was to get me into the Mental Ward of North Idaho Behavioral Health. They told me that
1586 unless I signed the paperwork committing to being responsible for payment that there
1587 was no way I'd get to see the Wilson's expert. I asked them again, to make sure they
1588 were not leaving me and that I was only getting tested for Wilson's and that after that we
1589 were all leaving together. I can not express the terror, anger and disappointment I felt as
1590 I watched them walk away realizing she/they had lied to me and GOD in order to betray
1591 me to illegal confinement. Shortly, Dr. David Wait, strolled up and had already written
1592 down a diagnosis without even having talked with me. He accused me of having some
1593 very serious mental disorder, at which pronouncement I knew I was not going to get to
1594 see an expert on Wilson's Disease and that it had all been a lie. I asked to be released
1595 immediately. Dr. Wait then got on the phone and I heard him tell my wife that unless she
1596 told him that she felt threatened by me, that he couldn't keep me. Then he returned and
1597 rather happily announced that he was placing me on administrative hold because my wife
1598 had told him she was afraid of me (having been coached by him to say so). I was
1599 illegally detained in this manner for a week. NO ONE SHOULD BE DETAINED
1600 EXCEPT BY PROOF OF A COMMITTED CRIME, OTHERWISE ANYONE COULD
1601 BE LOCKED UP SIMPLY BECAUSE SOMEONE ELSE STATES THEY ARE
1602 FEARFUL (This is CLEARLY a CONSTITUTIONAL VIOLATION)! Dr. Wait gave

1603 me four drug choices and then removed the only one (lithium) that didn't carry a lethal
1604 warning for people with liver complications; of which was obvious visibly and by lab
1605 results, that I had. While there I noticed food tampering and I saved a lid that had been
1606 stabbed by needle point (as if to inject harmful poison). There also was an incident in
1607 which employees put shiny metal objects in a line on the grass leading up to my window.
1608 While there I met those who testified of outrageous cruel and unusual practices and
1609 almost didn't make it out as Dr. Wait was trying to get me committed to a state facility
1610 (in which I would have probably already been dead by now if he had succeeded). Even
1611 the tiniest amount of the prescription he ordered for me had serious side effects of
1612 swollen lips and tongue, diminished mental capacity, dizziness and numbing in my left
1613 arm.

1614 **REMEDY SOUGHT:** The Westbrooks are guilty of kidnapping through deceit with
1615 intent to defame and illegally incarcerate me in violation of my constitutional rights.
1616 They are directly responsible for coercing me to signing paperwork under false pretenses
1617 that has resulted in incredibly unjust billing of almost \$16,000. I would not have gone or
1618 admitted myself for any other reason other than Katherine's oaths to GOD and the
1619 desperation I had to obtain an accurate diagnosis because the lack of it was endangering
1620 my life and my marriage. It is bad enough to know I'm seriously ill (the medical field
1621 considers terminally ill), but worse to have your wife leave you because she thinks your
1622 crazy simply because of the overt cover-up or at best criminal negligence. So during the
1623 most painful and serious struggle for my life, slander, illegal incarceration, libel, mis-
1624 diagnosis and instead of having the dignity of a comforting, understanding wife, she
1625 believes the so called physicians in the region that have failed either by negligence or

1626 intent to correctly diagnose me. So I know I'm dying, and in this great sorrow, this is
1627 how my so called friends and family treat me due to the outright GREED of others that
1628 has either left the medical field intentionally ignorant and incompetent or willfully so
1629 because it's so profitable for them all to keep the public sick and dying. The bill should
1630 be removed and any money paid returned to me, but if the court determines somehow it
1631 to be legitimate, the bill should be sent to these people. While they are guilty of a felony,
1632 I believe that they believed they were actually trying to help me although that wasn't the
1633 result and so I don't want to see them arrested, just restrained from ever doing anything
1634 like that to me again and to pay the bill if the court determines it to be valid. Since my
1635 wife and the Westbrooks are still under the misconception brought about by the lack of
1636 correct diagnosis and mis-diagnosis, I must request injunctive relief against the
1637 Westbrooks, in the form of a restraining order that they are not welcome on my property
1638 or within 1000 feet of my presence until after this matter has been resolved.

1639 **DEFENDANT:** Dr. Stephen Puffer, 502 N 2nd Av, Sandpoint, ID 83864

1640 **COMPLAINT:** I went in to Dr. Puffer's office to request an appointment months ago.
1641 He had an honest reputation in the community, was recommended by a trusted coworker
1642 and I thought I might be able to get an accurate diagnosis through him. While there an
1643 agent told the receptionist on duty that she would take care of me and to remain silent in
1644 the back. She didn't realize I could hear them talking. So I knew my request for an
1645 appointment didn't get through that afternoon. I then called several times and requested
1646 an appointment. With no excuse, once again I have been denied medical care.

1647 **REMEDY SOUGHT:** I believe Dr. Puffer can recognize spherocytosis and would like
1648 an appointment so that I can find at least one honest physician in the area; that I can make

1649 aware of how to Diagnose Wilson’s hereditary condition; not only for myself but for any
1650 I might refer (I repeat I’ve seen MANY up here that have the obvious physical signs of
1651 the condition) to get tested simply because if a person knows before something like this
1652 happens, they can take adequate precautions and find out the best method of treatment for
1653 them before they develop something serious.

1654

1655 **DEFENDANT:** Sandpoint Urgent Care, Dr. Mark Hernandez, 302 S. 1st, Hwy 95 @
1656 Superior Sandpoint, ID 83864

1657 **COMPLAINT:** This might seem unusual in light of the circumstances, but my complaint
1658 is that after every physician in the region that I had met, either didn’t even know about
1659 Wilson’s or if they heard of it didn’t know how to test for or recognize the obvious
1660 symptoms, this physician without running any diagnostic tests and to the best of my
1661 knowledge, hadn’t seen any of my medical records, just stated outright that Wilson’s was
1662 very common. This is after many months of no progress, willful cover up or extreme
1663 incompetence or negligence. Suddenly, the malpractice swung the other way. His
1664 “nurse” didn’t have a permanent name tag although everyone else did. She held my arm
1665 in an intentional martial arts method form of control and disablement when taking my
1666 vitals. Dr. Hernandez acknowledged without questioning me, without running any tests,
1667 without looking at any records that I had the condition (although I would be surprised if
1668 that is in any official medical records) and gave me a prescription for pain relief for
1669 Cymbalta. I was in so much pain and had suffered so much already, that I accepted the
1670 prescription even though I really don’t like taking any pharmaceutical medications. By
1671 the pendulum swinging so drastically the other way, I became concerned that this person

1672 must have been either working with agents or perhaps trying to silence me by lulling me
1673 into a false sense of security. Regardless, to suddenly agree with a patient of a terminal
1674 condition without any diagnostics, and in a region where physicians were vehemently
1675 either denying I had the condition or didn't even know about it, to stating it was common
1676 place gave more than cause for suspicion that this person could be dangerous to my
1677 health and safety if colluding with those trying to keep these events from public
1678 knowledge. I saw this as an effort to gain my trust; so that they could give me a sedative
1679 and dispose of me or confine me away in some institution where I'd either die or become
1680 a missing person or given medications to make me brain dead and then returned to streets
1681 or society. Granted I recognize that sounds like extreme paranoia, it just didn't make
1682 sense to me and I had that same terrible uneasy feeling in my inward parts as I did the
1683 day of surgery when dealing with him and his assistant. It is malpractice not to diagnose
1684 correctly, and it is malpractice to diagnose without conducting any tests. I do
1685 acknowledge that he wanted to conduct more tests later, but I was and am still seriously
1686 ill and because of his temporary name tagged nurse, the method of holding my arm
1687 (contrary to any who had done so previously and in a controlling, disabling method), his
1688 overt casual statements that a terminal hereditary condition was very common place
1689 (contrary to what is disseminated by the International web site on "Wilson's Disease")
1690 when all other physicians I had met thus far in the area barely seemed to know what it
1691 was caused me to be distrustful of him. I did not know that if I went in for more "tests"
1692 that he wouldn't try to sedate me or do some other malicious act because it is a method
1693 for those who would do so to attempt to gain your trust first to place you off guard. His
1694 lack of common place skepticism and lack of professional procedure gave me cause for

1695 great concern. Even if in fact he might have been the only physician I had met that knew
1696 that Wilson's was rather common place in this region especially but affects far more than
1697 the official website indicates as a "rare" condition (I think close to ten percent of the
1698 world's population based on extrapolation of the viewing of documentaries of the people
1699 in other nations going about their day to day lives and observing how many nationalities
1700 indicate easily observable physical symptoms of the condition and the percentage of
1701 those demonstrating versus those not demonstrating those physical signs in the many
1702 random samples). If he knew it was so common place, I didn't understand how all the
1703 other physicians didn't, and why the public didn't and why there was no awareness
1704 posters like is generated for AIDS or other serious conditions; especially in his offices.
1705 Furthermore, that if he could so easily diagnose and recognize the condition how he had
1706 failed to diagnose my own wife who was/is also a patient of his and had been in to see
1707 him quite a few more times than the one visit I had. So altogether, this made me
1708 extremely wary of ever going to see him again.

1709 **REMEDY SOUGHT:** Malpractice in all it's forms must cease. Correct diagnoses of all
1710 conditions should be obtained by methodology that other professionals can recognize and
1711 acknowledge; so long as that methodology is not harmful to the patient. Government
1712 control or coercion or persuasion of what health care professionals do or don't do must
1713 cease to be a danger to the public. The government should be making certain the public
1714 is informed, educated and is protected from corruption in the health care industries. Dr.
1715 Hernandez and any records at urgent care be obtained by subpoena to testify how he was
1716 able to diagnose me (and reveal if in fact he ever made the diagnosis); if he is willing to
1717 acknowledge it now, and if he actually can recognize that Wilson's is rather common and

1718 how to diagnose it so easily, why he failed to diagnose my wife whom he had seen more
1719 often than the one visit I had with him. Either way, he was either in collusion (in an
1720 effort to gain my trust to possibly sedate and send me back to some mental ward or
1721 hospital where they'd try and make good what they started) with or persuaded with the
1722 ongoing cover up of the corrupt medical practitioners, the attempted homicide, and the
1723 government and corporate money interests in leaving the general public in a state of
1724 ignorance of the facts surrounding Wilson's and my situation in particular; or negligent in
1725 correct procedures to diagnose myself and my wife in such a manner that we could obtain
1726 necessary medical care regarding the hereditary condition. I request a restraining order
1727 from having to conduct any further testing with this entity and Dr. and a subpoena of the
1728 medical records located at Sandpoint Urgent Care concerning my wife and I.

1729
1730 Finally, I do seek just compensation out of the victim's fund in that I've suffered real
1731 monetary damages. I was making a significant income in real estate, and multiplying it
1732 by investing, such that I was beginning to generate gross receipts in excess of \$100,000
1733 annually. More importantly my net worth was increasing exponentially as I reinvested.
1734 All my earning potential ground to a halt as a direct result of these events. To type this
1735 complaint has taken supreme effort and is my best effort to fight back not only for myself
1736 but for the many unsuspecting innocents and the other victims I've already met. I seek
1737 judicial, compensatory financial damages in an amount determined by the court for the
1738 real financial losses I've suffered. I also do ask the court to consider punitive damages in
1739 my behalf, as I may lose permanently my health and life insurance and ability to obtain
1740 such and it may be very expensive to try and find treatment that may help me recover, if

1741 GOD wills. I am so injured at this point I may never recover an ability to work full time
1742 again as I suffer not only extreme physical pain and fatigue, but emotional and mental
1743 difficulties (understatement) as a result of all of this. Specifically, I've been seriously
1744 considering a living will that ensures I am never taken to any hospital even if
1745 unconscious from some accident or if I have serious injuries. It is very difficult for me to
1746 even shop or drive anywhere due to the numerous federal agents and other spies or
1747 employees for our government and my concern that they don't have my best interest at
1748 heart. While I have faith in GOD and trust in the same, my trust of people has been
1749 seriously diminished, virtually sentencing my remaining days to an existence of extreme
1750 caution when in the presence of any other people. I hope the Lord will let me see some
1751 goodness yet in others to help rectify this sorrowful outlook. I can not begin to
1752 equivocate an actual amount for the inhumane pain and suffering I've endured thus far. I
1753 leave any financial award up to the discretion of the court and only ask that it not burden
1754 innocent tax payers in any way but come directly from the many criminals and
1755 conspirators involved.

1756

1757 I affirm the truth of my allegations under penalties of perjury and I'm willing to take an
1758 internationally recognized polygraph live; answering only questions as directly pertains
1759 to the allegations set forth in this complaint and attached affidavit, from an untampered
1760 machine (no remote control devices) and by (hopefully) unbribable, unthreatened experts.

1761 Any machine not indicating I'm telling the truth to be immediately investigated by
1762 experts to make certain no tampering, and any expert announcing that I wouldn't be

1763 telling the truth should have all bank accounts and recent assets scrutinized, or family
1764 investigated to make certain no bribes or threats. I AM TELLING THE TRUTH!

1765

1766 I, Michael Swenson, do hereby set my hand and execute this document.

1767 Signed this 26th day of Sept, 2007.

1768

1769 Michael Swenson

1770

1771 On this 21st day of September, 2007, before me, the undersigned

1772 Notary Public, personally appeared Michael E. Swenson,

1773 personally known to me (or proved on the basis of satisfactory evidence) to be the

Re: Process Service

Associated Messenger Service, Inc. recently left a voicemail with you to call us back so we could update you on the status of your paperwork, but have not received any phone call back.

We were unable to serve Dr. James Joy at Deaconess Hospital per your instructions. The staff at Deaconess threatened to call security and escort our process server from the premises if he left the papers. We will not put our process servers into any kind of dangerous or threatening situations and as such are returning this set of papers to you. You will not be charged for this attempt.

Process service was accomplished per your instructions of serving Dr. Timothy Chestnut at 104 S. Freya, Orange Bldg., Ste. 114, Spokane Valley, WA; and serving Dr. James Joy at 104 W. 5th, Ste. 250 E, Spokane, WA .

If you have any questions or concerns, please call Jeff at 509-252-4608.

Sincerely,

Associated Messenger Service
